

SPORTING NEWS OF THE WORLD

CORBETT WANTS TO FORGET RING

Former Champion Content With Theatrical Undertaking, Hoping to Rise.

His dark, handsome face bearing no marks of the prize ring and the picture of robust health, James J. Corbett, ex-champion pugilist of the world, now appearing at a Portland playhouse, talked of his theatrical ambition this morning. "I want to forget that I ever had anything to do with a boxing glove," he said, "and I want to take a place among the great actors of the lighter roles. But it is a hard fight. For ten years I have been trying to make people forget that I was ever a champion and to think of me only as a thespian. I am gradually succeeding and I finally reach that point I shall be a far happier man than when I sent over that wallop to Sullivan's jaw that made me champion."

Corbett modestly claims the distinction of having been the only pugilist to make good in high-class vaudeville and in the legitimate. He is the antithesis of the popular conception of a prize-fighter. His splendid physique covered by garments of the latest cut give him the appearance of a well-groomed business man. His features are almost perfect and his voice sweet and melodious. He is always at ease and that remarkable grace admired by thousands at the ring-side is just as much in evidence behind the footlights. His handshake is as gentle as a woman's.

"I've always liked Portland," Jim continued, "for it is the first town I ever visited outside my native California. I came up here to meet Dave Campbell. The last time I was here was ten years ago and I have a number of friends I am going to visit before I leave tonight." "Portland is a fine town and I shall look with much pleasure to my return here next October in a new play, a comedy this time. They know me well in the east, where I have been on the boards for a decade and I want to become better acquainted with the theatre-going west. So far I have been treated splendidly. Houses have always been good and I have made money."

Won't Don the Gloves.

"No, you can't get me to put on the gloves before a crowd any more. I spar occasionally for my own amusement and take my exercise on the handball court or with the racket whenever possible. My health was never better. I retire and rise early now and that speaks for health when a fellow is moderate in his eating and drinking." "Can you give your opinion of Packy McFarland because I have never seen him fight. Neither have I seen Battling Nelson nor Tommy Burns. I don't like to express an opinion on Burns because it might be an unjust one. He has never met anybody of great caliber and it is impossible for me to say whether he might be a wonderful fighter and then again he might blow up the first time he meets a good man. Time will tell. I can't believe that any of the present day fighters have shown the class of 10 or 20 years ago, when Jack Dempsey, Ed Flinn, Fred Goetz, Ben Fitzsimmons, Tom Sharkey, Kid McCoy, Peter Jackson and Jim Jeffries flourished. Of course I except the light and feather-weight divisions."

"Some eight or ten years ago my friends—I live down on Long Island and everybody in my district knows me—used to allow my name to go up for congress. I might have won out for everybody assured me of his support. But I don't want any politics or any more prize ring. I want to be left alone with my theatrical enterprise and if hard work counts for anything I am going to get to the top."

Corbett and his company leave tonight for San Francisco, the city of his birth, where he is sure of a rousing welcome.

I CURE MEN

And My Cures Are Thorough and Lifelong

I have been treating men, and men only, for over 25 years. I have an established reputation in Portland, which I hold as a priceless asset. I undertake only curable cases, and when I promise a cure I guarantee it, and my business standing and bank references assure the patient that my guarantee is absolutely binding. I do not think I can show better faith in my ability and methods than my unqualified offer to patients.

Many a youth of splendid promise has failed because of some weakness, the nature of which made him delay seeking medical aid until it had become serious, and greatly injured his life's opportunities. I have seen thousands of these cases, and have heard the story of their suffering. Usually there is also a history of incompetent treatment by family doctors, patent medicine, electric belts and untried medical institutes and so-called "specialists."

DR. TAYLOR, The Leading Specialist.

Results Are the Only Test

I make definite claims for my methods of treating Men's Diseases. I claim originality, distinctiveness, scientific correctness and unapproached success. Every one of these claims is backed by substantial proof. The best evidence of superiority are the cures themselves. My treatment cures permanently those cases that no other treatment can cure. This test has been made over and over again, and a majority of my patients are men who have failed to obtain lasting benefit elsewhere.

PAY WHEN CURED

MY FEE \$10 Why Pay More for a Cure \$10 Others of Less Experience and Skill?

Can any reasonable man desire a more fair test of my methods than to let me cure him first and to pay the bill when he is well? No man could be fairer than that. I take all the risk. You take none whatever. You have everything to gain and absolutely nothing to lose.

