COMING EVENTS

The Art Department of the Women's club, with Mrs. Alice Webster as chairman, will occupy the entertainment hour at the next regular meeting of the club, Friday, March 27, at Women's Woodcraft hall, 3 o'clock, and a splendid program has been arranged for members and friends.

The time will be devoted to a stereopticon lecture by Mrs. Webster on 18th Century Art and illustrated pictures in and out of the Luxembourg. Mrs. Webster has traveled extensively and has been an eager and conscientious student as well. She has organized the department into a travel class beginning and devoting considerable time to the Luxembourg gallery.

The department is particularly fortunate in Mrs. Webster's leadership, since she brings to it an intimate knowledge of modern art especially, having an acquaintance or friendship with such men as Meisonger, Courtoin, Beaugereau and Dagnon-Bougeret, also with the family of Millet.

This class, although having been organized only within the year, bids fair by its enthusiasm to become one of the strongest and best departments in the club, and one of which the club is already justly proud.

The occasion will undoubtedly attract a large attendance of members and their invited guests.

The Art department of the Woman's club will meet Tuesday afternoon at 2 o'clock in the art room of the public library. The subject will be "The Continuation of Seventeenth Century Art." Directly after there will be a meeting of the psychology department and the subject will be the continuance of the Raja Yoga philosophy.
