

LUSCIOUS GRAPES TO GROW WHERE  
GOLD WAS MINED MANY YEARS AGO

Tokay Cuttings, Handled by the Dray Load, at Grants Pass.

This photograph, which shows three big truck loads of Tokay grape plants, or a total of 100,000 young vines, illustrates the manner in which the grape business is being entered into by Grants Pass people. This big shipment was for one man, W. B. Sherman, of Grants

Pass. Mr. Sherman has cleared a vast tract of grape lands on the hill slopes near the town and is setting it to the Tokay. Many other growers have received large shipments of grape plants of late. By the close of this month, it is stated, Grants Pass will be surrounded by young vineyards, and in five

years from now promises to be one of the most promising grape producing centers in America. The grape-craze of the present equals in many respects the gold craze of half a century ago, and it is interesting to note that many of the old gold fields are being set to the vine.

GENERAL FUNSTON  
MAY BE PROMOTED

War Department May Place  
Officer in Charge of Leavenworth Schools.

(United Press Leased Wire.)  
Washington, April 7.—General Bell, chief of staff, has put a quietus on the rumors that Brigadier-General Funston, head of the Department of California, has been decided upon as the new commandant of the three army service schools at Leavenworth, Kansas, by declaring that no one has been selected for the place. The same report that says Funston will be transferred to that post has it that Major-General Frederick Grant will succeed him in San Francisco. To have charge of the army service schools in Leavenworth is regarded as one of the highest honors that could be bestowed upon an army officer.

San Francisco, April 7.—I have not been officially notified that I will be sent to Leavenworth, said General Funston today, but for some time the war department has been thinking of sending me to that post. I would enjoy the transfer immensely, as the position is a fine one.

STANDARD GETS

Oil Trust Controls Gas and Electric Companies in California.

(United Press Leased Wire.)  
San Francisco, April 7.—A stupendous deal, involving \$45,000,000, and which will practically place all the gas, electric light and power companies in California in one basket to be controlled by the Standard Oil interests, has recently been consummated here and in the east.

One of the results of the deal is the putting of more than \$6,000,000 of new money into the lighting and power enterprises of the state. The initial step that was made public was the making of a mortgage and deed of trust for \$45,000,000 from the California Gas & Electric corporation to the Union Trust company of San Francisco in January last, merging and consolidating the interests and properties of all the gas and electric lighting and power companies of San Francisco and northern California, and giving one corporation control of the gas and electric plants of 25 counties of California.

The new financial plan provides for the transfer of all the properties of the various constituent companies (except railways of any kind) to the California and Electric corporation and the creation of the issue of "unifying and refunding mortgages 5 per cent 30 year gold bonds" to mature November 1, 1917.

Terrorist Under Arrest.  
(United Press Leased Wire.)  
St. Petersburg, April 7.—The famous revolutionary, Nicholas Tschalkowsky has been arrested and confined in the Fortuna St. Petro and St. Paul. He was the founder of the first revolutionary center in this city during the reign of Alexander II, first being then considered one of the most prominent terrorists. Educated in London, he was with Kuropatkin, an energetic director of revolutionary movements from 1876 for several years. In 1876 he had been sent to Siberia, whence he escaped and at the end of 1876, married a lady of the high aristocracy, remaining incognito until now, when he has been apprehended, distributing revolutionary books. His wife is as revolutionary as he, and supports him enthusiastically.

Postmaster Grant at Bend Short \$3,200—Confesses to Inspector.

(Special Dispatch to The Journal.)  
Prineville, Or., April 7.—Postmaster Alfred H. Grant of Bend has been removed by Postal Inspector H. J. Stockmayer of the Spokane division and his bondsmen, which is in charge of the postoffice.

It became apparent to the department some time ago that there was some irregularity in the manner in which money order funds were being transmitted to the depository at Portland and an investigation was made at once.

After being questioned Postmaster Grant made a confession to the postal inspector and Mr. Hunter, one of his bondsmen, which is said to have been in effect as follows:  
Grant had practiced irregularities in handling the funds and had misappropriated sums at various times for over two years. Whenever a postal inspector was in the vicinity a fake duplicate of remittance letter was made to cover the amount and placed with other papers in the cash box, which was counted as cash when the office was checked up by the inspector. Thus inspectors were evaded during a period of two years. He said further that some amounts had been borrowed from and repaid to the money order funds.

Says He Will Pay It Back.  
The office was short about \$3,200. Of this \$2,600 had been taken since the first of the current year. What had been done with the funds Grant would not state, further than that they had been appropriated to his own use.

"I will repay it some day," he said, but that was all.  
It seems that through some defect in the bonds the government is secured only to the amount of \$1,000, which has already been paid by bondsman Hunter, who has charge of the office at present. The other bondsman is A. M. Drake, who is spending the winter at Naples, Italy.  
Grant is an Englishman by birth and

WESTERN DANCER IS  
POPULAR IN LONDON

(United Press Leased Wire.)  
London, April 7.—Maud Allen, the San Francisco dancer, who is making a tremendous hit here, particularly in her Salome dance, is assured a long run of popularity. She has drawn more cabinet ministers and members of the nobility to the Palace of Music hall than that theatre has had since it was converted from a grand opera house into a novelty show.

Miss Allen's appearance as Salome when she dances around the head of John the Baptist, is made in a costume that is decidedly décolleté, consisting principally of strings of pearls.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing; the full name of the company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
