

BEHIND THE SCENES

MRS. WAYMIRE ALSO HAS DIFFERENT STORES

Principal Witness in Conspiracy Case Changes Version of Tale Told at Preliminary Hearing—Testimony Seasoned to Nicety With Large Tears.

Mrs. Belle Waymire has told her story in the circuit court, and as her municipal court, has gone into fearful detail in relating her now famous interview with Mayor Lane on the afternoon of September 26, last. For a part of the morning and during this afternoon she has been engaged in sticking to the primary relation of the tale against the insistence and master hammering of Mr. Malarkey and cross-examination.

Continuing under the guidance of her attorney, Mrs. Waymire told of having an astounding story after her arrival in Portland. She became a very good friend of his and he proposed marriage which proposal she could not accept owing to the fact that she was not divorced from her husband. Radding went to Seattle, and witness said she then became good friends with C. A. Bell. He also proposed and was accepted conditionally, the witness said the condition being that her husband should get a divorce.

Following her E. E. Radding, accused jointly with her, will take the stand to tell his version of the story and add to the picture which she has painted in her story and those of his fellow conspirator of the taint of the crime charged against them.

Just before noon Thomas G. Greene was put on the stand for a few minutes for the defense to identify the complaint issued for the preliminary hearing in the municipal court. Mr. Greene identified the complaint which had been issued for the preliminary hearing, and visit of himself and Malarkey to the home of L. L. Mandley several nights ago.

Wages have shrunk in the region around Minneapolis and St. Paul. A large number of men who are idle in those states know the Pacific northwest favorably, and it is believed many of them will return to this part of the country early in the coming spring.

Mayor recalled. Yesterday afternoon Clayton Wisdom, one of the publishers of the Rural Opinions headquarters in the Hamilton building, was in the city following the breaking in of Dr. Lane's office. He said he had seen the witness and had started up stairs.

While the little or no railroad work is being done at this time, we expect a good deal of work to be done in the coming spring. Wages have dropped very materially in Minnesota, particularly in lumber camps, and on railroad grade work.

He had met Radding coming down in a very rapid and excited manner and had asked him the trouble. Radding had told him to keep quiet and say nothing about it, and the witness said he had not said anything about what had taken place. Radding had then told him, Wisdom said, that some one had assaulted a woman in the mayor's office and that he had broken in the door.

Swampers, undercutters and buckers who formerly received \$40 per month and board now are offered \$26. On railroad work common labor that formerly received \$2.25 to \$3.50 per day will be offered \$1.50 to \$1.75 per day when work opens up. Farm hands get \$22 to \$30 per month and board.

Dr. Lane was called by the defense and advised about a supposed meeting of the fire committee on the afternoon of September 26, the day of the occurrence in his office. He was asked if he had any recollection of those present at that time. He said he did not remember such a meeting.

While the construction forces at work throughout the present year, and probably for the succeeding year.

George B. Drew, janitor of the Hamilton building, was also a witness and told the same story related by him at the preliminary hearing. He told of having seen the witness and Mandley coming out of the building and of having observed the witness and Mandley in the city.

Following a fall he sustained while on a trip through the state of Washington two weeks ago he had a violent attack of chills, which he has since been suffering from. He was taken to a hospital and died last night.

THE MORE ONE STUDIES THE CONDUCT OF THE SLAUGHTERING HOUSE, THE MORE CONVINCED DOES HE BECOME THAT GOVERNMENT INSPECTION IS GENUINE AND EFFICIENT.

Lack of thought causes more ill health than lack of knowledge; many people who know Government Inspected meats are the only safe meats to be taken into the system don't think to demand them. It is only common-sense judgment to demand pure meats for your table.

IT COSTS BUT A THOUGHT

To put Government Inspected meat on your table—refuse any other; the Government and the packers pay the cost.
