

EX-GOVERNOR
T. T. GEER

REPUBLICAN CANDIDATE FOR
CONGRESS

Governor Geer needs no introduction to the people of Oregon. Born in the state, and having lived here all his life, 12 years of it in eastern Oregon, having served four terms in the state legislature, one of which he was speaker of the house, and four years governor of the state, after campaigning several times in every county, he easily knows more people in the state than any other man. His wide experience in public affairs and knowledge of conditions in every section gives him unusual qualifications for excellent service in congress. He is an especial advocate of liberal appropriations for the improvement of our rivers and harbors as a permanent national policy, favors the establishment of postal savings banks, fair legislation for both capital and labor, and the preservation of an efficient public service. Mr. Geer was a farmer all his life until he was elected governor, since when he has been connected with daily newspaper work. Multnomah county has never claimed the representative in congress, since both senators have always been from the western part of the district, and the position is conceded to eastern Oregon. Mr. Geer's plurality in Multnomah county two years ago was nearly 1,800 votes, in this district over 2,100, and promises to be larger at this time.

Republican Candidate for
County Commissioner.

W. L. LIGHTNER

Member of first county board to put Multnomah county out of debt. If reelected will continue present economical policy.

Deep Water to the Sea

As all appropriations originate in the house, the hard work must be done by the congressman, and he should be familiar with river conditions to do effective work in congress. George S. Shepherd "knows the river" from Celilo to the sea.

LINCOLN VOTERS FOR
STATEMENT NO. 1

(Special Dispatch to The Journal.) Newport, Or., April 11.—Lincoln county is beyond all doubt in the Statement No. 1 column. With the exception of a few old-time politicians who will still stay by the machine, the Republican party appears to be about equally divided. In the coming primaries Calk's prospects for the nomination for United States senator look bright. The voters are paying little attention to campaign speakers but are discussing the political situation among themselves and the numbers of them declare they will leave upon having the right to

They cannot help indorsing my platform to establish a public morgue, which will save thousands of dollars for the people. The vast amount of money being spent by undertakers in support of other candidates is sufficient evidence to prove my statement that the office of coroner is used
