

MAJOR LANE'S SACRIFICE BECOMES THE FIGHT FOR THE CITY TO FIGHT FOR THE LUMBERMEN HAS PROVED ITSELF AS THE MOST IMPORTANT FACTOR IN THE HISTORY OF THE CITY.

Majority Party of Council Little Concerned About Portland's Welfare—Determined to Make Things Uncomfortable as Possible for Lane.

Mayor Lane appointed Councilmen Kellaher, Vaughn and Rusklight as a special franchise committee to investigate franchises granted by the city, thus replacing the committee decapitated by the council last week. This is another step in the fight the majority party of the council started on Mayor Lane last week and delivers a blow to the majority party in that Mayor Lane appointed the same members to his committee that served on the beleaguered committee. Councilman Menefee, a member of the minority party, who is replaced by Rusklight.

Just what will be the outcome of the present struggle or when it will cease, is a matter of speculation. The crisis is expected at the next council meeting, but it will be obtained when the committee on judicial and elections meets Monday to consider the ordinance regarding the appropriation of \$5,000 to be used by the subway committee, which Mayor Lane is a member. The ordinance also provides for the recall of the committee. If the committee takes up the measure and disposes of it by making a recommendation to the council, the affair can be expected to be threshed out before the council next week.

The ships will require several days and then the big warships will have full bunkers that will last until they arrive at Manila.

Hereafter it is probable that at least a portion of the non-support cases brought against negligent husbands will be tried in the circuit court. Hearer Judge Webster has been hearing all such cases in the county court, but at his suggestion the district attorney's office a few days ago filed a case in the circuit court which has conferred jurisdiction with the county court in the matter.

ERIN'S SONS SING PRAISES OF SAINT

It was the green flag of Erin that spoke to the thousands of spectators at the St. Patrick's day meeting held in the Armory last night. Nearly every seat in the auditorium was taken by the thousands of Irishmen, and for the one night in the year they devoted themselves to the traditions of their native land.

It was also shown that a charge of 5 to 7 cents per 100 pounds is made for the use of the cars on all such shipments west of Peoria.

The fleet impressed as no one thing ever did before, upon the minds of the people of the South American republics. It was the largest and most magnificent fleet that the world has ever seen. No less than the size and power of the fleet did the behavior of our sailors shore leave their impression upon the South American people.

Metzger, Jeweler, 342 Washington. Although the great rush in paying taxes is over, there is still abundance of work for the deputies in the tax collection department of the sheriff's office to perform. They are clearing away the avalanche of checks that came in last week and Monday and receiving many new payments as well from those who prefer the plan of paying one half down, the remaining half being extended until later.

Merle West, Earl Hanke and Robert Hayward, alias Del Hayward, charged with robbing the Hillside postoffice February 3 last, pleaded guilty and sentence was postponed until next Monday.

As the matter stands, the district attorney is not trying to shirk work. He is the author of the non-support law, and in the act as originally drawn jurisdiction was given to the circuit courts exclusively. This was objected to by members of the legislature, who felt that it was unfair where the circuit court is in session for comparatively a short time during the year, and where great hardship might be inflicted upon defendants who had to stay in jail while awaiting trial in the circuit court. For this reason the law was amended so that the circuit court was given the right to try the cases.

This remarkable treatment has made so many cures that we are glad to sell it under an absolute guarantee to refund the money if it does not cure.

The hearing will be resumed next Saturday when the Southern Pacific will offer testimony against the contention of the Southern Portland deputation to permit the United Railways to connect with its track, contending that it would not afford the Southern Pacific any traffic advantage.
