(United Press Leased Wire.) Chicago, March 13.—During the celebration of early mass in St. Elizabeth's Catholic church today A. Wendum, a Russian, caused a stampede of worshippers in which a number of women were trampled on. During the most impressive part of the service the man jumped to his feet, waved his arms about his head and shouted wildly, "Down with all Catholics and priests." He was quickly overpowered and placed under arrest. After an examination the police stated that he is insane, evidently made so by reading the details of the murder of Father Heinrichs at Denver.

El Centro, Cal., March 13.—To be lured up and robbed in his place of business and then compelled to march six weary miles into the barren desert, under constant threats of death, was the ill-fortune of John Larkins, who conducts a poolroom here. His negro porter suffered a similar fate. Late last night Larkins was confronted by two hold-up men who forced him to open the safe. After taking all the money, \$400, the robbers marched Larkins and the negro porter across the desert to Heber, where the desperadoes disappeared.

#### NEW AEROPLANE IS SUCCESSFUL

Alexander Graham Bell's Airship Makes Good Trial Flight Today.

(United Press Leased Wire.) Hammondsport, N. Y., March 13.—A successful flight of an airship constructed on the "heavier than air" principle was held today, when Alexander Graham Bell's new aeroplane, the "Redwing" had its initial test. The aeroplane after gliding over the ice on Lake Keuka for 300 feet rose gently to a height of about 10 feet and sailed at that elevation for a distance of about 300 feet, maintaining a speed of from 25 to 35 miles an hour. Part of the machinery then gave way and the aeroplane was brought down for repairs.

#### JOHN WALSH SENTENCED TO 5 YEARS

Banker Is Sent to Prison for Illegal Deals Made While President of Chicago National and Home Savings Banks.

Judge Anderson Says He Imposed Minimum Penalty Because of His Age and Former Business Relations.

(United Press Leased Wire.)

Chicago, March 13.—John R. Walsh, former president of the defunct Chicago National and Home Savings banks, was today sentenced to five years in prison by Federal Judge Anderson, before whom he was convicted for illegal banking.

Judge Anderson overruled the contention of the defense that the physical condition of Juror Palmer, who collapsed during the trial, prevented him from using his better judgment in reaching a decision in the case.

This was one of the strongest arguments of the Walsh attorneys. In announcing his decision Judge Anderson said he would impose the minimum sentence of five years on account of the banker's age and business relations.

The court overruled all motions made by the defense. Immediately after the decision was announced, John S. Miller, for Walsh, applied to the circuit court of appeals for a writ of superseades, which was granted by Judge Grosscup, who released the banker under a bond of \$50,000.

Further court proceedings in the case will not come up before the October term of the circuit court of appeals.

Representative Knowland of California has prepared a bill providing for the return of the \$7.50 and the measure is said to have an excellent chance of passing.

#### SUCCESS OF COAST TRIP ANNOUNCED

Ships in Splendid Condition and Wonderful Work of Navy Has Attracted Attention of All Europe—Metcalf Gives Notice.

Orders Would Indicate That Vessels Will Not Go to Puget Sound—Undertaking Unparalleled in Naval History.

(United Press Leased Wire.)

Washington, March 13.—Secretary Metcalf today announced that the department had decided to send the battleship fleet around the world, thus undertaking the greatest feat in naval history.

The success of the voyage from Hampton Roads to Magdalena bay has demonstrated that the United States navy is in a splendid condition so far as machinery and men are concerned and it is admitted in Washington among foreign experts that Europe has opened her eyes to the ease and precision with which the fleet was handled throughout its long trip. It is said that the famous voyage of the battleship Oregon has been outside.

Reports from Admiral Evans to the bureau of navigation received today say that scarcely an accident of any importance occurred to any part of the machinery of any ship of the fleet.

From San Francisco the fleet would go to Manila, via Honolulu, Hongkong, and possibly other China ports. The voyage would then be continued around the world, ending at New York. No estimate of the time required for such a trip has been given out by the department. Already, it is reported, provisioning and coaling have been arranged for on an enormous scale.

The start westward will be made from San Francisco July 6. This would go to Puget sound.

