What if the peoples' choice should happen to be a Democrat? Then whom would Mr. McArthur and all those elected under the new-fangled pladge be bound to support? It most surely would not be the man receiving the highest Republican vote in the June election.

states, and as is provided for by the constitution of the United States." Chaff from a thresher shows which Mor would it of necessity exclude that man from receiving the support. It would simply mean that the lists were open and the bars down to all comers under the old rules of the game.

During the past few weeks C. W. Hod-son, S. C. Beach, A. A. Bailey, John B. "But I can't afford to run. I cannot neglect my business to make the race before the primaries for nomination, then again for election in June and again to attend the long 40 days' ses-sion in January and February," is an excuse that has been heard.

Corruption's Breath Felt.

"Don't let that worry you. You won't lose anything by being a candidate and by being a member of the legislature." Back of the whole effort is believed to be a cleverly thought out plan. This will be the nomination and election of the slate ticket as far as possible throughout the state. It will also include throwing the silent vote of the machine to Governor Chamberlain for United States senator in June, it being taken for granted that he is going to be a candidate. This is expected to give him the popular election by a large

majority and thus open the way for the machine members of the legislature to take the senatorial fight back onto the floor of the joint assembly for one of the old-time battles made obsolete by the ensotment of the primary law in 1905.

This is the plan originated in the frefile brains of the machine leaders, though not admitted for publication, of course, and the announcement of the candidacy of hopeful legislators under the banner of the Hodson-Ballag-Beach combination is expected to demonstrate

May, Philadelphia, Pa., whose ex-perience is worth reading. His letter carries conviction to the most skeptical mind of the wonderful curative properties of Warner's Safe Cure, for all kid-ney and bladder diseases. This is his letter: "The sample bottle you sent me had an immediate good effect, so I purchased some of the large bottles, and am now taking it and will continue to take it until I am perfectly cured.
