AVEQUE CUTTER ARRIVES IN RIVER

The McCulloch Takes on Supplies and Pays Off Men at Astoria.

(Special Dispatch to The Journal.)
Astoria, Or., March 5.—The revenue cutter McCulloch arrived here this morning from Neah Bay and will remain for a few days to take on coal and supplies and pay the officers and crew, when she will leave out for Neah Bay again. The McCulloch is the finest vessel in the revenue cutter service and her officers are exceptionally pleasant and affable gentlemen, whom the citizens of Astoria will be pleased to welcome when the vessel returns to this port as her permanent station which will probably be in the near future. Her officers are as follows: First Lieutenant George C. Carline, in command; Lieutenant B. H. Camden, executive officer; Lieutenant George C. Alexander, navigating officer; Second Lieutenant E. E. Ridout and R. C. Weightman; Chief Engineer C. J. Curran and First Assistant Engineer H. E. Johnson. In addition to these the McCulloch carries four warrant officers and a complement of 57 enlisted men. Lieutenant Carline stated this morning that he had been ordered to take orders to coast along the coast as far north as Port Angeles and upon arriving at the latter port received instructions to proceed to Neah Bay and to remain on the cutter "Thetis" station, while the latter vessel is on a cruise to the west coast to rescue the Japanese who are reported to be marooned on a glacier. "We came here," he said, "to get coal and supplies and to pay off the officers and crew. We will probably stay until Saturday morning, so as to be back at Neah Bay early on Sunday. Where we will go after the "Thetis" returns we do not know, but no doubt will be ordered to our station here."

JOE PEARSON TO CAPTAIN OF TEAM REENTER TRACK FROM MEN MEET JIM BRITT

Famous Washington Sprinter Will Compete for Spokane Athletic Club.

Joe Pearson, one of the greatest athletes ever developed in Washington, is said to have decided to return to the track and will sport the colors of the Spokane Amateur Athletic club during the coming season. The Spokane Chronicle, in speaking of Pearson, said recently: "Pearson is first of all a sprinter, and one of the greatest sprinters who have ever donned a spike. While but a 16-year-old freshman at the University of Washington he won his 100 in 19 in 1907 in several meets and ran his quarter in 51 seconds and the 200 in 22 1/2. He has made a better time in the 100 than that mentioned above, and in a dual meet in California with the best men of that state he made a wonderful record by winning his 100 in 14 1/2 and the 200 in 22 1/2, and on the same day was barely nosed out in the 100 in 14 flat, after getting a wretched start. "But it was in Vancouver, B. C., that Pearson made what was perhaps his greatest performance. Here he won the 100 and 200 easily from Smithson and Williams, the two great O. A. C. sprinters, who were running for Muldowney on the great quarter mile track, on a miserable track, he tore away from Williams, the great quarter miler of Oregon, who had been credited with running in less than 49 seconds, and pulling up in the stretch for the last 50 yards from as he pleased in 50 1/2 seconds. "In this meet Pearson was in no shape, having been out of training for three months but he won nevertheless. He says he never needs a great deal of training and thinks he can again get into good shape as he ever was in his best days. "Though a veteran at the game, Pearson is yet really a youngster for a track athlete, being barely 23 years old. He has always taken good care of himself, and is now even stronger than when he was running four years ago in college, and those best acquainted with him as a foot racer think that by making a serious effort he may be able to step over the quarter mile in faster time than any man has yet done."

WELL KNOWN FACES AMONG WHITE SOX

Jaeky Atz Arrives in Los Angeles With Comiskey's Chicago Ball Team.

(United Press Leased Wire.)
Los Angeles, March 5.—The "White Sox Special," carrying the members of the famous Chicago White Sox baseball team, a number of rooters and several of the wives of the players, arrived here yesterday afternoon. They were met here by Fielder A. Jones, manager of the team, who has been making his way leisurely to the coast. Familiar among the men is Jaeky Atz, who is to play a starring role with the big fellows and who was at one time shortstop on the Portland team. Jaeky was sold to the New Orleans club by Portland two years ago and has been making good ever since. He is the star of the Southern league and will be a big asset to the White Sox. Nick Altrock and Pat Dougherty are also well known on the coast. Nick Altrock, a star in 1907 and 1908, for whom helped the White Sox greatly in winning the pennant in the American league and later in winning the world's championship series in 1907. The arrival of the previous season got the best of him and Comiskey was forced to let him go. Jaeky was sold to the White Sox in 1906. Dougherty played in Los Angeles under Morley. He finished the season with an average of something like .25 and got a trial in Boston the following season. Later he was traded to New York and landed in Chicago by way of the purchase route along with Henrich, the right fielder of the Sox in 1906.

