JAPANESE LEAVE HARBOR IN IRONS

Daring Quartermasters Will Have to Return Whence They Came.

BIG LINER NUMANTIA DEPARTS FOR SIBERIA

Carries Valuable Cargo of Flour, the Larger Portion of Which Is Destined for Vladivostok-Prepared to Encounter Icy Weather.

Katucki Katutso and Weyeda Takeja, tro two Japanese quartermasters who made a daring attempt to gain entrance to the states by swimming the Willamette river at 1 o'clock Saturday morning a week ago, were yesterday returned to the oriental liner Numantia

from which they attempted to escape. The steamer leaves Albina dock at daylight this morning and the Japanese will be taken back to Moji, whence they They have been held in the county jail since captured after their mensational swim and narrow escape from death in the river, and will be held in chains until the boat is well over the bar where there will be no possible chance for them to leap overboard with the intention of again making an attempt at long distance

About 150 tons of farming machinery and wagons will be taken to Coos Bay on the steamer Alliance which is scheduled to leave Couch street dock tomorrow night. This will be the largest shipment of its kind ever made into the Coos country.

The Alliance was booked to leave last night but falled to get ready owing to the large quantity of freight that had accumulated on the dock while the craft was undergoing her snnual overhauling

accumulated on the dock while the craft was undergoing her annual overhauling on the drydock. Instead of trying to rush the freight on board during the night it was decided to postpone the saling 48 hours.

While on the drydock the steamer was given a thorough overhauling both as to hull and machinery and she will go out in the best of condition. The engineers have taken advantage of the layover and adjusted every bit of the machinery so that it will work as well as new.

CARE FOR SICK TARS.

French Shipowners Pay Traveling Expenses to France.

French shipowners are particularly solicitous of the welfare of their sick sailors as will be seen from the fact that during the past few wee's French Consul Labbe has and home a dozen tars who were sick and not in the best of condition to so to see linder simof condition to go to sea. Under sim-liar circumstances sallors on vessels of other nations would have been kept on poard or left behind to be cared for by friends or the country's representative Consul Labbe sent P. Alleno of th bark Alice Marie home yesterday be-cause he suffered from bronchitis. The man was not too ill to travel, but Con-sul Labbe did not think it best for him to continue going to sea and so recommended his return to France. Besides paying him every cent due as wages, the owners of the Alice Marie will pay Alleno's fare to France. During the early part of the week two sailors belonging to the French bark Jules Gommes were sent home because

DELAYED BY STORMS.

Steamer Elmore Will Probably Arrive Today From Tillamook. Owing to stormy weather along the coast, the steamer Sue H. Elmore did not reach her Portland wharf last night as scheduled. She will probably be in

as scheduled. She will probably be in this evening.

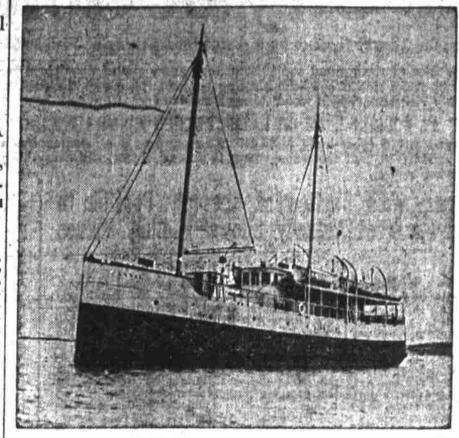

The Elmore operates between Portland and Tillamook and has to cross the bar of Tillamook bay as well as the Columbia river bar. The past two days have been very stormy with a high sea, and under such conditions it is customary to await better conditions. Yesterday morning the wind attained a maximum velocity at the mouth of the Columbia of 68 miles an hour.

Even though delayed 24 hours, the Elmore will probably be able to get out Tuesday night on schedule time.

Czar.

Minneapolis, March 11.—In Minneapolis is located the only Russian seminary in the United States. Ten years ago the Russian government built a mission school at 1701 Fifth street northeast, and two years ago the institution was converted into an orthodox theological seminary.

At the present time there are 24 young men between the ages of 15 and 25 who have come from Canada, from Pennsylvania, Wascensin and many oth—

Which is just across the street, makes their environment ideal.

Though not a great institution, the instructors here are conscientious and the students of the sturdy, ambitious sort. The school has prospered since its beginning, and the present plans are to remove it to New York within a couple of years so as to be nearer the center of Russian population in the United States. Next fall there will be added new classes and new instructors from Russia. The school is supported by the Russian government, and it is the purpose of those in charge to put it on the plan of the Russian seminaries. The faculty is composed of Basil Benzin. teacher of singing, history, Russian literature, psychology and history of the Russian church; Leonid Thurketch, rector; the Rev.
