

COUGLS AT VEIL AND PEOPLE'S INTERESTS

Defeat Mayor's Efforts to Keep Five-Year Lighting Contract Out of Hands of Corporation—Two Ways Remain to Save Taxpayers' Money.

Yesterday's session of the city council was one long act of low comedy, in which the spectators revelled in the work of bitter personalities hurled back and forth by the councilmen, one to the other, from the councilmen to Mayor Lane, and back from Mayor Lane to the councilmen. At the conclusion of the affair the majority party of the council passed the lighting ordinance over the mayor's veto authorizing the city executive board to enter into a contract for a period of either three or five years.

There are two avenues open by which the mayor can win his fight. One is for the executive board to reject any bid that may be received, which will leave the matter as much in the air as it is now, or the circulation of a petition among the people for a municipal lighting plant.

Viewpoints Begin.

The fireworks were not long in starting. After the veto message had been read and put to a vote, Councilman Annand arose and asked Mayor Lane what would follow in event the council sustained the mayor in his veto. Mayor Lane replied that he would not submit the matter to a vote, but that he would vote to sustain the mayor unless he could know what to expect.

Baker was the next on the list, and spoke of the latter part of the message, in which the mayor referred to the fact that the council had received from the railway company. While Baker spoke he was often interrupted by Mayor Lane, who corrected statements of the speaker, and in the end the two were engaged in a debate. Baker contended that Mayor Lane had misrepresented the facts to the public, by challenging the mayor to a debate. Baker voted to override the mayor's veto.

Light & Power company. Then he referred to the "petty stipend" clause of the mayor's message. He was immediately called to order by the mayor, which caused Willis to remark:

"I don't suppose you ever took any stipends."

"No, sir," answered the mayor.

"No stipend," asked Willis.

"Yes, I was given one, but it was so poor that I gave it away," replied the mayor, whereat a laugh went up.

"Yes, and I guess you got more than one. I guess you got three or four boxes of cigars," retorted Willis.

Then Mayor Lane came back.

"What you say is false," said the mayor, "and I believe that you make the statement knowing that it is false."

That ended the debate, and the result showed that the majority of 10 had overridden the mayor's veto. Councilmen Vaughn, Somers, Cottel and Kellar voted to sustain Mayor Lane. Councilman Rushlight was absent.

Cellars Really Says Something.

Councilman Cellars, was the next

speaker and made the only real argument of the majority party in defending the stand taken against the mayor. Cellars stated that he had been chairman of the lighting committee which investigated the proposition of a lighting plant, and said that one could not be built in less than two years, and perhaps not less than four, even if the water supply for such a plant were owned by the city. Cellars said that these were not only his estimates, but those of others who investigated the proposition.

Cellars said he favored a city distributing system, but that such a project could not be completed in time, and therefore wanted to insure the city lights in the meantime by entering into a contract. He said that he did not believe the people would be as willing to rush into the matter if they had studied the conditions as closely as he had.

Mayor Lane said that he, too, favored a distributing system, and stated that he had assurances that the city could secure competitive bids for the current by the first of the year. The distributing system was explained as being composed of poles, lamps and wires with a substation owned by the city, while the current is purchased from one of the electric companies. The company which Mayor Lane referred to is the Mount Hood Railway company, which is completing its system at the present time. Mayor Lane said that he thought the present system of lights could be purchased from the Portland Railway, Light & Power company, and said if this could not be done that a system could be readily installed.

Willis Gets His.

When it came to Councilman Willis' turn to vote, a deal of personalities was indulged in. Willis started by saying that he favored a three-year contract and municipal ownership of an electric lighting plant. He said that sufficient time does not exist to build the plant before the expiration of the present contract with the Portland Railway, Light & Power company. Then he referred to the "petty stipend" clause of the mayor's message. He was immediately called to order by the mayor, which caused Willis to remark:

"I don't suppose you ever took any stipends."

"No, sir," answered the mayor.

"No stipend," asked Willis.

"Yes, I was given one, but it was so poor that I gave it away," replied the mayor, whereat a laugh went up.

"Yes, and I guess you got more than one. I guess you got three or four boxes of cigars," retorted Willis.

Then Mayor Lane came back.

"What you say is false," said the mayor, "and I believe that you make the statement knowing that it is false."