Hospital Beats Infantry

At the national guard armory last night the hospital corps defeated company C in indoor baseball. The game was fast and exciting, and Stubbs pitched in his usual good form for the stretcher carriers.

THIS JEWEL PROVES TO BE PONEY GEM

Spokane Pedagogue With Crystal Handle Is Paste Article as Official.

What would have been one of the prettiest played basketball games of the season was spoiled last night through poor play on the part of Mr. Jewel, instructor in the Spokane High school, who essayed to referee the basketball game between Spokane and West Side High school. The final score was 34 to 18 in favor of Spokane. Jewel and Harry Livingstone were called to referee in the game. Jewel to referee and Livingstone to umpire for the first half, alternating in the second. Before five minutes of the game had been played Jewel's poor work had taken whatever life the Portland boys had out of them and clinched the game for Spokane. The Spokane first basket was fluky in the extreme. The Spokane center got the ball on the throwup and passed to the forward, who caught, but stepped out of bounds in dodging the Portland forward. Jewel blew his whistle, but decided differently the next instant and called for the Spokane man to go ahead. In the meantime the Portland guard had left his man and the basket was thrown by the Spokane man unopposed. This was only one of the queer decisions rendered by Jewel during the first half. In the second half he officiated in a manner which called for frowns on Spokane, but called one after another on the Portland boys. Spokane's victory was in a measure due to the fact that the Portland team, the smallest man on the team. In the first half he threw practically all of the baskets scored by his team, and duplicated the record in the second half. Spokane showed but very little team work and trusted largely, it seemed, to a long pass instead of catching the ball the players would bat it with their hands and trust to luck, and curious to relate they got away with the team that they were supposed to be a Portland High school team was never known to "quit" before, but aided by the poor work of Jewel it quit last night. With the opening of the second half Livingstone put some life into the game and the boys finished the half with a better score than not enough to win over that of Spokane.

WITH THE COASTERS

A San Francisco fan wants the Seal management to erect a large board near the scoreboard to contain the names of the players of the opposing teams on the field. He protests against the scoreboard system for the reason that certain changes are made on the field which are not contained on the board, making that method of keeping the players practically worthless in many instances. By putting the names on a large blackboard the patrons of the game can be kept in touch with the players. This plan would be welcome in Portland and it is hoped the McCredies will adopt it.

FOREIGN PARTRIDGES FOR SOUND COUNTRY

(Special Dispatch to The Journal.)
Tacoma, March 5.—County Game Warden W. Thompson is making arrangements for the importation of Hungarian partridges to the Puget sound country. This is a species of game bird much in size between the grouse and a common quail, and multiplies with astonishing rapidity. It is one of the greatest friends the farmer has in countries where it is found, working great inroads into insect pests that prey on cereals and fruit trees. It is a fast and swift and strong bird on the wing, and taken abundant care of itself in the vicissitudes of winter climate. Like other game birds of its kind, wherever it finds a habitat it remains the year around. At present there are no Hungarian partridges on the Pacific coast. Mr. Thompson will import the ones he imports for propagating, paying \$5 a pair for them.

FAST FIELD PROSPECT FOR INTERNATIONAL

A fast field is in prospect for the soccer football game Saturday, which is to settle the difference between Scotch and English for the year. Most of the city league games were played in mud, yet were good exhibitions with, and with dry ground almost assured for this second international game, play is to be furious from the kickoff. The English expect to put out the same eleven men they used February 22, with Steele moved back to the half-back line and Lawrence of Albion shifted to outside left wing. Fenwick probably play left half instead of right, including positions, except that J. K. Mackie will be at right half and Bennett at left. The match is practically the last of the season.

