

# GALLOWAY DIES IN CALIFORNIA

## Former Deputy District Attorney Victim of Tuberculosis at Sierra Madre.

Word came yesterday afternoon from Sierra Madre, California, of the death of Robert Galloway, deputy district attorney and prosecutor of the juvenile court, who went to California the day after Christmas in the hope of benefiting his health. His death was not unexpected, as he was known to be rapidly failing, and for several weeks he had been delirious for a large part of the time.

Robert Galloway.

clates of the bar. Although only 31 years old and only a few years in practice, his ability had won recognition, and he was regarded as particularly strong in writing briefs. He took great interest in the work of the juvenile court and became the close friend and adviser of the late Judge Prator, whose death was a great shock to him. Galloway had for years been a sufferer from tuberculosis. Last winter he began to feel ill, and his going to California was imperatively urged. First he went to San Diego, but rains and fog drove him back to seek open air life at Sierra Madre. Letters from his wife to John F. Logan, one of his most intimate friends, told of his critical condition more than 10 days ago. His seven-year-old son, Bruce, is now seriously ill with pneumonia at Sierra Madre.

The remains will be sent to Portland, but it is not known when they will arrive. Arrangements for the funeral may not be announced until then. Mr. Galloway was born in Monroe county, Missouri, in 1876. When a youth he was a jockey for the famous copper mineowner, Marcus Daly, but he quit the track for the law office, beginning his study with Charles H. Carey. Later he entered the office of Judge Webster, and in 1897 he graduated from the state law school.

In 1899 he became assistant to John F. Logan, who was then in charge of the law library, afterwards receiving the appointment of deputy district attorney as prosecutor for the juvenile court, remaining in that position until his death. He organized the methods of prosecution in that court and attained much praise for the manner in which he performed the duties of the office, blazing the way for his successors.

Temporary appointment of E. B. Seabrook was made to take Mr. Galloway's place after he went to California, and H. M. Esterly has since succeeded Mr. Seabrook in charge of the work of the juvenile department. The office was held open for Mr. Galloway in case he regained his strength.

### Bryan Unopposed in Kansas.

(United Press Leased Wire.) Hutchinson, Kan., Feb. 21.—The convention of Kansas democrats to choose four delegates-at-large to the Denver convention assembled in this city today and was called to order at 10 o'clock this morning by State Chairman Ryan. That the delegation to the national convention will be unanimous for the nomination of William J. Bryan is a foregone conclusion, practically every county convention sending delegates to the state convention having passed resolutions favoring the Nebraskaan. There is considerable gossip over the possibility of naming a new man on the national committee to succeed John H. Atwood of Leavenworth, who has held that position since 1904. William F. Sapp of Galena and J. E. Johnson of Peabody are out for the place. Mr. Atwood is fighting for reelection.

Doan's Regulate cure constipation without griping, nausea, nor any weakening effect. Ask your druggist for them. 25 cents per box.

# FOUR YEARS PAST CENTURY MARK

## Moses Lore at Champoege in 1842—Came to Oregon Country in 1836.

(Special Dispatch to The Journal.) Union, Or., Feb. 21.—Moses Lore, aged 104 years, an Oregon pioneer of 1836 and a survivor of the party of French Canadians who at Champoege opposed the adoption of an organized territorial government for Oregon on May 2, 1842, died at his home on Catherine creek, four miles from this place, Wednesday night.

Lore was born in Montreal in 1804, and when but a small boy joined the Hudson Bay trapping and hunting expedition to the west. He left St. Louis with a party of trappers in 1824 and came up the Missouri river to the headwaters where a large French party and joined the Flathead Indians, with whom he lived until 1836, when he went to the Willamette valley and joined the French settlement near Salem.

At the Champoege convention on May 2, 1842, when the first steps toward a territorial government were taken in Oregon, Lore, with his Indian wife, stayed at his home and did not take part in the discussions or voting on that memorable day. His squaw wife, thinking there would be trouble, kept him in the cabin until the meeting at Champoege had passed.