Weakness

I have a treatment for men's weakness which is entirely out of the line of the stimulants and tonics which for a long time was the only help that physicians had to offer for such conditions. Being a patient of the specialist known to the ordinary physician and all that was mentioned in medical text books from which the symptoms were studied, its frequent failure to give help caused many honest and well-meaning physicians to admit that there was nothing to help a man whose virility power was declining. But my exhaustive studies in the specialties of Men's Weakness proved conclusively to me that this class of disorder in about nine cases out of ten is due to an atrophy of the nerves or the prostate gland, or to a disturbance of the blood supply of this important organ. Treatments must be given to the affected part. It must be local and direct. It must be the right treatment and the action of the medicine must be minutely understood. Then the result is never in doubt for a minute, and the cure is as permanent as it is absolute.

Specific Blood Poison

I cure this leprous disease completely. The system is thoroughly cleansed and every poisonous matter removed. The last symptom vanishes to appear no more, and all is accomplished by the use of harmless, blood-cleansing remedies.

Varicocele

By Varicocele we understand a twisted, hardened and knotted condition of the veins, carrying the blood from the appendages. This is a very common complaint and is produced by various causes. It seldom causes any rapid decline, but undermines insidiously and weakens the sufferer in both mind and body. The stagnant blood in the affected veins seriously interrupts the blood supply of the organs, and often is the cause of reflex symptoms which are not easily recognized. The ordinary physician advises an operation for varicocele, and knows of no other treatment. The sufferer must pay a good fee, besides the loss of time, and the extra hospital bills. By my improved methods I use no knife, cause no pain nor loss of time from business. My treatment is scientific, thorough, permanent and never fails. It will pay every man suffering from Varicocele to investigate before considering other treatments.

Stricture

Surgery is not only harsh, painful and dangerous, but is entirely unnecessary in the treatment of stricture. I employ a painless method by which the obstructed tissue is dissolved and all the membranes of the organs involved thoroughly cleansed and restored to a healthy state.

I Also Cure Hydrocele, Stricture, Contracted Disease, Etc.

CONSULTATION AND DIAGNOSIS FREE.

MY HONEST AND CANDID ADVICE COSTS YOU NOTHING. I cheerfully give you the very best opinion, guided by years of successful practice. Men out of town, in trouble, write if you cannot call, as many cases yield readily to proper home treatment and cure.

Hours—9 a. m. to 5 p. m., 7 to 9 p. m.; Sundays 10 to 1 Only

SALEM HIGH HAS CRACK BALL TEAM

Fast Capital City Bunch to Meet All Portland's Secondary Teams.

(Special Dispatch to The Journal.)
Salem, Or., March 27.—That Salem High school will this year be represented by a team which will make a strong bid for the northwest championship is the prediction of the baseball fans of this city who have seen the squad in action.

For three weeks the boys have been training under the direction of "Arch" Jerman, who was secured by Manager Kreba as coach. Jerman himself is well known throughout the state as a player, and was coach and pitcher on the Willamette university team two years ago, which won the collegiate championship of Oregon. In a short time he will leave for Spokane to try out with the Northwestern league in that city.

In the meantime, Jerman is whipping the team into shape for the season's campaign. The captain this year is "Larry" Keenes, who has done the pitching for the high school for the last two years. Keenes will again be seen in the box, and with "Bill" Jones, the catcher, has what is credited as the strongest high school battery in the state.

The infield will be composed of the following players: Gabrielson, first base; Farmer, second base; Roberts, shortstop; and Kay, third base. These men have played together in the same positions for two years, and the combination should be almost invincible. Gabrielson, first base, was given a close run for the place by Hunt, formerly from the Idaho State league, but the latter will be the player in the outfield. Gabrielson met good by his heady and consistent work last season.

"Dolly" Farmer, second baseman, was football captain during the season. He began his baseball career with the Ramblers, an organization formerly in this city, and was captain when they defeated the Indians. Last year he was the fastest infielder in the city and much is expected of him this season.

The outfield will be picked from a large number of candidates. Besides Hunt, who has already been mentioned, there are Perkins, Carey and Kraus, all of last year's team. Moore, the famous football punter; Kreba, from Columbia university; Portland; Richardson, Belknap and Kaiser.

Keenes will not be forced to do all the work in the box, as Allan Belling, from Portland High school, is showing good speed at the bat. Belling's experience will make an excellent substitute pitcher. Should Jones vacate his position behind the bat, "Bill" Perkins could fill the place, as he formerly caught for the Ramblers team.