SEINING PRIVILEGES AT SAND ISLAND

(Special Dispatch to The Journal.)
Astoria, Or., March 5.—The United States will enter into a new contract with the highest bidders for the seining privileges on Sand Island at the mouth of the Columbia river, the old leases having expired. Bids will be opened in the office of the United States engineers at 11 o'clock on April 3. The privilege will be let for three years and the highest bidders will get exclusive rights to the fishing there. Under the old contracts four parties, Walter Pulliam, T. A. O. Standsland, Hard Winter and Hansen & Olson controlled the seining, each party having a share. Under the old arrangements an island brought the government about \$4,000 a year.

DECIDE YOURSELF

The Opportunity is Here, Backed by Portland Testimony. Don't take our word for it. Don't depend on a stranger's statement. Read Portland endorsement. Read the statements of Portland citizens. And decide for yourself. Here is one case of it: Mrs. J. W. Painter of 4453 Market street, Portland, Oregon, says: "I have not lost any of my faith in Doan's Kidney Pills since I publicly recommended the remedy in February, 1903. As I stated at that time, a severe spell of sickness early in my life left me with weak kidneys, and as time went on I suffered more and more with spells of backache. The pain through the kidneys was torture and often I could not find a comfortable position to lie in. When able to be up and around I was troubled with headach and dizziness and could not stoop or lift anything. I doctored and used various treatments, but nothing seemed to help me any until I began using Doan's Kidney Pills. The use of this remedy was very satisfactory. It gave me so much relief that I cannot hesitate to recommend it and will put in a good word for Doan's Kidney Pills whenever I find an opportunity."

MARCH TERM OF THE COUNTY COURT

(Special Dispatch to The Journal.)
Astoria, Or., March 5.—The March term of the county court was commenced yesterday and the principal business transacted was the letting of contracts for road improvement, grading and building bridges on about 7 1/2 miles of the Nehalem road between the 16-mile post and the junction with the Elsie road. The work was estimated as follows: J. C. Dunkin, \$1,800 per mile; J. Jamieson, \$1,200 per mile; Alex. Nord, \$1,200 per mile; Gus Gronnell, \$2,388 per mile and \$150 per lineal foot for bridges; J. C. Wherry, on three miles ranging from \$1,750 to \$1,400 per mile. The contract was awarded to J. C. Dunkin with bonds fixed at \$2,000 and work to be completed in this one year. Alexander Duncan bid \$722.50 on grading and building bridges on about two and three fourth miles of the Elk creek road and the work was accepted. The bids were fixed at \$2,000 and the work is to be completed by August 1.

Hotel St. Francis

Fronting tropical Union Square, the heart of San Francisco, this structure is a fine example of the artistic treatment of a utilitarian idea, and typifies the high value put on the attention to every detail. This hotel probably unites, under one roof, more advanced ideas of hotel service than any other caravansary in America, yet the rates are lower in proportion to the attention bestowed than can be found elsewhere in the United States. Rates from \$2 upward—European plan. Under the management of James Woods.

"HOLY ROLLER" NOT WANTED IN OREGON

(Special Dispatch to The Journal.)
Olympia, Wash., March 5.—The report sent out from Seattle that the Oregon authorities had made a formal demand upon the state board of control of Washington for the custody of Esther Mitchell, the "holy roller" who shot her brother in Seattle after his acquittal of the murder of Creffield, cannot be confirmed here. The woman is incarcerated in the state hospital for the insane at Stella-com. In the offices of the governor, attorney-general and board of control a demand is being made for the return of the Oregon authorities is claimed. Governor Mead says that the only effort made to secure the return of the woman to Oregon has been by letter to the superintendent of the hospital by her relatives. The reply of the superintendent has been that there has been no change in Miss Mitchell's mental condition since she was received at the asylum.

There is no smoker so economical that he can buy cigarettes to any better advantage than by insisting upon Imperiales Cigarettes. There is no smoker so wealthy that he can possibly buy any better cigarettes than Imperiales. Their price is based upon cost of production—not fancy packages. You can't smoke the packages. Conscientious selection and blending of the purest leaf—careful rolling in thin mais paper which is crimped—not pasted—individual mouth pieces—These are things which have made Imperiales Cigarettes unflinching favorites. Smoke Imperiales all day long—no "after effects." The men of the West smoked over 125,000,000 Imperiales Cigarettes in 1907.
