

Blaze at Glenmave Apartments Threatens to Destroy Entire Block.

(United Press Leased Wire.)
San Francisco, Feb. 27.—From a roof fire in the Glenmave apartment-house, at the southeast corner of O'Farrell and Gough streets, last night there spread flames which for a time threatened the whole block, a district filled with tinder-like frame lodging-houses and the handsome brick church used jointly by the St. Mark's German Lutheran and Central Methodist Episcopal congregations.

The Glenmave lost its roof and its three floors were gutted. The upper hotel, a Japanese lodging-house, was damaged by fire and water, as was the Byron Massey music store.

The total loss, including damage by smoke and water, will foot over \$40,000, only partly covered by insurance.

A half hour's work sufficed to save only the greater portion of Glenmave, but also the adjoining wooden buildings in this congested district.

It is supposed that the fire originated on the mansard roof from a chance spark.

Blinded by smoke and hemmed in by flames, 7-year-old Leo Kuaie, gripping the hand of his 6-year-old sister Ethel, sought his way through the corridors of the hotel. Both children were asleep in a room on the second floor when the fire started. The noise made by the hundred or more guests in escaping from the hotel awakened them, and they rushed out into the smoke-filled hallway in their night clothes.

William Roebing, a fire department operator, and Walter A. Grant, a salesman, rescued from danger of imminent death three young women lodgers. The women were Miss Molly Scully, who was found unconscious in the middle of a blazing room; Miss Gertrude Gaylin and Miss Annie Warren. The three women had apartments on the third floor.

Victorson, a lodger on the second floor, had a close call.

BOSTON CHURCH FREES FROM TUBERCULOSIS

Eighty Per Cent of Cures, Patients Coming From Slums—Nature Given a Chance.

(Special Dispatch to The Journal.)
Boston, Feb. 27.—Records of the past 10 months in the class system of treatment of tuberculosis, conducted under the auspices of the Emmanuel church of Boston have just been compiled and they show a 90 per cent cure. The church, which conducts a number of departments of welfare work in the poorer sections of Boston, arranged about three years ago with the Massachusetts general hospital to take up the treatment of consumption under the so-called class system, and has had enrolled for 20 months about 100 patients.

According to the sanatorium rules, the cure consists mainly of fresh air, proper food and such medicines as are essential to hasten relief. The great majority of the cases were of incipient tuberculosis and the remainder advanced cases. Dr. Joseph H. Pratt, the physician in charge, has announced that 80 per cent of the patients are fully cured, these including a fair proportion of advanced cases. The cost to the church was about \$120 a patient.

Troops Start for the Philippines.

(United Press Leased Wire.)
Cincinnati, Ohio, Feb. 27.—The Second and Third battalions of the Fourth Infantry left Fort Thomas today en route to San Francisco, whence they are to sail for the Philippines on March 5. The troops will go to San Francisco by way of Shreveport and El Paso. The Fourth Infantry has rather a remarkable record, as this is the third time the regiment has gone to the Philippines duty. The officers and veterans of the regiment have already twice encircled the globe.

Truss Torture

Truss torture is no longer necessary. Gall, slipping trusses and barbarous methods of treating ruptures are done away with by a wonderful new invention of a man who has spent 30 years to make it absolutely perfect. His marvelous new Brooks appliance gives to a ruptured man instant relief and security, there all others fail. It stops all irritation and restores every part to its natural position as soon as worn. The truss is thrown away forever.

Sent on Trial.

Truss torture is no longer necessary. Gall, slipping trusses and barbarous methods of treating ruptures are done away with by a wonderful new invention of a man who has spent 30 years to make it absolutely perfect. His marvelous new Brooks appliance gives to a ruptured man instant relief and security, there all others fail. It stops all irritation and restores every part to its natural position as soon as worn. The truss is thrown away forever.

Where others fail is where I have my greatest success—C. E. BROOKS.

Brooks' appliance cures are absolutely without operation, pain or danger. Its price is less than the cost of most curable ruptures, but any one, rich or poor, can have the immediate relief, and no one with a rupture can for a single day afford not to have it.

