Rihorn, Realty Dealer, Faces Bigamy Charge—Tells of Long Walk From Portland to Coos Bay to Escape His Wife.

W. F. Rihorn, a real estate man with office in the Alisky building, was this morning charged with bigamy by District Attorney Manning and his bail was fixed at \$1,500. Rihorn was arrested last week through a photograph and account of his wife's story printed in The Journal. He has one wife living at 441 West Park street, and another residing in Frankfort, Ohio. A third, from whom he alleges he has been divorced, is believed to be living in Virginia.

In his attempt to escape from Mrs. Rihorn, he is alleged to have fled from Portland to Coos Bay, through a wild and unhabited country, through streams and over mountains, the way through forests. He says that he had no money to travel by train, so was forced to tramp. "I had to get away somehow," Rihorn told the officers who arrested him. "I needed the money and the Colorado pack trail was the only way I could get across. I had to get across the mountains in my path. She gave me a letter to understand that she had a good deal saved up to come out to Oregon and I'd marry her. When she got here I found she had \$100."

HELEY OPES TO TRAIL REPORT CURRENT THAT MEETING AT EXPOSITION RINK TONIGHT WILL BE PACKED BY THE FRIENDS OF THE UNITED STATES SENATOR.

Francis J. Heley, hot on the trail of Senator Charles W. Fulton, is at the Portland and tonight at 8 o'clock will turn his verbal batteries loose at the big exposition rink, where he will tell all he knows about the senator. Ex-United States Senator Frederick W. Mulkey will introduce the speaker at the opening of the meeting and will then leave the gathering entirely in the hands of the noted land fraud prosecutor.

Mr. Heley will deliver a speech at 8 o'clock in the exposition rink, and then if the health of Mrs. Heley will permit he will remain in Oregon for a few days longer to follow up the eastward footprints of Senator Fulton and deliver several speeches in some of the towns where he is now about to visit.

Packed Meeting Expected.

Senator Fulton left last night for eastern Oregon, unheeding the persuasion of a number of his friends, who advised him to stay and attend the meeting in Salem tomorrow afternoon, and then if the health of Mrs. Heley will permit he will remain in Oregon for a few days longer to follow up the eastward footprints of Senator Fulton and deliver several speeches in some of the towns where he is now about to visit.

It is rumored, however, that there will be things done when Mr. Heley gets under way tonight for up the coast. It is said that a large number of the friends of Senator Fulton are planning to pack the meeting and make the speaker a hero. It is said that if this should come to pass, however, it is a practical certainty that the innocent bystanders will get their money's worth of something of a warrior himself.

Mr. Heley did not have much to say this morning, but he was very cheerful and his words for tonight, however, and much to the point. Some of the things he said were: "When I was recalled to his mind that some one had said President Roosevelt had put the administration under a microscope, and I know who inspired it. I want to say this: There is not a man on this earth."

COLUMBIA RIVER ORE REDUCED WITHOUT COKE Successful Demonstration Held at the Oswego Smelter Proves the Value of Oregon Ore Beyond Reasonable Question.

During a run of iron ore in a smelter built by the Improved Smelter & Mining company at Oswego yesterday, it was demonstrated that the heating capacity of the furnace, so tremendous a heat was developed that some of the fire brick was melted and the furnace would have melted down had the run continued.

A large crowd of mining men and others interested in the demonstration were present to witness the performance of the new furnace. A quantity of iron ore that had lain 1 year in the bunkers of the Ladd Smelter company was used in the demonstration. It was known that there was but little iron in the ore, and that it was very rich in sulfur. The result of the run was a surprise to everyone. The smelting was done with ordinary Rock Springs and Australian coal and no coke was used.

No Coke Needed. The demonstration was made by Portland men who control the Blanchard-Williams double blast furnace. They built a temporary smelter on the site of the furnace, and after several trials to get the construction of the furnace accurate, they succeeded yesterday in showing that the furnace could be run without the use of coke. SMALL CROWD ATTENDS FIGHT

Britt-McFarland Go Does Not Interest San Francisco Sports.

(United Press Leased Wire.) Ringside, Coos Bay, April 11.—One of the smallest crowds that ever assembled before the preliminary to one of Jimmy Coffroth's open air fight festivals was in attendance when the two boys who provided the appetizer to the Britt-McFarland fight this afternoon entered the ring. Bleachers and seats were pitifully bare when Dick Hartly and Anton LeGrave, a couple of lightweight refractors, met at 2 o'clock. Despite the fact that the day was warm and bright, the sun's glare being tempered by a cool breeze not more than one sixth of the seats were occupied. The preliminary was started, interest in the main event, the besting instead of anything was woefully lacking. The opening ringside odds were unchanged over last night's break—10 to 5, with McFarland favorite.
