

OREGON HORSES SHOW WINNERS

Small Number of Entries High on List of Vancouver Awards.

BRITISH COLUMBIA ROYAL ENTERTAINERS

Canadians Win 61 Blue Ribbons, Washington 28 and Oregon 18—Dr. Froome of Portland, I. D. Chappelle and J. A. Jones Win.

(Special Dispatch to The Journal.) Vancouver, B. C., March 21.—Vancouver's first horse show came to an end tonight amid fitting scenes seldom seen here, and with the success with which it opened. The aristocracy of Pacific coast horsemanship has been gathered in Vancouver for the past week, worshipped by all the world and its wife. It was the greatest show ever held on the Pacific coast, and was a beautiful sight.

British Columbia carried off the palm, with Washington second and other provinces and states following. There were 490 entries, and the judges experienced no little difficulty in making their awards. There were many features, among them being the jumping contests, in which Miss Bernice Baker of Tacoma and Miss Mabel Smith of Vancouver, shared honors. Both young ladies negotiated the many jumps in excellent form, and their magnificent work was universally admired. Miss Baker's splendid riding was the subject of much favorable comment.

From a financial standpoint Vancouver's inaugural show was indeed successful. The best record was made at every performance, and tonight hundreds were unable to gain admission to the dirt ball. Magnificent animals were exhibited. It was truly a picture band of blooded horses, and according to experts there are few better in the world than were shown here.

As the awards of tonight's events were not available, owing to lateness of hour when judges finished their work, the complete list has not been made public. However, appended lists contain results up to this evening with principal winners.

The blue ribbon was won by British Columbia in 61 events, by Washington in 28 events and by Oregon in 13 events. The red ribbon (second) was won by British Columbia in 60 events, by Washington in 15 and by Oregon in 11.

The white ribbon (third) was won by British Columbia in 42 events, by Washington in 10 and Oregon in 12. The yellow ribbon (highly commended) was won by British Columbia in 46 events, by Washington in 4 and by Oregon in 4.

FIGHT MANAGERS

wonder Mr. Comisky is still sinking the process of California as a rough and ready ball team ready for a rough and strenuous campaign.
It is not at all unlikely that a couple of the San Francisco players will be drawing their salaries from the old Roman next season. The work of Nick Williams at first, Roulle Zeller at short, George Hildebrand in the left garden, and Henry Melohor in right looked awfully good to the king of the White Sox. He practically told the boys that he intends to make a bid for them next season. He endeavored to take Nick Williams with him this time, but Manager Danny Long hollered, so Comisky de-

No. 3—Fisherman's Paradise of the Oregon Country

By Lulu R. Lorenz.
Meacham creek, in Umatilla county, the chief trout stream in eastern Oregon, promises excellent fishing this season, owing to the mild winter and the possibility of an enormous supply of trout.

For 25 miles this excellent stream offers fine fishing from April 1 to July 15, and with its tributaries of North fork creek, Butcher creek, Spring creek, Wilbur creek and other small streams coming in from the slopes of the Blue mountains, forms one of the finest trout districts in Oregon. The total length of Meacham creek and tributaries in which good fishing is enjoyed for four months of the year is almost 60 miles, all of which is in the Blue mountains of Umatilla county.

The principal points at which fishermen leave the O. R. & N. trains in going to the Meacham creek fishing district are Bingham Springs, North Fork, Huron, Meacham and Duncan. The stream follows the railroad track and as soon as leaving the car the line may be thrown into an excellent trout pool where brook, rainbow and speckled trout are found.

Meacham creek and its tributaries are not rugged streams, although flowing down a steep mountain slope and it is possible to take packing horses or even to team to most any point where fishing is good. Camping places abound and the district is supplied with stores and wood camps so that it is possible to secure provisions easily while in the mountains.

The scenery along Meacham creek and its tributaries is superb and the district forms an ideal place for a few weeks' outing and fishing in the early summer months.

For those whose physique enables them to cover long stretches of ground nothing is nicer nor more fruitful than to alight from the train at Wilbur and travel downstream. The train reaches

Wilbur early enough in the morning to enable the fisherman to cover the ten miles down to Bingham Springs station in time to catch the night train for Pen-

leton or Portland. This is one of the most popular courses to pursue and scores of fishermen go over the route every Sunday during the early season.

42 days at Butte this summer. Nathanson will be the "big fromage" at Seattle. Jockey "Marvelous" Miller made \$11,000 here this winter. So the gossip says.

Out here in the west we are wondering what part "Big Tim" Sullivan played in the racetrack war at Albany, New York.

Three big losers at Oakland are "Charley" Bowman, \$18,000; Emil Hora, \$21,000, and "Joe" Harlan, \$17,000.

The best 2-year-olds in California are "Sam" Hildreth, Achive and J. J. Walsh's Lee Rose.

There will be a world of racetrack money wagered on the result of a meeting between Papke and Ketchell.

Racing at Emeryville will close on June 6. The grandstand is being enlarged for sailor boys of Admiral Evans' fleet.

