**Introductory Demonstration of "Nemo" Corset for Spring, '08**

**For Stout, Medium and Slender Figures**

"Nemo" Corsets alone contain all the new features for spring—the new "Flatting Back" effect to reduce both back and abdomen—the new "Back-Resting" effect, which brings health and style to the women of medium or slender figure, just as the "Nemo Self-Reducing Corset" has solved the stout woman's problem by reducing her figure with comfort and symmetry.

No corset in the world has so many good points as the "Nemo." Therefore Lipman, Wolfe & Co. have at great expense and trouble engaged permanently an expert "Nemo" demonstrator and fitter, at the highest salary paid any corset-fitter west of Chicago.

All of the new "Nemo" models for spring are now on display—including the three distinctly NEW effects—the FLATNING BACK, the BACK-RESTING and the WILLOW SHAPE. These and all other "Nemo" styles will be

**Demonstrated by Miss Crandall, "Nemo" Expert**  
**Week of March 23 to 28, 1908**

There is an art in fitting corsets that only a thoroughly trained corsetier can understand. Miss Crandall will not only explain the CORSET ADAPTED TO YOUR FIGURE, but will remake any portion of a corset just as your dressmaker fits every feature of your gown. Miss Crandall will explain how to produce the "New Figure" at its very best—the flat and slender hip effect. Every woman who cares about style will be amply repaid by a visit to our "Nemo" demonstration this week, whether she wishes to purchase or not.

**Regular \$6-\$10 Trimmed Hats \$4.95**

Styles run in circles. Now we are back again to the

high bust corsets. The first makers to respond to the latest dictate of fashion are the manufacturers of the famous

**W. B. Erect Form**

They call their most recent production Nuform. It is a distinct advance over all their previous garments, and, while essentially similar to the Erect Form, differs in being higher and fuller through the bust and much more slender at the waist. Nuform 403 (extensively advertised in the magazines) is a splendid average model at \$1.00 the pair.
