

OUR MEN NO LONGER

"FINDERS IS KEEPERS," SAYS P. M. FRANKLIN AND A WOMAN KEEPS STAMPS

A little holiday tragedy which is an illustration of that old proverb, "It's an ill wind that blows no good," involving a wee bit of a girl, a prosaic old twentieth century street car and a woman, was brought to a close yesterday.

The girl—her identity has never been known—is the loser. The woman is the one who gained by the other's loss. The street car was the scene of action.

Just a few days before Christmas Mrs. Ostrander, thirty-three, thirty-second street, saw a young girl drop a package as she was leaving a Morrison street car. Before she could call the girl's attention to what she had left behind the car had started and

the girl had disappeared. Mrs. Ostrander took possession of the package. Upon investigation it was found that it contained five worth of one and two-cent stamps, all separated.

Mrs. Ostrander watched the papers for days, thinking some one would advertise for the lost stickers which are as good as gold. No ad appeared. Finally, she took the stamps to Postmaster J. W. Minto. No one had reported a loss to him. News items of the find were printed in all of the newspapers. Still no one appeared to claim ownership of the lost stamps.

Yesterday Mr. Minto returned the stamps to the finder, Mrs. Ostrander. The supposition is that the stamps had been stolen and that the person who stole the package has been afraid to appear to claim them.

HAWAIIAN SINGERS AT GRAND.

A troupe of Hawaiian singers is the best thing on this week's bill at the Grand. They sing a number of native and English songs in a way to meet the approval of the Grand audience.

When Adams got back to Portland with that story there were indignation meetings, but the last straw did not come until Senator C. W. Hodson, who did not want to defeat Bourne, went to Washington and was received most kindly by the junior senator.

It is even said that the United States senator took the state senator to see the president.

That circumstance put the final kibosh on the whole business and the Bourne following came to the conclusion that Bourne, thinking he had them nailed to his standard, was trying to patch up an alliance with the old machine and get back to Portland.

Organic disturbances of the feminine system act like a firebrand on the nerves of women, often driving them fairly frantic.

A nervous, irritable woman is a source of misery not only to herself, but to all those who come under her influence. That such conditions can be entirely overcome by taking

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

is proven by the following letters. Mrs. Mary Wood, of Christiansburg, Tenn., writes to Mrs. Pinkham:

"I had the worst form of female troubles and my nerves were all torn to pieces; sometimes I suffered so much that it seemed as though I could not live."

"I began to take Lydia E. Pinkham's Vegetable Compound and now I feel like a different person. Your medicine is worth its weight in gold, and I cannot say enough for your advice."

Mrs. Wallace Wilson, Thompsonville, Conn., writes to Mrs. Pinkham: "I was all run down, nervous, and could not rest nights. Doctors failed to help me. Lydia E. Pinkham's Vegetable Compound restored me to perfect health."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, etc.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

KLAMATH OIL MEN PUTTING UP MONEY

(Special Dispatch to The Journal.) Klamath Falls, Or., Feb. 18.—The incorporators of the Klamath Oil company at a meeting in this city have elected the following officers: G. Heikemper Jr., president; E. R. Hall, vice-president and general manager; Pierce Evans, secretary; G. W. White of the First National bank, treasurer.

Politicians Who Helped Elect Junior Senator Two Years Ago Show Venom Toward Roosevelt's Pet by Kloppling.

What has caused John B. Coffey, John Driscoll, L. H. Adams, W. E. Burke, Jim Kyle and Frank Ovey to flop, and from ardent champions of State-ment No. 1 to turn to exponents of the "Republican choice" doctrine? This is the question that is causing some wonderment among politicians and the answer is "largely Bourne."

Two years ago Jim Kyle was one of the chief henchmen of Bourne in his efforts to become junior senator. He rounded up the rural voter and told him of the great fight for principle being made by his champion.

John B. Coffey and John Driscoll, the twins of the last session of the legislature, made a gallant fight in Multnomah county, using the same Statement No. 1 as their chief weapon throughout the campaign.