The first stop made after leaving American ports will be at Honolulu. From there the fleet will proceed to Samoa, Australia, proceeding northward to the Philippines for an extensive target practice in the fall, thence to Hongkong. The fleet will then set sail for home, via the Suez canal, stopping at Colombo, Aden, Port Said and Gibraltar. It is not known if the fleet will visit Japanese waters, but this feature will probably be determined later.

(United Press Leased Wire.) Cunniffingham, Wash., March 13.—Fire destroyed the Cunniffingham hotel late Wednesday night and four persons were seriously injured by jumping from windows or by the flames. The loss is estimated at \$10,000.

#### FULTON NOW HEDGES ON PROMISES

Senator Refuses to Discuss Position He Will Take in Senatorial Fight Providing He Loses Out in Popular Election.

Year Ago Agreed to Abide by Will of the People—Scheme Well Laid to Put Election in Hands of Unpledged Legislators.

(United Press Leased Wire.)

Washington, March 13.—Senator Fulton today announced that he would accept reelection from the legislature at the next session, provided he had not received the popular election in June, said: "I am making no statements these days." He absolutely refused to discuss the matter further in any way.

Senator Fulton's Corvallis Pledge. "It may be thought by some that my position on this subject (the senatorship), is the result of a desire on my part to pave the way for an appeal to the legislature for reelection should I fail to secure approval of my candidacy by the voters. I assure you that I have no such thought or purpose. If it shall happen that some other candidate receives a larger vote for United States senator than I do at the election to be held next June, I promise you now that I will retire from the field and will not permit my name to be presented to the legislature for that or any other office."—From Fulton's Speech of Announcement at Corvallis, August 29, 1907.

As the political campaign has progressed up to this point and indications from all over the state point to a widespread plan on the part of legislative candidates to avoid Statement No. 1 and pledge themselves to vote for the candidate for United States senator who shall receive the Republican nomination April 1 or go into the legislature in any way, much wonderment and speculation has arisen as to whether or not Senator Fulton would allow his name to be taken before the legislature should he be defeated in June.

That there is a plan on foot to elect a legislator pledged either to a modified statement cleaving to "Republican voters' choice" or members not bound by any pledge is patent to all those who know the current story of the coming political battle. If such a legislature should be elected and at the same time George E. Chamberlain should defeat the Republican nominee, be he either Fulton or Calk, at the election in June, the question arises, not what the legislature would do, but what the Republican candidates at the primaries would do.

Refuses to Discuss Question. Mr. Calk, by his advocacy of the principles of Statement No. 1, could not allow his name to be considered by the legislature in that event. Mr. Fulton by virtue of the pledge made to the people of Oregon in his opening address at Corvallis made August 29, 1907, could not allow his name to go before the legislature. What, then, would the legislature do?

Led by the growing question in the minds of a great number of the voters of the uncertainty has been fostered by the current story that the friends and managers of Senator Fulton are back of the "Republican choice" propaganda, being preached throughout the state. The Journal requested its correspondent at Washington to interview Senator Fulton regarding the possibility of his being a candidate even though defeated in June. In answer to the question, plainly put, he says: "I am not making any statements these days." Further than that he refused absolutely to discuss the question.

Virtual confirmation is thus given to Senator Fulton's evasive attitude and statement to the effect that his candidacy will be carried into the joint assembly by the vote of the people in June. It is definitely stated that it is the plan of the anti-statement No. 1 forces to bend their energies after the primaries to the effect the popular election of Governor Chamberlain in June. Then, with a Republican choice legislature, assuming that the anti-statement party will go back into the old-time channel of today's fights, shady deals and political manipulation.

If Senator Fulton were to stand on

#### BUILD PLANT SOON AS COUNCIL GIVES PERMIT

Vigorous War on Anarchists

#### TWO VERSIONS OF PROPOSAL

Agent Heisey Asks Fair 'Play—Cottle's Ideas Not Fully Indorsed.

General Theodore Bingham, police commander of New York, has begun a vigorous crusade against anarchists in that city. This picture is from a recent photograph of General Bingham. Bingham's life has been threatened, but he is determined not to be scared off.

"Contracts for the machinery for our new \$1,500,000 plant will be let as soon as the council passes the ordinance allowing us to build on the Zimmerman site," said J. S. Heisey, Pacific coast representative of the Schwartzchild & Sulzburger company this morning.

