GLORIOUS NEWS FROM GOLDFIELD

RICHEST STRIKE IN THE HISTORY OF THE CAMP MADE IN THE FLORENCE MINE ON MONDAY

GOLDFIELD, Nev., March 31.—Portland-Florence Mining and Leasing Co., Room 15, Mallory Bldg., Portland, Or.—Last evening the lease adjoining us on the Florence made the richest strike in the history of Goldfield. W. B. STEWART.

The foregoing dispatch was received at this office late yesterday from our president, W. B. Stewart, who had arrived in Goldfield from Rawhide two days before. Those readers of this advertisement who have Goldfield maps received from us will recognize this as the Little Florence Lease, which has been delivering up to its operators half a million dollars per month for several months before the strike, and at that rate ever since the strike ended and mining was resumed. It adjoins us to the south and a little east, and is one of the tremendously rich properties of which we are in the thick. That within 90 days we will be delving into just as rich rock as rich properties of which we are the owners of shares in the Little Florence, Florence Annex, Daisy Florence, Mohawk Florence, Rogers, Syndicate (this lease is paying each of its three operators \$25,000 per day, a total of \$75,000 per day), Hayes-Monnet, or ANY OF THE MINES OF THE WONDERFUL DISTRICT, we predict without a morsel of hesitation. Our Mr. Stewart is a practical miner and what he says may be relied upon MOST IMPLICITLY AND WITHOUT AN ATOM OF DISCOUNT. Most certainly fortune is tapping at the doors of our stockholders, and here in the office headquarters we feel that we ought to be congratulating one another—and this office DOES congratulate each and every holder of a share. Soon they will be taken from the market. Not many more will be permitted to join us, and within a few months we all will be reaping the magnificent harvest ripened from the seed we have sown, as a sort of community of neighbors and friends. We would be glad, indeed, if every one of our company could walk into these headquarters today and participate with us in the joyous enthusiasm manifest on every countenance. Not that we ever have had the slightest misgivings as to the richness of this lease, but it always seems a big degree nicer to have the luscious apple within one's reach.

Another Telegram

Arriving at Goldfield from Rawhide, where Mr. Stewart had signed a lease on one of its best claims, he made a thorough inspection of our Florence Lease, and thereupon wired us as follows: GOLDFIELD, Nev., March 30.—Portland-Florence Mining and Leasing Co., Room 15, Mallory Bldg., Portland, Or.—Florence Lease showing well. Drifting on vein five feet per day. Will make good. W. B. STEWART.

Three Properties In One

We own 100 acres of ground outright, one mile and a half north of the city of Goldfield, surrounded on three sides by producing mines. Expert mining engineers and practical working miners, thoroughly acquainted with the district, most emphatically declare that our outlook there is second to none in the Goldfield gold belt, and that we ought to be in the ranks of dividend payers within the next six or eight months. It will require 25 to 50 years to work this mine out. If it shall pay but the insignificant sum of 10 cents per share per month, owners of 1,000 shares, now costing only \$100 and that on installments of \$10 down and \$10 per month (next week we will change the terms to 25 per cent down and 25 per cent per month), will receive dividends at the rate of \$100 per month.

Two Rich Leases

In Goldfield we have a lease, just ready to burst into the dividend class of its sister leases on the Florence mine, from which we most earnestly believe we shall take more than \$1,000,000 in the next eight to ten months. We are hemmed in on every side by other leases every day yielding at this, and some at a much better, rate. The Florence mine, on which this lease is made, is the richest gold property in the world.

BUT IN COMBINATION, THESE 100 ACRES AND THESE TWO LEASES, WE PRESENT TO THE PUBLIC THE MOST WONDERFUL GOLD MINING PROPOSITION ON THIS EARTH TODAY

It beats anything ever yet financed here, and what we most greatly rejoice to contemplate is that most of its shares are now owned by our neighbors and friends of this charming city of our home. Not that we are so selfish and inconsiderate that we would not gladly share our treasure with the veriest stranger that had joined our enterprise at its beginning, but our appreciation of the confidence reposed in us by those hundreds who have known us longest and best, surpasses all other pleasures of this most successful venture. And that it will be a success in magnitude beyond all the most sanguine and brightest anticipations of any of us, is now so apparent as, in our minds, to leave not the slightest shadow of a doubt. The man or woman who will scribble themselves now to own a few of these shares will not have to scrimp next year, nor the next, or any of the years of the future.