Multitudes of cured men, women and children testify to its astonishing success and safety. Cures are made in all climates, and the cure of Bethlahem, Pa., voices the praise and proof of thousands. It says: "It could be a veritable Godsend to the unfortunate who suffer from rupture if all could procure the Brooks Rupture Appliance. My rupture is all healed and nothing ever did but your appliance."

Where others fail is where I have my greatest success. No springs, no salvers, no salvers, or harness of any kind, nothing complicated, no pain or irritation, but just a simple natural appliance which cures.

Immediate relief guaranteed. No fakes or cheap imitations. Money refunded if not entirely satisfactory. Ask your dealer for full information. Do not let this cure slip by. Write today for "Brooks' Appliance." It tells all about Brooks' marvelous new appliance, gives prices and names of some of the best dealers.

C. E. BROOKS, 7833 Brooks Building, Marshall, Michigan.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter feelings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lag liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of these various symptoms are contained in a small, portable, and reliable, and the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of these various symptoms are contained in a small, portable, and reliable, and the usual accompanying indigestion, or dyspepsia and their attendant derangements.

HOLDS BODY TO COLLECT BILL

Undertaker Refuses to Allow Burial of Corpse Until He Has Been Paid.

(United Press Leased Wire.)
San Francisco, Feb. 27.—The body of Lorenzo Sodini, an Italian, who died Sunday night at St. Joseph's hospital, is being held at the undertaking rooms of Julius Godeau, as security for \$15 embalming expenses, while the dead man's friends refuse to pay the sum and demand that the body be removed to other parlors.

They say that Godeau got possession of the body illegally and say they will carry the matter into the courts. Already the Italian consul has been appealed to, and he has ordered the body removed.

BUILDS A THEATRE FOR HIS OLD TOWN

Senator Nixon of Nevada, Spends \$40,000 on Promise Made When He Was Poor.

(Special Dispatch to The Journal.)
Reno, Nev., Feb. 27.—To develop a love of the drama in the residents of Winnemucca, Senator George S. Nixon has donated to the municipality a \$40,000 theatre. The playhouse has been completed, and is said to be one of the finest in the state. During his residence in Winnemucca the millionaire senator missed the pleasures of the show, and he said then he would give them to the town when he was ever wealthy. Several months ago he had plans drawn for the structure and masons were set at work. Since then the senator has moved to Reno, where he has built a mansion on Newlands Heights. He will preside at the dedication of the Winnemucca theatre when the present session of congress ends.

LANE FIGHTS CENTER AROUND TWO OFFICES

(Special Dispatch to The Journal.)
Eugene, Or., Feb. 27.—About the only county offices over which there will be much of a fight at the coming primary election and at the June election in Lane county are those of assessor and sheriff. The latter has always been fought hard for, and Democrats have won over the Republicans for the last eight years. The Democrats have a good man up in the person of Harry B. Brown, a former deputy of Sheriff Plak, and on the Republican side there are three candidates, I. T. Nicklin and Drew Griffin, both of Eugene, merchants, and City Marshal Snodgrass of Cottage Grove. The Democrats figure they will win again this year on the theory that the Republicans will be divided at the primary, and the fight at the election will raise enemies in the Republican ranks against the candidate who wins the nomination.

There are also three Republican candidates for assessor, the present incumbent, E. F. Keeny, D. P. Burton, a former assessor, and Cecil J. Newell. The Democrats have only one, Wolby Stevens, a young farmer, residing a few miles northeast of Eugene. The Democrats hope of electing the assessor for this office also, for the same reason that they figure on the election of their candidate for sheriff.

COMMISSIONERS TO TAKE TRIP OVER ROAD

The county commissioners during the early part of the coming week will make a trip over the proposed line of the United Railway company along the White House road, between Portland and the county line, preparatory to taking up the consideration of the franchise.

This afternoon Herman Wittenberg and A. C. Emmons, attorneys for the company met with the commissioners and discussed the franchise in a general way. At that time it was decided to make the trip next week. It was also promised that the draft of the franchise would be prepared and sent to the commissioners in the near future for their consideration.

GRANDMA LITTLE DIES AT HOULTON

(Special Dispatch to The Journal.)
St. Helens, Or., Feb. 27.—"Grandma Little," as she was lovingly called by her many friends, died yesterday morning at her home at Houltou after an illness of 10 days.