Bertram Lytell, leading man at the Alcazar theatre, is one of the plunging sensations of the season.

Riley Grannan and Ed Purser, two old-time high sky betters, are teaming it at Oakland trying to make \$20 bets stand up.

The projected racetrack at Salt Lake City, Utah, will cost upward of \$250,000.

Bookmaker "Bill" Beverly has gone completely lame from the ravages of gout. Old high liver and high roller.

Richard H. Burke, the Bronx turfman, left a fast 2-year-old here before returning home, called Onions and Ale.

"Dynamite Jack" Thornby sold a half interest in Stoney Lee to "Jim" Jeffries last week for \$500.

FIELDER JONES AGAINST RACES

Chicago White Sox Manager Says Bangtails Ruin Baseball Players.

By J. S. A. MacDonald.
San Francisco, March 21.—Who do you imagine is the latest anti-racetrack crusader? None other than Fielder Jones, the captain of the Chicago White Sox, who is here in California with the star players and new recruits who will be trying shortly to win back a world's championship for the American league representatives from the Windy City.

Jones said recently: "Racetrack gambling is a bad thing for any baseball player, active or inactive. According to the White Sox leader, he had a hard time keeping some of the Sox in line during the recent training spell at Recreation Park in this city for the reason that a few of the ball tossers began to think more of the game over than Oakland than the work at hand in the Frisco ball yard. Common report has one of the pitchers overdrawn to the tune of \$825 because of 10 days' dalliance with the thoroughbred. For days the twirler couldn't give his heart to ball playing.

Old Edge Irritates.
That old edge the bookmakers held on him remained a constant source of irritation through the active playing season a score of good players gone "up in the air" over the horses could have been singled out last summer, and it will be the case again this coming season and every succeeding season until the artists of the diamond become cured of the horse-playing ailment.

One of the highest salaried pitchers of the American league lost all form during 1907 because of a racetrack embroilment. He wound up the year over \$1,100 in debt to his club after having drawn down a \$4,200 salary. Several other players showed form away below their natural gait because of the worry over the horses running on the New York tracks. It is safe to say every one of the major league clubs carried four or five horse players of the crank order.

And how they did make "Rome rowdy" whenever the itinerary brought them to Gotham. A rainy afternoon was devoted to be wished for. It gave the players a chance to hop down to Sheepshead Bay or Gravesend for a film at the gee kaws.

Let a man win and none so buoyant. But let him off lost, and none so distraught. He never rests while he has a chance to recover his losses from the bookmakers. And how many ever recoup his wagers at the racetrack? Not many. The worry of the thing seems to take the life out of a ball player who happens to be in the tenor of high training in the hot midsummer months.

Next to the old "boozero" the horses seem to stand as the professional ball player's greatest temptation nowadays. Sidelight Flashes in the Frisco Sporting Season.

"Abe" Attell, the featherweight champion, is \$4,400 loser to the horses. Jockey Gilbert's father owns a gold mine in Idaho.

"Dave" Campbell, promoter of the Salt Lake (Utah) racetrack, is worth at least \$10,000,000.

Tom Williams of the New California Jockey club says his Firestone will be a hard 3-year-old to beat this summer.

"Izzy" Ham lost \$5,000 playing from the ground in five days and then "blew" for good old Benning.

Eastern turfman "Mose" Goldblatt when next he comes, for he had 11 gold teeth replaced by porcelain ones last week. Cost him \$210, too.

There will be 74 days at Seattle and

TENNIS TOURNEY AT THE BREAKERS

Big Invitation Meet Held at Coast the Second Week in August.

An invitation tennis tournament, the largest that has ever been held in the northwest, will be given at The Breakers on the coast the second week of next August, and something like 150 entries are expected from Vancouver, Victoria, Seattle, Tacoma, Spokane and California points.

Plans for the big gathering of racket wielders were made during the past week and the meet will be patterned after the large tourneys at Coronado and Monterey in California. Arrangements are being made by a committee for railroad fares and entertainment at The Breakers hotel during the week that play will be in progress.

The committee that has the preliminary arrangements is composed of: A. B. McAlpin, chairman, W. A. Goss, Dan Bellinger, Irving Rohr, W. K. Scott, Brandt Wickersham and Will Miller.

The last named is also chairman of the transportation committee and will arrange all matters pertaining to rates.

"THE SAILORS" TAKE PLACE OF "BEAVERS"

The Beavers are no more. Judge W. W. McCredie, president, and George S. Shepherd, secretary of the Portland baseball team of the Pacific Coast league, have decreed that the nickname hereafter and forevermore shall be "The Sailors."

The change was made at a meeting of the two officers yesterday and in compliment to the shipping reputation of Portland. The judge has never liked the cognomen "Beaver."

He thinks beavers are slow-witted quadrupeds and not in harmony with the wonderful speed being displayed by the Portland bunch.

"The Sailors" was prompted by a desire to show the world that Portland is a seaport and ships the greatest amount of wheat of any city in the world. It being believed that the singular appellation will assist in advertising this fact.
