

FIGHTS FOR CITY'S COIN

Council Ordinance Giving Electric Company Exclusive Right to Light City for 5 Years at Increased Rate Vetted by Mayor.

The ordinance directing the executive board to enter into a contract for city lighting at a price not to exceed \$0.41 a month for each arc lamp was vetted by Mayor Lane yesterday.

Mayor Lane's chief reasons for vetoing the ordinance are that he considers five years too long a period for the city to tie itself up with a lighting contract and because he believes that the city should get the light at a cheaper price.

When the ordinance passed the council at the last meeting Councilmen Cottell, Vaughn, Kellaher and Kuschlight voted against it, with the Big Ten and Councilman Conannon for it.

Not Favorable to City. "I herewith return ordinance No. 17334 not approved.

This is an ordinance which directs the executive board of the city to enter into a contract for lighting the public buildings, streets, avenues, parks, public grounds and places within the city.

The price to be paid is not to exceed \$0.41 per month for each arc lamp, which is about the rate which is now paid and the contract is to run for a fixed period of not less than five years.

In respect to this ordinance I have to say that I do not consider its terms to be favorable to the city for several reasons, some of which are as follows:

I do not deem it advisable to enter into a contract for lighting the city for so long a period as five years, there being at this time no opportunity to secure the advantages of any competitive bids for the service to be rendered.

Whereas within a period of one or at most two years, it is my opinion that new plants furnishing power will be in the field ready to bid upon such contract.

It is a fact, too, that the cost of producing light in this city is being greatly reduced owing to more efficient methods of producing electricity and by means of improvements in the construction of arc lights.

Favors City Ownership. "With but about one half the lights which are really needed it is costing me \$100,000 a year to light the city at present, and at this time some provision should be made looking to the establishment of a plant owned by the city, which plant would give a profitable investment in the present cost being out of proportion to the benefits derived.

The journals devoted to municipal affairs are publishing articles from good authority strongly advising against long term contracts for municipal lighting and giving statistics favorable to municipally owned plants.

This ordinance, however, allows no choice in respect to a time limit of less than five years, but arbitrarily fixes it for that specific period upon the city if a contract is entered into under it.

It is my opinion that this ordinance, if it becomes a law, will tie the city up with a contract continuing for a period too great to be in the interest of the city, also that it practically will result in placing the city's lighting in the hands of the present company, no competition being possible at this time. Also that it will operate to delay the acquisition of a plant owned by the city, which is the end most to be desired, and for those reasons I view it as a measure directly inimical to the true interests of the people of this city.

Public Purses Drained. "It is stated upon good authority, that the cost of illuminating streets by electric light has been reduced some 20 to 25 per cent of late through the use of the new magnetic lamps, and that the reason for this reduction should not be allowed to participate in such reduction of cost, there, however, being no assurance of any such reduction in cost being contemplated in this ordinance which fixes the maximum rate of \$0.41 per month for each arc light as against \$0.29, the amount now being paid by the city, all benefits derived from the lower cost of operation accruing solely to the contractor. It is my opinion that the city is entitled to its just share of all benefits to be derived from any just source, and that it should be allowed the opportunity to participate in them where possible.

It is my belief likewise that your honorable body has made the ordinance too specific in its terms, inasmuch as the last paragraph of the section 208 of the city charter provides that it should be competent for the executive board to contract for lighting the public buildings and any part or portion of the city by different methods or systems, whereas in this ordinance they are confined to but one means and practically to but one bidder upon such contract.

The third man engaged in the shooting is supposed to be a San Francisco Chinese named Joe Yee. It is said that he was sent here from California to join with the two men now under arrest in a plot to kill Hoy.

Those who were opposed to him appealed to the parent organization in San Francisco, the head of which is said to be Sold Back Sing. As a result of this appeal it is said Joe Yee was sent to Portland to plan and assist in the execution of the sentence of death that had been passed on Hoy. The shooting tonight was the result.

While the officers were searching the highlander headquarters at Second and Oak streets, Detectives Price and Chinaman took the two prisoners to the Good Samaritan hospital, where the wounded man had been sent to receive the attention of surgeons. Hoy identified the men as two of his associates and related the history of the feud in the Bow On Tong that led to the attempt on his life.

Hoy has a wife and three children and is well thought of in the business community. He is the senior member of the firm of Kong Sing and Co., Chinese merchants, who have a place of business at 310 First street.

BRYAN VS. JOHNSON; DEMOCRATIC CONTEST

SENATORS BELIEVE COMMONER IS AHEAD MINNESOTA EXECUTIVE IS SEEKING REVENGE

Members of Party in Upper House Do Not Think Nebraska Can Lose. Charge He Is System's Tool Forced Governor Johnson Into the Scrap.

(Hearst News by Longest Leased Wire.) Washington, March 7.—None of the Democratic senators regard the action of the Minnesota Democratic committee in endorsing Governor Johnson as a serious blow to the prospects of William J. Bryan's nomination for the presidency in Denver next July. While the leaders will not discuss the question for publication, speaking privately they say that the Bryan men in Minnesota made a serious mistake in opposing the endorsement of Johnson. They believe it would have been more gracious on Mr. Bryan's part to allow the Minnesota delegation to be instructed for Johnson as a favorite son.

Senator Callahan, minority leader, said: "I regard the nomination of Mr. Bryan at Denver as inevitable. I do not believe any combination that can be effected will prove strong enough to stop it."

Senator Newlands of Nevada, said: "The rank and file of the Democratic party want Bryan, and there is no doubt in my mind that they will have him. Attempts to check his nomination will prove futile in my opinion."

Senator Gore of Oklahoma, is convinced that Mr. Bryan will be nominated and that the endorsement of Governor Johnson by Minnesota will not develop sufficient strength to endanger Bryan's prospects. He is about to leave here for a speaking tour in Michigan and Wisconsin in Bryan's behalf.

Senator Owen of Oklahoma said: "It is very natural that a man as popular in his own state as Governor Johnson should be so warmly endorsed. It will have no effect on the situation, however, for Bryan will be nominated anyway."

Representative Smith of Texas declared that Bryan should be nominated. Johnson's endorsement will have no effect. Texas will stand for Bryan as long as there is a chance to nominate him in any other event it would be for Senator Callahan's.

Body Larded With Bullets. Five of the bullets fired at Hoy struck him in the back, inflicting fatal wounds. He was also wounded in each arm, showing that the marksmanship of the hatchet men was of high order.

Six Chinese are being detained in the city prison as witnesses who may be valuable in the matter of identification. A majority of these were taken from the highlander headquarters on the street from the police station and are supposed to have an intimate knowledge of the affairs of the Bow On Tong. They will also be called upon to give some explanation of the weapons found in the rooms where they were arrested.

ARCHDUKE'S WIFE IS SENT TO AN ASYLUM (Hearst News by Longest Leased Wire.) Vienna, March 7.—Wilhelmina Admonics, the former actress and divorced wife of Archduke Leopold, who renounced the title in order that he might marry her, has been declared insane and sent to an asylum. She had recently announced her intention of killing her divorced husband and his brother.

Shortly after the marriage of Leopold and Mme. Admonics she created a sensation by joining the Aeonas Anchorage, a colony of vegetarians who believe in going about without clothes. The former archduke was not tired of this and, sued for divorce, which was granted.
