

DOE EMPLOYERS

Two Former Private Secretaries to Millionaires in New York Prison—Fargo's Man Caught by Detectives Near Portland.

(United Press Leased Wire.)
New York, March 19.—Confined in the Tombs prison here are two men, formerly private secretaries to millionaires, who were captured in the west, one of them near Portland, Oregon, after a chase of 10,000 miles.
The prisoners are Howard Carter Green, former confidential man for James C. Fargo, president of the Wells-Fargo Express company, and Albert O. Havenith, who held a like position in the employ of A. S. Mallett of the Mallett Construction company.
It is charged that Green it was Wall Street that caused him to commit forgery in an effort to make money. With Havenith it was the race track that caused him to get in trouble. The men were arrested by Detectives Bernard G. Flood and Dominick G. Riley of Inspector McCafferty's staff.

TRIED MARKS TO WED.

Green disappeared 10 months ago and a few days later it was learned that he had collected rents of a row of houses belonging to Mr. Fargo, indorsed the checks with his employer's name and deposited them to his own account. His stealing through the forgery of Mr. Fargo's name amounted to about \$3,600. It is said he had taken a flyer in the market at the wrong time. Then he disappeared.
At the time Green, whose family is socially prominent in Passaic, was engaged to marry a young woman of this city. Desiring to obtain a sufficient sum to make matrimony possible is the reason assigned for his stock gambling.
A letter to the young woman gave the police the clue that he was near Portland, Oregon, and on February 21 Flood and Riley went to get him. He was found working with an engineering party near Portland.
When about ready to start back east with their man, the detectives were informed by Inspector McCafferty that Havenith, who had cut a large swath in New York, was probably at Los Angeles playing the races.
Havenith came to New York a few years ago with letters of introduction from titled persons in Germany. He claimed to be a business man and received in society. His letters were of a character that gave him entire into the best society, and Mr. Mallett, who is a millionaire, thought he had a find in him as a confidential man.
Nearly Captured Kestress.
He professed to have money and attended the races, kept a fast roadster, and it is said came near marrying the daughter of a wealthy man. He appeared to look upon his work as a side line—something merely to show that he was not a beggar. His method of obtaining his employer's money was the same as Green's. He forged the indorsement of checks and deposited them to his own account.
When the detectives were told he was probably at Los Angeles, they arranged with the San Francisco authorities to leave Green in jail there and went to the lower part of the state to hunt for their man.
They had little difficulty in finding him. He was staying at the best hotel and betting heavily. He was a figure on the clubhouse lawn at the track, and the accounts of his life and habits published in New York had given him a standing in Los Angeles, where he was playing the society game and endeavoring to win the heart of a wealthy widow.
Returned by Easy Prison.
With their second prisoner, Flood and Riley returned to San Francisco,

SPokane Chamber of Commerce

Accepts Invitation to Inspect New Territory.

(Special Dispatch to The Journal.)
Spokane, Wash., March 19.—Trustees of the Spokane chamber of commerce at an executive meeting March 17, accepted the invitation by E. L. Richardson, manager of the dominion exposition at Calgary, June 29 to July 4, and E. E. Goodall, president of the organization, appointed a committee to arrange for an excursion, a special train leaving over the Spokane international railroad the evening of July 2. It is expected that from 125 to 200 men and women will join the party.
The committee in charge of the arrangements is composed of Robert H. Cosgrove, secretary and manager of the Spokane Interstate Fair association; Harry L. Wallace, secretary of the Washington Water Power company; E. F. Cartier Van Dessel, president of the Phoenix Lumber company; E. W. Wagner, president of the Union Fuel Ice company, and E. T. Coman, vice-president of the Trades National bank.
Levi G. Monroe, secretary of the chamber of commerce, said of the pilgrimage to the province of Alberta: "The business men of Spokane have expressed lively interest in the development of the new territory north of us and they are eager to visit it to see what has been done in the last few years. We will put in the entire day at Calgary on the Fourth of July. We will also make stops at Cranbrook, Fernie and Banff, returning home July 6."

Drunkards Cured Secretly

Any Lady Can Do It at Home—Costs Nothing to Try.

A MODERN MIRACLE.

A new tasteless and odorless discovery which can be given secretly by any lady in tea, coffee or food, heartily endorsed by emperors, workers, etc. It does its work so silently and surely that while the devoted wife, sister or daughter looks on the drunkard is reclaimed even against his will and without his knowledge. Many have been cured in a single day.

Daring Construction Work Being Performed by Company's Engineers.