Games have been scheduled with all the Portland secondary teams. Salem is especially anxious to give his bunch a chance in the metropolitan. Salem High school has already scored two decisive victories over Portland teams this year—first, when the East Side High school was defeated in football by a score of 29 to 0, and later, when the West Side High school won basketball to the Salem five by a score of 48 to 19. However, the Salem students think they have hardly been given a fair trial in the metropolitan, where few persons have heard of their prowess.

The games in the Western Oregon intercollegiate league will take up a good part of the schedule. The first game of the season will be played with the Chomawa Indians next Saturday, March 28.

Crack Basketball Team Claiming Southwest Championship

(Special Dispatch to The Journal.)
Winlock, Wash., March 27.—The basketball team of the Winlock Amateur Athletic club has closed a most successful season, and claims the championship of southwest Washington. They have lost but one game, that being to the Muscatine, Iowa, team. Following is their record:

23, Little Falls; 2, Winlock; 2, Centralia High school; 18, Winlock; 14, Centralia High school; 13, Winlock; 40, Hoquiam; 2, M. C. A.; 18, Winlock; 43, Castlerock High school; 15, Winlock; 47, Castlerock High school; 1; Winlock; 41, Centralia; O. G. T.; 7; Winlock; 42, Centralia; O. G. T.; 12; Winlock; 8, Tacoma High School; 17; Winlock; 2, Vancouver High school; 5; Winlock; 7, Muscatine, Iowa, 21.

The total number of points made by Winlock was 303, against 137 by their opponents.

Lineup, reading from left to right, in picture: Top row—Guy Shipley, forward; Carl Harkins, forward; Earl Harkins, center; Ray Myers, guard. Bottom row—Frederic Shives, guard; Attorney F. M. Hancock, manager; Ed Wall, forward.

ATTELL TO SLUG WITH BAT NELSON

Little Hebrew Feels He Can Outwit Dane—Bat in for Rushing.

(United Press Leased Wire.)
San Francisco, March 27.—With their battle but four days away, Battling Nelson and Abe Attell, who are scheduled to meet in a 16-round bout on the night of March 31, are training as though their lives depended on the outcome of the affair.

The durable Dane has not trained so hard for a fight since his memorable encounter with Joe Gans at Goldfield. Nelson fully realizes that he must make good next Tuesday night, as another reverse means back to Hegewisch for him.

Appreciating Attell's cleverness and style so well, the battler is preparing himself for a fast battle and an aggressive one. Aggressiveness is his chief stock in trade, but he plans to trot out an even fuller line than usual in his coming engagement.

If his training stunts are a safe criterion it is his plan to keep on top of the fight from the opening gong to the finish, thus preventing the feather-weight champion from bringing his wonderful cleverness into play. It is his only chance, as he knows that to permit the Little Hebrew will-of-the-wisp to make a stand-off battle of it would mean the cashing of the Attell bet.

Nelson has developed a slight cold, but says he will be rid of it before he steps into the ring. He will make the weight, 132 pounds, handily. His condition could not be better. It is out that he intends to slug with Nelson, that he will meet the Dane at every point and give him no rest. Whether the champion is rugged enough to carry out this plan of campaign remains to be seen, but as he is quite a fox and not in the habit of telling all he knows, it is more than likely that he will not frame up a plan of battle until he has gone a round or two with Nelson. He knows the Dane's style of fighting having trained him for his battle with Unholz, and feels that he can outwit Nelson at any sort of a game. Attell is in grand condition and will enter the ring weighing about 124 pounds.

M'FARLAND AND JIM BRITT BUCKLE DOWN

Chicago Lightweight Has Made Great Impression on California Fans.

(United Press Leased Wire.)
San Francisco, March 27.—Packie McFarland, the Chicago lightweight, who meets Jimmy Britt in Colma on the afternoon of April 11, has settled down to the hard grind and from now until the day of battle will leave nothing undone to put himself into the best possible condition.

In his first real training bout with the gloves McFarland surprised the old-timers with his balance and preclion. He lands with lightning-like rapidity from any position, either set or on the move, and there is force in every punch. In the matter of speed he is fully the equal of the native son and probably has it on Britt in punching ability.

The impression he has made is so good it is unlikely that he will be better than 10 to 5 favorite.

Britt is training carefully for the fight and is confident that his cleverness will carry him to victory. The Californian has little weight reducing to do and therefore is paying more attention to building up his strength and proving his speed than to cutting down his poundage.

The principal bout of the evening will be between Gene Sullivan, who is generally recognized as the amateur champion of the northwest in the lightweight division. Gene has never been defeated on points and is an ideal boxer, reminding one of Jimmy Britt.

