Most Exceptional Values in New Spring Merchandise

The store which studies the interests of its customers, striving to see how much, rather than how little, can be given as the equivalent of a certain price, is the one that succeeds nowadays. The knowledge that at such and such a place one can always rely upon quality; that, whatever the price quoted, investigation will probe it as low or lower than in any other house; that if the slightest dissatisfaction arises after purchase, goods may be returned; that courtesy is the attitude attending every stage of a shopping tour; that showing merchandise is considered a favor, whether a sale results or not—all these are points that, added up, count immensely in favor of the store that includes them among the cardinal principles of its policy. Such a store is bound to lead, and in every city, whether little or big, the store that most closely lives up to these principles is always foremost. ROBERTS BROS.' AIMS TO BE THIS STORE FOR PORTLAND. We pride ourselves on always giving the BEST VALUES.