In 1862 he moved from Champoege to Catherine creek, a mountain stream flowing through this place, and was one of the first of a large French settlement there. He had been engaged in farming on a small scale and in stock-raising.

Lore was a most interesting character. He knew personally Whitman, Spalding, Dr. John McLoughlin and other pioneers of the northwest. His Indian wife is yet living in the Blue mountains. She separated from him many years ago.

# WANT COMPLAINT THROWN OUT OF COURT

## Demurrer Filed to Amended Action of P. A. Marquam in Aged Suit.

A demurrer to the amended complaint of P. A. Marquam in the long-pending case involving the ownership of the Marquam building has been filed in the circuit court by the Title Guarantee & Trust company, J. Thorburn Ross, the United States Mortgage & Trust company and the Oregon company, alleging grounds upon which it is claimed the amended complaint should be thrown out of court.

It is stated in the document which contains so many sensational charges of fraud testimony against Ross and others is not in fact an amended complaint, but an effort to file a new suit after the time allowed by law has expired; that the amended portions are not germane to the original and are repugnant to the present suit; that the plaintiff is attempting to set up a new cause of action without authority, and that the amended document contains charges of fraud and causes of suit, not separately stated.

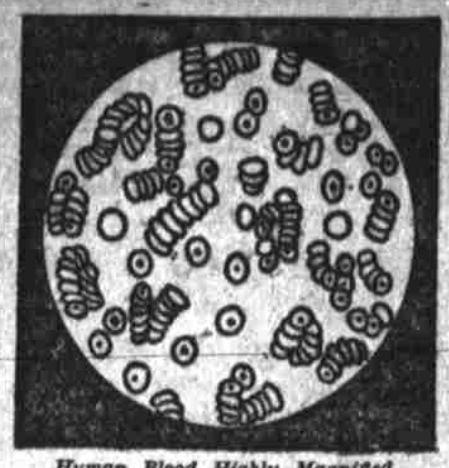

The demurrer will bring to issue before Judge Cleland the question as to whether Marquam can sue after the time to redeem the building in amended form. Time for arguing the demurrer has not yet been fixed.

# COMES TO AMERICA TO STUDY BREWERIES

(United Press Leased Wire.) New York, Feb. 21.—Dr. Adolph Cluss, a German scientist, has arrived in this country to study the methods employed by Americans in brewing beer and to investigate scientific farming and the manufacture of sugar and other products. He has been sent on this mission by the Austrian government. Dr. Cluss says that Austria has good breweries and machinery, but on account of America's establishments being so big his government desires to learn how they are operated. He will go to Washington to present his credentials to the Austro-Hungarian ambassador. He will remain here six months.

# ELGIN ORGANIZES BOOSTER CLUB

(Special Dispatch to The Journal.) Elgin, Or., Feb. 21.—Elgin has just organized a booster club to be ready to advertise this section of Oregon when the spring rush of colonists begins. Let Tuttle, editor of the Elgin Recorder, is president, Lee Bell is secretary and George Swafford is treasurer. Over 50 members have been secured and a large amount of literature concerning this part of Oregon will be issued.

# HUMAN BLOOD HIGHLY MAGNIFIED.

The part of the blood that gives it red color is the mass of microscopic bodies called red corpuscles. These also carry oxygen, the great supporter of life, to every organ of the body.

In anaemia these red corpuscles are reduced in number and the patient becomes pale and weak. It is the oxygen they carry that enables the stomach to digest food. Reduce the quantity and indigestion follows.

It is the oxygen that makes it possible for the kidneys to throw off the uric acid constantly forming. Lacking it the uric acid poisoning causes rheumatism.

There is also a close and scientifically recognized relation between the number of red corpuscles in the blood and the health of the nerves. Dr. Williams' Pink Pills actually and indisputably increase the number of red corpuscles in the blood and therefore increase its oxygen-carrying capacity. In this way they cure anaemia in the most direct way and give color to the cheeks and lips, prevent and cure stomach trouble and rheumatism and have proved of wonderful value in nervous troubles.