Emiline Bowen was born at Peru, Massachusetts, April 23, 1827. She married Joseph R. Little in Ohio, August

THE BUTTE BOYS MINERS ARE AT IT AGAIN

A telegram from Manager Bever advises us that work is progressing at a remarkable pace, the men laboring 16 hours in two shifts every day of the week. He reminds us that this 10-cent stock is likely to be withdrawn on a moment's notice. When we strike water it will go up with a bound, and there will be many then who will regret their procrastination

This Is the Most Substantial Mining Proposition Ever Leunched in Portland

WE ALREADY HAVE A MINE! There is no conjecture about it. We have one ledge of \$25 to \$50 ore 46 feet deep, and our miners have cut another milling \$40 to the ton. Within a week or two we expect to know the exact extent of this one. Our shaft is approaching the 330-foot depth. We think there is not the SLIGHTEST doubt that we will find water at 450 feet at most. If it be found at 350 or 400, as other mines have found it,

Then Farewell to Ten Cent Shares

It will thus be seen that we are nearing the days when prices of Butte Boys stock is quivering. IT CANNOT LONG REMAIN AT PRESENT FIGURES, and with the certainty that six months hence will see it selling at fifty cents per share, IF NOT AT PAR, it seems but a simple business proposition that those who intend to buy at all should place their orders now.

Gold Mining Is the Cleanest, Loftiest Business in the World

We never are in competition with one another because the Government buys all the gold that can be mined. We never are taking advantage one of another, because each mine is an independent producer, and all must go to the same market. It is a

Can a Laboring Man Get Rich? Can a Poor Man Become Wealthy?

There are 313 working days in a year. In 10 years there are 3,130 days for labor. At \$2 per day in that time a person would earn \$6,260. At \$4 per day in 10 years he would earn \$12,520. At \$5 per day for 10 years the salary would amount to \$15,650. At \$10 per day for 10 years the wages would amount to \$31,300. At the decent pay of \$20 per day for 10 years the wage-earner would be paid \$62,600. In 20 years there are 6,260 working days. Let us cut out all pay less than \$4 per day—for a man cannot support a family comfortably on less—and in this fifth of a century the hired man would receive \$25,040. At \$5 per day, in 20 years the pay check would be \$31,300; at \$10 per day, for 20 years, the snug little sum of \$62,600 would be earned. At \$20 per day, for 20 years, the servant would receive \$125,200! This seems a whole lot of money, but remember that hired man must eat, sleep, wear clothing, support a family, if he has one, and at the end of this period would deserve a medal for economy if in either of these cases he had banked one half his salary.

But Robert F. Scott Worked Six Weeks for the 1st National Bank of Portland, at a Salary of \$25 per Week, Put the Money in Goldfield Mining Shares, and Soon Began Drawing Dividends, and a Few Months Later Sold His Stock for \$105,000 Spot Cash

In round numbers, Mr. Scott, at \$25 per week, would have labored in the First National Bank 83 years, 33 weeks and 4 days to have earned that sum, but the generous gold mine came to his assistance, cut off more than 82 years of that servitude and paid him in advance—in a lump—for his time, and Mr. Scott can now live in luxury and ease all the balance of his life. The stock that made this record of generosity was in the Mohawk mine, located in the same district in which our property is situate, and

That Expert Mining Engineer, J. P. Stampher, Reports That "The Butte Boys Has a Better Showing Than the Mohawk Had, and as Good a Showing for Work Done as Any Mine in Goldfield"

These are his exact words: "For the same amount of work done the Butte Boys has a better showing than the Mohawk has, and as good a showing for the work done as any mine in Goldfield. This is a very broad statement, but the indications justify it. In fact, of all the prospects I ever have examined I have NEVER FOUND ANYTHING ANYWHERE SO GOOD. The management is paying more attention to the development of the property than to shipping ore, as it has every confidence in the future. IF I HAD THE MANAGEMENT OF THE MINE, I WOULD BE SHIPPING ORE TODAY."

We are not shipping ore, because we can mill it ourselves, so soon as we reach water, and save our stockholders \$20 to \$22.50 per ton; so we do not acquiesce in Engineer Stampher's recommendation. We have our own mill, and it is paid for; therefore, why should be pay to haul our rock to custom mills, pay \$10 per ton for

15, 1851. One child was born to them, Almor P. Little, who was county surveyor of Columbia county for several years, and who died in 1892.