The immense cut and fill by which the Northern Pacific railroad will come through the peninsula from the Columbia river bridge to Portland is not the only work of that kind now occupying the company's attention. In the straightening and rebuilding of its main line from Staples, Minnesota, to Fargo, South Dakota, 185 miles, there occurs a cut 7,000 feet long, with an average depth of 45 feet, followed by a stupendous fill 50 feet high and at its maximum 2,000 feet, or more than five miles long.
In making this big fill a pile trestle 25,000 feet long has been built, consisting of four-bent piles placed 13 feet apart. The cut was excavated with steam shovels, the same as is done in the peninsula cut, and the dirt was hauled in flatcars out upon the trestle and dumped upon the fill. The culverts under the fill are monolithic concrete arches.
Largest Improvement.
Next to the Spokane, Portland & Seattle low grade cutoff between Spokane and Portland, the Minnesota work is the largest improvement project which the Northern Pacific is interested between St. Paul and Portland.
At Staples the main line from Duluth joins the main line from St. Paul and Minneapolis. As a result the division between Staples and Fargo bears the densest traffic of any similar stretch on the Northern Pacific system. The largest cut and fill occurs between Muskoda and Hawley.
Daring Construction.
A stretch of 27 miles between Lake Park and Oyndon, in Minnesota, is said to be the most daring and heavy railroad construction in the state of Minnesota, and for a flat country it is regarded as spectacular. At Winnipeg Junction, seven miles west of Lake Park, is the Buffalo river, which is the controlling factor in the situation. The old line, in order to cross this valley, contains grades 0.9 per cent against eastbound and 0.75 per cent against westbound traffic. Expensive pusher service had to be maintained to help freight trains over the hills. By a relocation of the line and the making of great cuts and fills, the distance will be increased 2.3 miles, but the grades are reduced respectively to 0.3 and 0.01 per cent, which is almost level ground.
The new line is a succession of heavy cuts and fills. The channel of the Buffalo river had to be changed, and the river is now crossed on a pile trestle 45 feet high. At several points the new line crosses over the old. The entire work was designed by W. L. Darling, chief engineer. In a technical report made to the Railway Gazette on the Northern Pacific's rebuilding project, high compliment is paid to the original local engineers of the road, who succeeded in so placing the first line that its reformation to meet the requirements of later years is comparatively easy.

GOULD COMPLAINS OF DEMANDS OF LABOR

(United Press Leased Wire.)
New York, March 19.—In the annual report of the Texas & Pacific railroad, President George J. Gould calls attention to the difficulties that have been encountered in meeting the larger costs of operation and the arbitrary position taken by labor and legislative bodies. The gross earnings of the road were \$18,671,567, the largest on record, but the net gain was simply nominal. Regarding the attitude of labor, Gould says:
"There has been no cessation in the demands of labor during the past year and this growing burden is becoming a serious menace. These demands are not confined to wages alone, but for shorter hours as well as accompanied by arbitrary stipulations."

ASTORIA GIRL MEMBER OF STANFORD SOCIETY

(Special Dispatch to The Journal.)
Stanford University, Cal., March 19.—A new dramatic society has been formed here by six prominent women students. It will be called the Masquers and will correspond with the men's organization known as the Stanford Dramatic society. Miss Winifred Higgins of Astoria, Oregon, is one of the charter members. She played a leading role in the play of 'The Masquers' at his sophomore class in the assembly hall last month. Miss Higgins has been elected secretary of the new organization.

THREE CHURCHES OFFER PULPIT TO DR. ELY

Congregations in Eastern States Extend Call to Portland Pastor.

Three cities, Detroit, Beatrice, Nebraska, and Cedar Rapids, Iowa, have invited the Rev. Dr. B. E. S. Ely Jr. to accept calls to Presbyterian churches in their synods. Dr. Ely, who is pastor of the Presbyterian church in Portland, is in Rockford, Illinois, at present, and has not decided which call he will accept, although he will undoubtedly return to the east. The Detroit church which has extended the call to Dr. Ely is not known, but it is the Westminster Presbyterian church at Rockford, Ill. Dr. Ely has been invited to the opening of the new church. The Rev. Dr. Hiram W. Foulkes of the First Presbyterian church said this morning that wherever Dr. Ely might go the Presbyterian ministers of Portland would regret to see him leave this city. He said that he is universally loved and admired by them.

Rev. B. E. S. Ely.

Representative Jesse Overstreet will act as temporary chairman of the Indiana Republican convention to be held in Indianapolis next month.

SKIN ON FIRE—AGONY UNBEARABLE.

Terrible Itching, Burning Skin Disease Now Quickly Cured.