Mail Delayed

We had expected a letter from Mr. Stewart in time for this advertisement, but delayed mails has doubtless detained it. It will reach us within the next 24 hours, we are sure. Those desiring stock in our company ought to make speedy application, or the first thing they know they will be too late.

Shares 10c Each, 10 Per Cent Down and 10 Per Cent Per Month

But do not forget that, very likely some day next week, the terms will be changed to 25 per cent down and 25 per cent per month, and WE RESERVE THE RIGHT TO INCREASE PRICES WITHOUT NOTICE. This may be any day now.

The Portland-Florence Mining & Leasing Company

Room 15, 268 Stark Street, Opposite Chamber of Commerce, Portland, Oregon. Phone Main 5489. Officers—President and Manager, W. B. Stewart; Vice-President, W. A. Moses; Secretary and Treasurer, F. W. McKechnie; Superintendent, R. G. Virtue.

Send us your address and we will mail you an up-to-date map of Goldfield free of charge.

SENSIBLE HOBBY

Well-Known People Devote Spare Time to Upbuilding Health.

Physical culture is getting to be more and more of a hobby with many people, and their spare time is not only spent in upbuilding their own physical health, but in preaching doctrine of good health to others. There is no excuse today for any person, unless tainted with an incurable disease, remaining sickly, with the growing popularity of physical culture, disease of digestion and nutrition, for example, an acknowledged specific treatment has been found in relieving the worst troubles of digestion and assimilation, and making a complete cure.

People suffering with headaches, palpitation, sleeplessness, bad taste in the mouth, coated tongue, distress after eating, spots before the eyes, nervousness and general debility, and any other of the many distressing results of a weakened stomach, should profit by the discovery of M-I-O stomach tablets.

Woodward, Clarke & Co. have seen as many cures by M-I-O of stomach and general run-down state of health that they are firm believers in the power of this remedy to cure practically every case, and they show this faith by giving a guarantee with every 50-cent box of M-I-O. It is claimed for it that it takes the whole risk, and M-I-O will

ADMIRAL EVANS WILL BE GIVEN GOLD KEY

(United Press Leased Wire.) Seattle, Wash., April 1.—A key made of virgin Alaska gold, to signify that the door of the city is open to the officers and sailors of the Evans fleet, which will visit Seattle in June, will be presented to the admiral of the fleet upon its arrival. The key, which will be made of Alaska nuggets contributed by patriotic persons, will be presented on behalf of the city by Mayor Joan F. Miller.

MEXICAN MUSTANG LINIMENT

Made of oils, famous for their penetrating and healing qualities. It quickly relieves soreness, soothes the injured parts and removes all stiffness from the joints and limbs.

MORRIS BROTHERS

ROOM 6 of CHAMBER OF COMMERCE

HAVE YOU \$16.00 IN CASH TO INVEST? CAN YOU INVEST \$10.00 A MONTH? DO YOU KNOW WHERE TO INVEST IT? WOULD YOU INVEST IF YOU KNEW? That's the Whole Situation in a Nutshell

If you answer the first two questions in the affirmative, the second in the negative and the last one encouragingly, it is pretty near a certainty that you are willing to invest in a first-class bond proposition on easy terms. It is seldom that the small buyer has an opportunity to buy railroad bonds on small payments. This is one of the few. The principal difference between buying railroad bonds and railroad stock is that you have all the assets of the corporation behind the promise to pay 5 per cent per annum on the bonds, while the dividends from stock are uncertain. It is the difference between a long chance and a first-mortgage lien. That's some difference, isn't it? In other words, you get your money back when you buy good bonds, while stock, no matter how good the company may be, promises you nothing. Buying bonds is loaning money on good security, at a good rate of interest. The company takes all the chances—you none.

The bonds of the OCEAN SHORE RAILWAY COMPANY are secured by assets valued at over \$4,500,000. These assets consist of over \$2,000,000 in terminal property in the hearts of San Francisco and Santa Cruz; 80 miles of the best right of way in the United States; 34 miles of completed railroad, now in operation and already paying dividends; rolling equipment of every sort, and franchises that are very valuable. Besides all this, your investment will be in the bonds of a company that has the opportunity of becoming one of the wealthiest short-line railway companies in the United States. This is due to the wonderfully rich country through which the line passes. It has never been tapped by a transportation line. The bonds are \$100, par value. You may purchase one or more at \$92 cash or \$96, payable \$16 down for each bond and \$10 per month. These bonds bear 5 per cent interest, payable semi-annually. If purchased at \$92, they net 5 1/2 per cent, and if bought at \$96, they net 5.21 per cent. There is scarcely another safe investment that does as well.