That ended the debate, and the result showed that the majority of 10 had overridden the mayor's veto. Councilmen Vaughn, Somers, Cottel and Kellar voted to sustain Mayor Lane. Councilman Rushlight was absent.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in relieving chronic or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the body, and in controlling the cough and bringing about a healthy condition of the whole system. Of course, it will not be expected to work miracles. It must get cure consumption except in its earlier stages. It will cure very severe, chronic, hacking, chronic coughs, bronchitis and tracheitis, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-over coughs, or those of long standing, even when accompanied by bleeding from the lungs, that it has performed its most marvelous cures.

Prof. Flinck Ellingswood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. It is a food, and a food of the highest quality. It is one of the best manufactured products of the present time in its action upon the stomach. It is especially useful in cases of catarrhal gastritis (catarrhal inflammation of the stomach), it is a most efficient preparation. It will relieve many cases of prostration, indigestion and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood, cures pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

Two of the Leading Soloists With the Chicago Symphony Orchestra

Genevieve Clark Wilson, Soprano. **Rose Lutiger Gannon, Contralto.**

The first concert of Oregon's biggest musical event, the annual Spring Festival, will be given at the Armory, Tenth and Couch streets, tomorrow night at 8:30 o'clock. This stupendous musical offering will consist of the Chicago Symphony orchestra of 45 musicians under the direction of the famous conductor, Adolph Rosenbecker, together with the following celebrated vocalists from the east: Genevieve Clark Wilson, soprano; Rose Lutiger Gannon, contralto; John Miller, tenor; Arthur Middleton, basso. The following are three of the prominent instrumental soloists with the orchestra: Frans Wagner, assistant conductor and solo cellist; Jan Van Oort, concertmaster and solo violinist; Edith Moxom Gray, solo pianist. Added to the above will be a grand vocal chorus of 300 voices.

Max Bruch's beautiful Scotch cantata, "Fair Ellen," will be given the opening night, together with a grand orchestra concert. Saturday afternoon a popular concert for the children has been arranged in both program and price. Saturday night a daring Thomas cantata, "The Swan and the Skylark," together with a grand orchestra concert. Sunday afternoon (Palm Sunday) Handel's sublime oratorio, "The Messiah," will be given and Sunday evening a grand orchestra concert, with vocal and instrumental solos by the many stars with this excellent organization. Seats are now selling at Sherman-Clay's music house at Sixth and Morrison streets from 10 a. m. until 5 p. m. Orders from in and out of the city are being received. Address W. T. Pangie, manager Hellig theatre.

Benjamin's Stylish Clothes

The particular man who studies his individual style in buying clothes will find satisfaction in the great variety of our display of Spring Suits. He will be able to find that PARTICULAR garment that is becoming to HIM.

Every GOOD mode of the season is here. Quality, fit and fashion considered.

SUITS \$20 to \$40

SOLD ONLY BY

A MUSEMENTS

"Brewster's Millions" at Hellig.

The attraction at the Hellig theatre, Fourteenth and Washington streets, tonight, tomorrow and Saturday nights will be the brilliant comedy drama, "Brewster's Millions." A special price matinee will be given Saturday afternoon. Seats are now selling at theatre for the engagement.

Marquam's Musical Attraction.

"Fantana," the bright and vivacious musical comedy, continues to be the delight of the week at the Marquam. The reorganized San Francisco Opera company is better than ever and the new voices are excellent. Teddy Webb, as the prince comedian, is seen at his best this week, and Daphne Pollard is a lively little elf. "Don't Go in the Lion's Cage Tonight," "Mother," and "Marry Him to Make a Home for Mother" are two of the popular song hits.

"A Trip to Chinatown."

Hoyt's "A Trip to Chinatown," as brought strictly up to date by the Baker stock company this week, is an immense comedy hit, and deservedly packing the popular theatre to the doors at every performance. Between the clever lines and laughable situations of the noted writer of farces are introduced many new and clever musical specialties and choruses.

Apache Indians in Play.

Press dispatches have been filled with accounts of Indian troubles in the southwest of late. The Apaches have a prominent part in "The Texas Rangers," the attraction at the Star theatre this week. In this story of the southwest the Indians and soldiers are used as the basis for one of the most stirring and exciting western dramas ever written. Matinee Saturday.

Grand's Modern Vaudeville.