A purely vegetable external remedy that has proved beyond all possible doubt to cure the worst cases of eczema and all skin diseases can now be procured by all skin sufferers. This remarkable remedy is Dr. D. D. Prescription, the discovery of Dr. Decatur D. Dennis, the well-known skin specialist, and is being manufactured by the D. D. Co., 112 Michigan street, Chicago, Illinois. The demand for this remedy has become tremendous within a short time because people are tired of learning that the hundreds of cures it has made seem to be permanent.
Eczema and all diseases of the skin must be treated ideally, according to the views now held by foremost skin specialists and physicians; that is, you must doctor the itch where the itch is, if it is useless to cure skin disease by taking drugs and medicines into the stomach. The disease is not in the blood, it is in the skin and only skin deep. Dr. D. D. Prescription kills the disease and kills the germ by making direct applications to the skin.
Mrs. L. B. Powell, Box 414, Caruthersville, Missouri, writes: "Words cannot convey my full appreciation of Dr. D. D. Prescription. My baby boy was a solid scab, when I accidentally heard of Dr. D. D. Prescription and I got a bottle and began to apply it. It was miraculous in its cure. It healed my baby's face completely. If anyone wants further information about this I shall be only too glad to hear from them."
Testimonials of hundreds of cases of remarkable cures by Dr. D. D. Prescription and an interesting booklet on skin disease and its treatment, exercise, diet, bathing, etc., may be had free by calling on the Sidermore Drug company, 151 Third street, where Dr. D. D. Prescription and Dr. D. D. Soap will be found on sale.

See "Dream City."

Any one in town can tell you that the musical comedy hit of the year is "Dream City," which is now at the Marquam. There has not been another show here this season as funny as this. With Little Chib, Mary Marble and Johnny Johnson "Dream City" is one grand round of pleasure and there is a song and a laugh every few seconds. The show has captured the town and to be up to date it is necessary to see it. They will be matinee Saturday. Seats are going fast.

Baker Stock Company.

"Zira," in the interesting play of that name at the Baker this week was a woman who took the most desperate means to outlive it—to bury herself and be forgotten, but whom fate under the guise of a man presented on the Baker stage, and is a play that never flags in interest.

Star's Scenic Production.

"On Thanksgiving Day," the current attraction at the Star theatre, is the biggest production the French stock company has given during its long and successful career. In one scene the entire space of the stage is consumed by a snowslide down which girls and boys slide. Another scene represents a country party given on the farm. "On Thanksgiving Day" is a pretentious play well presented and the story is pure and wholesome and the comedy is light. Character types of New England are introduced effectively. There will be a matinee Saturday.

Great Show at the Grand.

Eastern vaudeville at bargain prices is offered at the Grand this week, where a bill of superior excellence is being offered by Sullivan & Considine. Giddy and Fox, a couple of Hebrew Melodians, are the headliners and they are as funny as possible without being in any manner offensive. Miss Rindelle and her village cut-ups have a barnyard scene better than the one in "Old Homestead." Miss Irene Hobson is appearing in a comedy in Portland. This clever entertainment continues until Sunday night.

"Sis in New York."

Empire patrons are used to heavy melodrama, but once in a while welcome a clever farce that makes them laugh heartily and such a one is "Sis in New York," which has been pleasing large audiences all this week. It is an old theme—that of a bunch of "rubes" visiting the big city for the first time, but it is filled with novel scenes, characters and situations. Matinee Saturday afternoon.

AMUSEMENTS

"Toymaker" at Hellig Tonight.

Beginning tonight at the Hellig theatre, Fourteenth and Washington streets, the favorite San Francisco Opera company will begin an engagement of three nights with a new production. On Saturday afternoon in the dainty and delightful comic opera, "The Toymaker." The jolly comedian Ted V. Alb and the charming pupil favorite, Daphne T. Ford, are with this excellent organization. In addition to "I Got Plenty," a topical song to which Webb has added some 20 local verses, he will sing "Inanity." The costumeing of "The Toymaker" is beautiful in the extreme. Seats are being at the theatre for the engagement.

RUICK MAY LOSE HIS GOVERNMENT POSITION

(Special Dispatch to The Journal.)
Boise, Ida., March 19.—There is considerable speculation here as to whether or not the president will ask for the resignation of United States District Attorney Ruick, owing to the outcome of the Boise machine land fraud cases through the recent decision of Judge Whitson of Spokane. Opinion is about equal as to whether he should be removed or not. It is rumored that the president C. C. Farnham, Frank T. Wynn and A. A. Craven of this city will be candidates for the office of district attorney.

Patents Night SIGNAL DEVICE

Navy Yard, Puget Sound, Wash. March 19.—First Lieutenant E. A. Bam-

Lieutenant Ramsey declares that his device is more reliable, will be effective at a greater distance, and will work faster than the present device. His apparatus consists of two powerful lights, one red and the other white. The signaling is done by changing the position and combination of these lights. This is managed from a key on the side of the apparatus, and will work in any position of the alphabet. It is now being tested by the Navy Department. Lieutenant Ramsey is also working on a device for signaling in fog. This will be a valuable instrument for the use of ships in bad weather.