Joseph R. Little died in 1891 and his widow came to Houltou to reside near her son.

Mrs. Little joined the Congregational church when a child and has always been a sincere and earnest Christian. She was the last of her family, a brother having died about a year ago.

The funeral will be held from the Methodist Episcopal church at Houltou at 1 P. m. Thursday and the services at the grave will be conducted by Mizpah chapter No. 30, O. E. S. of St. Helens, of which Mrs. Little was a member.

Four grandchildren, Charles David, Ruth, Eunice and Morris Little, residents of Portland, survive her.

having the largest number of popular voters." B. W. Stark, a young local lawyer, has declared his candidacy for the lower house. Regarding the election of a United States senator he falls to state his position in his announcement, but it is known he is against Statement No. 1.

DAVIS WILL RUN FOR OFFICE OF SHERIFF

(Special Dispatch to The Journal.)
La Grande, Or., Feb. 27.—E. W. Davis, who has just retired from his services as register in the United States land office in La Grande, having been succeeded by Frank Bramwell, has filed his declaration of intention to become a candidate for the nomination of county sheriff before the Republican primaries.

Up to date this makes two candidates on each ticket. F. P. Childers and T. B. Johnson on the Democratic and E. W. Randall and E. W. Davis on the Republican ticket.

COX TO COMMAND AT GOLDFIELD

Head of Nevada Constabulary Will Take Charge When Troops Leave.

(United Press Leased Wire.)
San Francisco, Feb. 27.—The two companies of regular troops that have been in Goldfield since the outbreak of the labor troubles will return to San Francisco, March 7.

On March 7, when the troops depart, Captain Cox, who has been a colonel in the Nevada governor's staff and is now the commander of the constabulary, will take charge of the situation. He will have four lieutenants.

ROUSED FROM SLEEP BY FIRE IN HIS HAIR

(Special Dispatch to The Journal.)
Leavenworth, Wash., Feb. 27.—With his hair on fire and one hand burned, Joseph Peltier rushed from his burning residence just in time to escape being burned to death. When he leaped from his bed in his night robe the bed was on fire and the house ablaze. The fire had galloped headway while he was sleeping, and only the pain of the burns awakened him. The residence is apart from the other Leavenworth homes and no water was near at hand, so the saving of either his home or household fur-

INDIAN WOMAN SUES O. R. & N. FOR DAMAGES

(Special Dispatch to The Journal.)
Pendleton, Or., Feb. 27.—Minnie Joshua, an Indian, has filed a suit for \$15,000 damages against the Northern Pacific for injuries sustained in a train wreck above Pendleton last fall. In her petition she states she was a bona fide paid passenger on the train from Pasco to Pendleton, October 19, and that the wreck occurred through the carelessness of the engineer. It was necessary for her to crawl on her hands and knees about a mile to Pendleton after she was injured. As the fireman was killed and the engineer badly injured, little heed was paid the injured woman, who has since been a cripple.

LARGE LAND DEAL IN EASTERN OREGON

(Special Dispatch to The Journal.)
Pendleton, Or., Feb. 27.—A land deal embracing about 10,000 acres and amounting to over \$55,000 has just been closed at Echo, and in this deal the Hinkle Ditch company becomes owner of all the arid land under its ditches. The Merchants Trust & Savings company of Portland has held the land under the Hinkle ditch heretofore but this week an absolute transfer was made of all the holdings of the Merchants Trust & Savings company to the Hinkle company. A mortgage for \$45,000 was given by the Hinkle company to J. Frank W... of Port-

land, who financed the transaction for the ditch company. The plans are now to colonize and sell the arid land as fast as it can be reclaimed and active irrigation work will begin this spring.

Another land transaction of some importance this week in the Echo district was the transfer of about four sections of range land from C. B. Wade, as trustee, to E. G. Warren, the Pendleton sheepman. The land is located eight miles south of Echo in the range section.

Wait for it! Baltimore Daily Journal, 287 1/2 Washington, back of lobby. Tell your friends! Bring 'em along!