At the Grand this week there is a vaudeville entertainment which is classy and clever. Walter B. Perkins with his own company, heads the bill with a farce such as Perkins knows how to act. It is a fine, funny playlet with a real plot. "The Many Parings" is another comedy playlet which is a merry, mirthful novelty. Katherine Nugent, the hit of "The College Widow," is also the hit of this bill.

Daphne Pollard, Comedienne in "Fantana," at the Marquam Grand This Week, Matinee Saturday.

"A Friend of the Family."

The Allen company is packing the Lyric nightly with delighted patrons who declare that "A Friend of the Family" is the funniest show ever.

ALBANY GIRLS' GLEE CLUB ENTERTAINS

(Special Dispatch to The Journal.) Albany, Or., April 9.—The most successful of the season's entertainments given under the auspices of Albany college was given in the opera house last evening by the Ladies' Glee club of the Conservatory of Music.

The entertainment was under the direction of Professor C. H. Palmer of Albany college and Miss Elizabeth Cohn, accompanist, also of the school.

The members of the club are: Helen Eikens, Vera Barton, Anna Schultz, Laura Taylor, Eula Wright, Susie Bicknell, Phleura Gilham, Christine Pipes, Mammie Johnson, Laura Anderson, Margaret Boyles, Cathryn Ross, Synda Epley, Winnifred McNaair, Clara Schmitt and Edith Yetter.

CHILDREN IN PANIC; FEAR BLACK HAND

(United Press Leased Wire.) Newark, N. J., April 9.—Two children were trampled on and perhaps fatally injured today in a wild rush of 1,500 pupils of a public school for the street, following a report that members of the "Black Hand" society would attempt to blow up the building. One of the pupils had heard the rumor and circulated it among the other children. After nearly every one of them had heard it, one boy rushed for the door of one of the rooms, screaming that the explosion was about to occur. This was followed by a stampede in which the pupils in all the rooms participated.

WHERE THE G. O. P. MADE A MISTAKE

Simmons Says Marion Convention's Backdown Will Plague the Party.

(Special Dispatch to The Journal.) Salem, Or., April 9.—Jerome D. Simmons of Monilton, one of the State's No. 1 members of the last legislature and a delegate in the late Republican county convention which was called to put up an anti-Statement No. 1 legislative ticket but at the last moment backed down, says that convention did one of the worst things ever done to the Republican party in Marion county and that the party will feel the effect for some time to come.

Mr. Simmons says, sentiment for Statement No. 1 is growing in the body of the county, and he predicts the nomination of the entire Statement No. 1 legislative ticket in Marion. He says he was given no recognition whatever in the last legislature because of his pronounced views in favor of electing senators by the people, and if the machine could have had its way the choice of the people would have been defeated and the law repealed.

Easter cards, finest in the city. The Postal Shop, 124 Fifth street.

MEN OF PILOT ROCK PUT MONEY AT WORK

Subscriptions Are Piling Up for a \$5,000 Hotel and a \$3,000 Presbyterian Church.

(Special Dispatch to The Journal.) Pendleton, Or., April 9.—Since the branch line of the O. R. & N. is being operated into the town of Pilot Rock lands are rapidly being sold in that vicinity and the town is assuming an air of great prosperity. A \$5,000 subscription for a good hotel has been started by S. L. Morse, who headed the list with \$500, while J. P. McManus has subscribed \$100. Citizens are subscribing liberally. A brick concrete building will be erected for hotel purposes.

A \$3,000 stock subscription for a new Presbyterian church has been headed by Douglas Belts. Ten others will give similar amounts and the remainder will be raised later.

OWENS' CASE SET FOR JUNE FIRST BY COURT

(United Press Leased Wire.) Los Angeles, April 9.—Dr. J. S. Owens, a local physician charged with attempted extortion of money from James Whyte Evans of Portland, Oregon, by threats contained in letters, pleaded not guilty before Judge Smith of the superior court and his case was set for trial June 1.

Harriman Relected.

(United Press Leased Wire.) Louisville, Ky., April 9.—E. H. Harriman, was yesterday re-elected president of the Southern Pacific at the meeting of the board of directors.

Need-French Piano Mfg. Co.

Sixth and Burnside streets, pianos, players and player pianos. "From Maker to Player."

Use it morning, noon and night, Spring, Summer, Fall, Winter. **SAMPLE FREE.**

LYON MFG. CO., 44 South Fifth St., BROOKLYN, N. Y.