Out of the vicinity of Burns Mr. Davey lifts his voice and howls for a convention and an anti-Statement No. 1 legislature. In Portland both Mr. Coffey and Mr. Driscoll are intending to run for state senators, but this time they will pledge themselves to work for the Republican choice idea and against Statement No. 1.

Just prior to the election of senator by the legislature a year ago Mr. Bourne conceived the idea that his loyal supporters in Oregon would be watching accordingly he put detectives on the trail of Kyle, Coffey, Driscoll, Adams and the rest just to be sure that he would know what they were doing.

Very soon the detectives reported that Kyle was hobnobbing with Jack Matlock in the Imperial hotel and straightway the order came from Mr. Bourne that Mr. Kyle was not to attend the legislature until after Bourne had been elected.

Imperial Mandate Goes Out. The reason of it is that they all are very anxious to knock Bourne wherever and whenever they have a chance.

RUSHING WORK AT BI-METALLIC MINES

(Special Dispatch to The Journal.) Baker City, Or., Feb. 18.—The Lola Gold Mining company in the Greenhorn is pushing the work with all possible speed.

This is the company that was organized a short time ago to take over the Bi-Metallic mine, with J. A. Ringold, a Cincinnati capitalist, at the head, and a well known mining man, W. J. J. Smith, in charge of the active development work at the mine.

At present the work is confined to cutting up lost ground caused by bad timbering and cave ins, and in getting out timbers for the new compressor plant that is to be installed at the mine. After the installation of the compressor, a full force of men will be put on the work and a driving of a 1,400 foot crosscut will be prosecuted with all speed.

This tunnel is now in 350 feet, intersecting the vein at that point and the work of driving a 1,400 foot crosscut will be prosecuted with all speed. This tunnel is now in 350 feet, intersecting the vein at that point and the work of driving a 1,400 foot crosscut will be prosecuted with all speed.

I Was Cured of Consumption. Having been sick for several years and had to give up preaching and could only do light work I grew worse until finally I was examined by a specialist, and he ordered me to go to Arizona as my only hope of life.

Just then I met a friend who advised me to try Magic Cell Food and as it would cost me nothing I went to the office and purchased a supply, and inside of two months I was well and it has been doing hard work ever since. It is the only medicine that I know anything about that cures tuberculosis. Don't fail to try it.

REV. D. M. ELLSWORTH, Cambridge, Wash., Sept. 2, 1902. Hundreds of other remarkable cures. For full particulars address Magic Cell Food company, 222 Market street, Portland, Oregon.

LODGEMEN TO RIDE ON SPECIAL TRAIN

(Special Dispatch to The Journal.) Pendleton, Or., Feb. 18.—A special excursion train will run over the new line from the O. R. & N. from Pendleton to Pilot Rock, Thursday evening, for the purpose of taking out the grand lodge members of the Order of Odd Fellows in Oregon.

Richard Scott, state noble grand, and E. E. Sharon, state secretary, for an official visit to the Pilot Rock lodge. Besides the officers about 15 local members of the order will participate in a rousing meeting of the Pilot Rock lodge.

The Pilot Rock lodge, which now has a membership of about 75, has one of the most active organizations in eastern Oregon.

EXCELLENT FOR COLDS

Mix half pint of good whiskey with two ounces of glycerine and add one half ounce Concentrated Oil of Pine. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours.

The Concentrated oil of pine comes in one half ounce vials packed securely in tin screw-top cases which are intended to protect it from heat and retain all the original ozone. Don't use bulk oil of pine or imitations of Concentrated, sometimes put out in wooden boxes. They are insoluble and work havoc to the kidneys. Any drugist has the Concentrated oil of pine.

Concentrated Oil of Pine is the result of many years experimenting by one of Philadelphia's foremost doctors who after endless research at last secured a true oil of pine, so make sure to get the real thing. It also makes an excellent salve to be applied externally for colds on the chest. For this purpose a saucerful of the raw oil is added to a saucerful of hot lard and applied hot.
