FIT MODEST PURSES.

MULTNOMAH IS IN FIRST PLACE

Library Contest Is Growing
Exciting and Much Ri-
valry Is Apparent.

This week's count shows more changes in place, and all contestants are getting to work in earnest. Nearly every one has made some increase in votes and several new names are added to the list.

Multnomah camp No. 77, W. O. W., have finally landed first place, and the members are determined to hold it. Several schools made large gains, par-

acularly Woodlawn and Stephens schools. The library is creating a great interest throughout all of the city schools, and many sensational spurts can be expected soon. The contest will close shortly before the ending of the school year, and there is still ample time for good work and a heavy score.	
Multnomah camp 77, W. O. W.	38,724

Satin skin powder being best made. It's best for you. Flesh, white, pink, brunet.

IDAHO CEMENT SOON IN MARKET

Work Soon to Begin on the
Snake River and Outlook
Reported Bright.

A fine body of Portland cement rock has been uncovered on the upper Snake river. Cement experts have analyzed the rock and report that from it the highest grade of cement can be manufactured. The following from the Lewiston (Idaho) Teller gives an account of the inauguration of work by a company formed for the purpose of developing the find.
"The West Coast Portland Cement company has authorized the inauguration of work on the proposed cement plant to be located on the upper Snake river, and a force of men will soon be sent to the upper river to begin work on the foundations and temporary buildings. The decision was reached at a meeting of stockholders held in Seattle last week, at which time the election of officers was held and the office was moved from Seattle to Spokane. The meeting was attended by J. P. Langan and J. M. Edwards of Lewiston, Mr.

Langan being elected to the office of vice-president and Mr. Edwards reelected to the position of manager.
"The outlook for the company is very bright," said Mr. Langan this morning, "and by fall we expect to have a plant in operation that will manufacture at least 100 barrels of cement a day. This plant will be enlarged within a short time, and plans provide for actively entering the field for the cement business of the entire northwest."
"The improvements to be made this summer will probably cost \$75,000, and the machinery for this plant is now being selected."

NEVER HAD GIRL ON MY LAP, SAYS FORMER COP

Norristown, April 11.—"Never in my life have I held a girl on my lap," was the announcement made by ex-Chief of Police William H. Delcamp, of Pottstown, before Judges Swartz and Weand here today.
These denials were made by Delcamp after several witnesses had testified that he was not a fit person to have a detective license.
Delcamp's petition was signed by 139 residents of Pottstown, while about a dozen persons signed the remonstrance. Several of the witnesses testified that they had seen the ex-chief hugging and