SEATTLE ELECTRIC EMPLOYEES TO STRIKE

(United Press Leased Wire.) Seattle, Wash., April 9.—A strike may be declared in a few weeks by the employees of the Seattle Electric company, embracing practically every street car line in the city. A reduction in wages from 29 to 25 cents an hour and the transferring of old-timers from good day runs to spit shifts, supplementing them with new men from the outside resulted in the grievances. Twelve hundred men will be affected. An organizer is here and a strong union is being formed.

ROGER B. SINNOTT
For District Attorney.

LOUIS GLASS IS IN SERIOUS CONDITION

(United Press Leased Wire.) San Francisco, April 9.—Louis Glass, the convicted telephone magnate, according to his attorneys, is a very sick man, and grave fears are entertained for his life. The condition of his heart shows no improvement, while other organic troubles from which he is suffering waste accompanying it, but even with this, the samples run about \$100 to \$200 to the ton, on conservative tests. Small lots of the ore, sampling from \$8 to \$10 to the pound, extracted from the rich slice, are being worked at the local sampler. The lease expires not earlier than midnight, April 30, which is a sufficient length of time for the production of several hundred thousand dollars, in addition to the previous splendid record. Remember, this lease abuts ours.

ROGER B. SINNOTT
For District Attorney.

AMAZINGLY RICH GOLD ORE

"On Thursday of this week Manager Frank Oliver stripped the lode and took average samples (from the Little Florence Lease), six inches across and five in length. The average ran \$75.952. A check assay gave \$78.458. An average check assay gave \$28,483.80. According to these returns the "pay" streak will break in the neighborhood of \$50,000 to the ton!"

ORE WORTH \$10 PER POUND

Speaking of another ledge, the same paper says: "The new ledge now shows a width of about three feet and will easily break from \$130 to \$150 in addition to the extremely high streak. In order to shoot down the ore with as little delay as possible (the lease expires in three weeks, and \$100 ore is not much cared for), there is a large quantity of waste accompanying it, but even with this, the samples run about \$100 to \$200 to the ton, on conservative tests. Small lots of the ore, sampling from \$8 to \$10 to the pound, extracted from the rich slice, are being worked at the local sampler. The lease expires not earlier than midnight, April 30, which is a sufficient length of time for the production of several hundred thousand dollars, in addition to the previous splendid record. Remember, this lease abuts ours.

THE WHOLE WORLD ASTONISHED

"While the whole world is astonished at the wonderful developments of the past few days in 'Sugarloaf,' 'Red King,' 'Florence,' or whatever may be the proper appellation of this treasure, local geologists are rubbing their hands and saying 'I told you so.' It is the theory of these experts that the hill is a porphyry uplift, similar to those in Gold Crater, which, in their uprising, were sealed in all directions radiating from the center of the eminence, and in those seams occurred the secondary enriching, which usually means high grade. If this theory be absolutely demonstrated, it will mean at least a lease in the vicinity of the hill have a chance to strike one of the radiating, enriched crevices. The strike is stimulating development on every hand."

WONDERS OF THE ROGERS SYNDICATE

The Rogers Syndicate, another sister Florence lease, just southwest of us, has been mining in ore averaging from \$90 to \$50,000 to the ton. This lease expires July 11 at midnight, and the News says of it: "But the Rogers Syndicate people will not be content with the millions which they apparently have in sight. In order to facilitate work the owners of the lease will reduce the working hours to six a day and will work four shifts, without reducing the per diem. This procedure will get out of the employees every ounce of effort they contain."

THE SANDSTORM MINE

The Sandstorm was the first mine in Goldfield, and but for the fact that ore cropped out on the surface at this place there never would have been a Goldfield. This property is one-half mile from the 100 acres owned by us, and within the last two weeks it has broken into ore that runs from \$176 in gold per ton, to other grades of \$289, \$771 and \$980. To say that this discovery has created a rush of development on all the claims lying in every direction from us, is not to picture the interest manifested by prospectors in the neighborhood, and that we are in the midst of a swarm of earnest workers but faintly conveys the activity of our surroundings. This 100 acres we own is only about a mile or so north of the city limits of Goldfield.