No claim is made for this remedy that is not substantiated by hundreds of well-established cures. If you are sick and the treatment you are taking does not prove beneficial, you owe it to yourself to try Dr. Williams' Pink Pills.

50c. per box; six boxes, \$2.50 at all druggists. Dr. Williams' Medicine Co., Schenectady, N. Y.

# STRAIN OUT FOR ANOTHER TERM

## Umatilla's Famed Railway Taxer Wants Third Chance at Them.

(Special Dispatch to The Journal.) Pendleton, Or., Feb. 21.—C. P. Strain, who, as Democratic assessor of Umatilla county the past six years, has made a state-wide reputation for his advance in the values of railroad property and for his persistent efforts to secure a more equitable assessment, is a candidate for reelection for a third term and has filed his certificate of candidacy. It is not thought he will have any opposition. During Strain's administration the value of railroad property in Umatilla county has been raised from \$4,000 to \$10,000 per mile.

# MONTEREY MAY GET NAVY TARGET RANGE

(United Press Leased Wire.) Washington, Feb. 21.—Citizens of Monterey, California, hope that their pretty city will soon be the scene of a small arms target range of the navy department. Adjutant-General Lauck has brought up the question of securing a suitable range for rifle practice by the militia in conjunction with the navy. The people of Monterey have submitted a proposition to the adjutant-general, and Commander Sims, inspector of the naval practice, has not yet returned. He recommends an inspection of the ground by some officer of the battleship Nebraska although the fact that a railroad runs through the tract may be against it. The navy needs a place where 2,000 men at a time can disembark and shoot and the range is not thought to be too far from a good anchorage.

# REFORM SCHOOL LAW OF IDAHO ATTACKED

(Special Dispatch to The Journal.) Boise, Ida., Feb. 21.—A petition filed in the supreme court by Judge Stockslager of the firm of Stockslager & Bowen for a writ of habeas corpus in behalf of the daughter of John Sharp, who is at the state industrial school at St. Anthony, has been granted and the writ issued and served upon the attorney-general. The petition alleges that the law under which the girl was committed to the school is unconstitutional. The legal points raised are relative to the procedure whereby the probate court is given jurisdiction over delinquent children, providing the right of trial by jury and for concurrent jurisdiction of justices of the peace.

# PRESIDENT ROOSEVELT PREPARING MESSAGE

(United Press Leased Wire.) Washington, Or., Feb. 21.—President Roosevelt is said to be preparing another message to be submitted to congress, this one dealing with the report of the inland waterways commission, which was given to the president a few days ago. The recommendations made in the report are of a rather radical character, it is said, and the president would not accept them without giving the matter careful study. The subject was discussed by the commerce commission, the legality of the plans being the principal question under consideration. The contents of the report have not been made public.

# ITALIANS IN RIOT AT PHILADELPHIA

Philadelphia, Pa., Feb. 21.—Twenty Italians and Poles are today nursing painful injuries as the result of a riot following a demonstration on the part of 1,000 foreigners, who, marching in a body, sought to compel Mayor Reburn to give them work. On their way to the city hall they attempted to cross streets in front of them. In many instances some of these victims were badly beaten by the foreigners. Even when the police interfered with the plans of the anarchists, they showed resistance.

### BEATS VICTIM FOR REPORTING ROBBERY

Thug Returns to Restaurant and Makes Good His Threat.

(United Press Leased Wire.) San Francisco, Feb. 21.—For daring to report to the police that he had been held up in his restaurant at 5 Cliff avenue last Friday night, Manuel Varvaris was so badly beaten last night by the same robber that it is thought he will die. After the robber had broken into the place for the second time within a week and beaten his victim into insensibility he again robbed him of \$23 and a gold watch and chain.

"I'll teach you to remember my warning hereafter and not tell things to the police," declared the highwayman as he attacked the restaurant keeper with the butt end of a revolver.

On last Friday night Varvaris was held up and robbed but not assaulted. As the highwayman left the place he made this remark:

"If I see an account of this having been reported to the police I shall come back and kill you."

### Not in a Milk Trust