Sullivan's opponent is Bobby Chase, who has assumed the amateur ring name of Young Yorkie. He is fast on his feet and remarkably clever with his hands. That he is bound to give Sullivan a hard go for the medal is assured. The men are very evenly matched and each is ambitious to make a showing before the Portland sports.

Soldier Donahue, the Vancouver barracks man, who recently met Roscher, is another crack slated for a go. He will meet Kid Spana. Both men are confident of winning, and intend to show the fans some exciting punches and clever footwork.

Eddie Anderson and Kid Bally furnish another number on the program, as likewise do Kid Parkinson of La Grande and Young Hurst of The Dalles. These little fellows are in the bantam-weight class, boxing at 105 pounds.

The "Strangler" Smith wrestling match and the one between Shafer and Walter Diabel at 170 pounds, will be the first two events in the program. It being arranged in this order so that the mat might be changed before the boxing matches.

ITALIAN CAR IS OFF AGAIN ON BIG RACE

(United Press Leased Wire.)
Ely Nev., March 27.—The Italian car in the New York to Paris race left this city at 7 o'clock this morning after having experienced a line of hard luck which subjected it to a long delay. It will take the same route to San Francisco that was followed by the American Thomas car.

The Italian car is hopelessly behind the American racer, but the great distance between them is due to a break down 90 miles west of Ogden, on March 26. It was taken over by Gordon on a flatcar for repairs and then hauled to the spot where the accident occurred to make a fresh start for the coast. The car ran into Ely at 7 o'clock last night.

Medics Against Dentists

The seniors of the University of Oregon Medical college have won the interclass championship at baseball and now they have gotten this honor they will challenge the dentists from the North Pacific Dental college. The medics furnish a little nerve medicine for the poor health restorers and as a side issue will decide the championship of the schools. The game will be played Saturday afternoon at Twenty-fourth and Vaughn streets, at 2:30 o'clock.

Dog Fanatics Meet Tonight

A meeting of the sporting dog fanciers, who recently organized the Oregon Field Trials club, will be held in room 408 Abington building tonight at 8 o'clock. The dog show has been set for a large number of the dog fanciers in the city and a large attendance is expected. Matters of general importance to all will be discussed and plans for the meet next fall made.

CARD DEPOSITS \$50 FOR WADSTEIN RACE

Portland Skater Names Conditions of Meeting With Hood River Man.

Harold Card, the champion roller skater of Portland, this morning deposited a \$50 check with the sporting editor of The Journal to cover a like amount put up by a race here in the near future.

Card also wrote Waldstein a letter in which he states that as the challenged party he had the right to name the place of meeting and chose the Exposition rink in Portland. Card fur has the first night, the second night to the racers, the first two out of three heats, the racers to start from scratch the first night, the second night to be a pursuit and the third night positions to be the given by tossup.

The Portland skater specifies that the race shall take place on the next three nights of the coming week or the last three nights of the week following. He is anxious to meet Waldstein as soon as he can be permitted to do so.

I am confident that I can beat Waldstein, and am willing to bet that I will meet him under the conditions I have named, which are absolutely fair to all concerned.

STAKE OF \$200,000 FOR AIRSHIP RACE

New York, March 27.—An international race between New York and Chicago, with a \$200,000 stake, may be the outcome of a challenge announced today by A. P. Bliven, the Brooklyn inventor, who claims to have solved the problem of aerial navigation.

Bliven makes a startling offer of \$100,000 against an equal amount from any other aeronaut for an airship that can beat the one he will have completed during the coming summer. His craft, he says, will be able to make the trip to Chicago at an average speed of 70 miles an hour. Bliven's challenge has been sent abroad and he has received numerous inquiries from European governments and aeronautical associations regarding it.

Astoria Wants the Best.

(Special Dispatch to The Journal.)
Astoria, Or., March 26.—The Regatta committee has prepared and sent out an advertisement to appear in the leading dramatic and theatrical weeklies of this country asking for those interested in such concessions as the Regatta committee has to offer to correspond with the secretary of the committee. The advertisement reads as follows: "We want the best suitable outside and inside amusements obtainable for our Fourteenth annual regatta, August 27-28-29. Address secretary, Astoria Regatta association, Astoria, Oregon. It is the expectation to have real and genuine amusements and entertainments this summer if the same are obtainable."

Good Bouts at Pastime.

The boxing and wrestling exhibition of the Pastime Athletic club at Robie's park last night was largely attended and the fans witnessed several very good bouts of an amateur nature.

MEN'S DISEASES CURED To Stay Cured

No Money Required to Commence Treatment If Honest and Responsible You Can Pay When Cured