Mr. Heisey said that inasmuch as the charge had been made that his company did not intend to construct their new plant for some time he would say that the plan is to let the contract immediately and commence work as soon as their right to build within the city limits was established.

"It has been said that we will have an advantage over the Swift people," said Mr. Heisey. "This advantage gained by our being within the city limits and nearer the market here will be more than offset by the fact that we will be paying a large amount of taxes into the city treasury, while the Swifts are outside the limits and will not be paying anything. It will be necessary for us to take many precautions that Swift will not have to take. We cannot spend \$25,000 to get all to come from our houses while he has simply to comply with the government regulations."

Mr. Heisey said that the charge had been made that his company did not intend to construct their new plant for some time he would say that the plan is to let the contract immediately and commence work as soon as their right to build within the city limits was established.

"I understand that the Schwartzchild & Sulzburger company has no present intention of putting up a \$1,500,000 plant," said Dr. Cottell. "Instead I hear on the best of authority they are going to spend \$25,000 to put the Zimmerman plant in shape and run the old place. They are already putting in cement floors and making other improvements to the old plant. It is good thing to have these improvements made, but I don't want every butcher in town taking stock, as they all can do if this ordinance is passed."

Alleged Arrangements. "I understand Schwartzchild & Sulzburger have an arrangement with Zimmerman by which they will pay him 75 cents for every ton of coal they use and he will also have the privilege of killing what animals he wishes to on his own account. I look to see as though it were simply a scheme to get into the city limits where they will be able to sell to local markets a cent a pound cheaper than they will the other people. I am willing, if they will put up bonds of \$250,000 guaranteeing to spend \$600,000 on a plant to vote for the ordinance. Anyway, if the plan is a legitimate scheme and the people of my ward want it, I want it. If the people don't want it, I'm opposed to it."

Mr. Heisey said that his company

#### FLOOD LEAVES 4,000 HOMELESS

Water Causing Damage in Middle West Shows No Sign of Abatement.

(United Press Leased Wire.)

South Bend, Ind., March 13.—Four thousand persons have been rendered homeless and damage to the amount of more than \$500,000 has been caused here by the floods which have prevailed for several days and which show no signs of abatement.

Throughout northern Indiana and southern Michigan the swollen streams have become raging torrents, in many cases sweeping through the main streets of cities and towns and bringing transportation to a standstill.

#### TO DISCOURAGE BANK WRECKERS

(Washington Bureau of The Journal.) Washington, D. C., March 13.—Senator Fulton today offered an amendment to the Aldrich bill providing that national banks shall not loan funds to their presidents, directors or officers, on penalty of \$5,000 fine or a year's imprisonment, or both.

#### VAUDEVILLE BARS WEALTH

Chicago Managers Will Prevent "Artists" From Cracking Jokes at Expense of Rockefeller, if Mayor Busse Has His Way.

(United Press Leased Wire.)

Chicago, March 13.—No more will vaudeville artists crack jokes on Chicago, theatre stages at the expense of such men as Rockefeller, Morgan and Senator Dewey if the city authorities can prevent this practice.

Mayor Busse thought of a crusade against this sort of wit when he received a letter from a Chicagoan calling his attention to an act being played in a local theatre. In this instance an actor, who is supposed to be running a side show, invites the people to step forward and "see John D. Rockefeller, the man who squeezes his money from the poor and helps to endow colleges to educate more people to rob the poor."

The letter has been referred to the corporation counsel for action.

#### REUTERDAHL TIRED OF BEING AUTHOR; THINKS ART NICER

(United Press Leased Wire.)

San Diego, Cal., March 13.—Henry Reuterdahl, the correspondent whose magazine article criticizing the ships of the United States navy as being faulty in construction created such a stir in official circles at Washington and which finally led to a congressional investigation, arrived here today on the supply ship Culgoa from Callao, Reuterdahl left the fleet at Callao, stating that it was his intention to return to

the United States and answer his critics. He refused today to discuss his articles on the navy, but said: "I am not doing any more writing, but am going back to New York to make pictures and play with the camera. I will not remain on the coast, but expect to go direct to home." Reuterdahl intimated that his article was intended only to show that there were certain defects in the construction of the ships. He praised the officers of the navy.