OUR GOLDFIELD LEASE

We are pushing work on our Goldfield lease with the utmost vigor. Our miners are at the 250-foot level, and drifting about five feet per day. At this rate our manager says we ought to get into pay in less than 60 days. Here, we believe, we shall encounter the best ore that the Rogers that last week took out that 104 sacks of 100 pounds each, that netted the owners \$1,000 per sack. We believe we shall have just as rich ore as that of the Little Florence that has been in \$75,000 ore, and when our Goldfield superintendent wrote us in a letter received yesterday, that mine was holding rock that across a nine-foot ledge on the 500-foot level, was yielding at the rate of \$32 per pound! Think of that—\$75,000 and \$32 per pound of ore! Never before in the history of the world has there been so great a mine as the equal of these. Never again will the people of Oregon or the Northwest have an opportunity to secure an interest in property of this stupendous value for so trifling a sum of money. And so soon as we reach high grade, we'll shut the gate forever.

THE CONSOLIDATED MINES

Adjoining us on the west are the properties of the Consolidated mines, and last week 100,000 shares of this stock was sold by cable to French investors at \$6 per share—\$600,000 for the bunch! The Consolidated, one of the richest mines in the world, are far behind the Florence in wealth of ore, and ours is a part of the Florence.

OUR RAWHIDE LEASE

In addition to our lease and 100 acres we own in Goldfield, the richest mining district on the earth, we have a lease running 18 months in Rawhide, the next richest camp in the world. We expect that this mine will be in the dividend class in four months, and that it will pay our stockholders at least 10 cents per share per month. We expect to pay a like amount in Goldfield, and at all shares cover both our Goldfield and Rawhide mines. There is at once apparent that stockholders will receive in this event in dividends double the cost of their shares each month. One thousand shares will thus be drawing \$200 per month, and other amounts in proportion.

Every Working Man and Woman Ought to Own Shares

For two more days we will sell shares in these properties at 10 per cent down and 10 per cent per month. Any one who can pay \$5 down and \$5 per month can own 500 shares, or \$10 per cent down and \$10 per month, 1,000 shares. We feel sure that by July at the most we shall be able to declare a dividend of 10 cents per share, so that owners of stock, if we can do this, will receive back all they have already paid in, and have to their credit on our books enough to settle all balances on their stock. After that each will receive his full dividend without deduction. It seems to us that almost anybody can pay \$5 per month for two or three months, for the sake of the chance of having from \$50 to \$100 coming back each month thereafter—or oftener as dividends may be declared. IS THIS OPPORTUNITY OF A LIFETIME FOR THE POOR MAN TO GET OUT OF BONDAGE TO OPPRESSIVE MASTERS, AND BECOME INDEPENDENT OF EVERY DAY TOIL, WRECKED SICK OR WELL? To accommodate such our office will be kept open till 7 p. m., including Saturday evening, but beginning with Monday buyers will be required to pay 25 per cent down and 25 per cent per month. THERE NEVER WAS SUCH EXCITEMENT IN GOLDFIELD AS THERE IS TODAY! THERE WILL AGAIN BE AFFORDED AN OPPORTUNITY FOR READERS OF THIS ADVERTISEMENT TO SECURE SO PROFITABLE AN INVESTMENT. WE BELIEVE THESE SHARES WILL BE MARKETABLE AT \$1 EACH NEXT JANUARY, AND \$5 EACH BY JULY, 1908. IF NOT WORTH \$10 AT THAT TIME WE SHALL BE DISAPPOINTED.

The Portland-Florence Mining and Leasing Company

Room 15, 208 Stark street, opposite Chamber of Commerce, Portland, Oregon. Phone Main 5489.
Officers—President and Manager, W. R. Stewart; Vice-President, W. A. Moss; Secretary and Treasurer, F. W. McKee; Superintendent, R. G. Virtue.
Send us your address and we will mail you an up-to-date map of Goldfield free of charge.

DR. BELL'S Pine-Tar-Honey

Is printed the above design and the number 506. The design is our trademark, and 506 is our guaranty number. The medicine contained in such bottle will cure Coughs, Colds and all Bronchial troubles more quickly and effectually than any other remedy.

DR. BELL'S Pine-Tar-Honey

Is sold by all druggists—50c., 75c. and \$1.00 per bottle. Manufactured only by THE E. E. SUTHERLAND MEDICINE CO., Paducah, Kentucky.
