## NEW CHINAMAN SHEDS QUEUE TO LOOK LIKE AN OLD TIMER

Ah Long Wal, a Chinaman who pretends that he doesn't know where he was born, who his father was, how he got to this country, nor will he answer any other questions asked by the government authorities, but who is wise enough to have clipped his queue in an effort to look like an old timer, is before the United States commissioner this afternoon charged with being in the United States unlawfully. Wal was arrested at Linnton by the immigration authorities.

Wal was posing as a gardener when the inspectors representing J. H. Bar-

bour, the immigration agent, appeared and took him in charge. Although it is claimed that the Chinaman has only been in this country a short time he says he doesn't know who cut off his queue nor whether he came over by boat or otherwise. In fact Wal answers all questions with a "I don't know."

Ah Long Wal had a hat purchased in Seattle and the immigration representatives are inclined to think that he only landed a few days ago, shed his queue and was just settling down to become a regular citizen of the United States when he was nabbed.

## BOY'S PLEADINGS SAVE FATHER FROM NIGHT IN THE CITY JAIL

Eleven-year-old Eddie Davidson believes in his father.

"My papa is a good man. Please, Mr. Policeman, he'll be good. You can't

**POORER SKIN?**  
**DOCTOR'S TREN SKIN.**

People Drinking Medicine for the Blood to Cure Itchy Skin, Eczema, and other Skin Diseases.

When your face is dirty and grimy, you don't drink water to cleanse it. You wash your face with water and you get your face clean by washing it with water.

Eczema, psoriasis, salt rheum, barber's itch and like skin afflictions are similar to dirt and grime in that they are caused by parasitic germs upon the skin. These diseases cannot be cured by drinking medicine any more than you can cleanse your face by drinking water. Cleanse the skin of these germs by applying the remedy right where the disease exists and the skin becomes white and smooth again.

Skidmore Drug Co., 151 Third street, sells simple oil of wintergreen, properly compounded with other soothing vegetable remedies in D. D. D. Prescription, as a positive specific for killing the bacilli and germs in the skin. This D. D. D. remedy is not a sticky concoction of a smeary paste. It is a liquid external wash, as easy and simple to use as water. It is applied right where the itch and sore is. Used with D. D. D. Soap it is bound to cure. The first application brings instant relief—you will know it. The minute you begin using the remedy—and the skin once cured, stays cured in nearly all cases. Get rid of that itching right now—today.

## ROOSEVELT PREPARING BATTLESHIP MESSAGE

(United Press Special Wire.)

Washington, April 14.—Is President Roosevelt preparing another message to congress?

Congressmen who do not wish to be quoted in the matter say that he is and that it will be the most forceful argument he has ever used in favor of his plan for four new battleships.

It is reported in official circles that the president is really and truly angry because Representative Burton of Ohio made a speech in the house Saturday criticising any and all plans for a bigger navy. Because of that speech it is reported that the president wants to remind congress again that he is still for four new battleships.

## THE TRUTH ABOUT KIDNEY TROUBLE (BACKACHE)

Backache as a cause of kidney trouble is outrageously abused, for there is not one case in five of backache that is an evidence of inflammation in the kidneys. The kidneys are not sensitive and seldom reflect pain.

Backache is commonly an evidence of lumbago, or shows a neuralgic or rheumatic tendency in the muscles of the back. In those cases in which it does proceed from the kidneys it usually yields very quickly and definitely to FULTON'S RENAL COMPOUND.

But, as above, where backache is the only reason one has for suspecting the kidneys, it will in most cases be found more closely related to the muscular system than to the kidneys.

Kidney disease, first or last, is inflammation of the kidneys, and there has been nothing on druggists' shelves for inflammation in the kidneys. The late John J. Fulton was the first man in the world to reach and reduce inflammation in kidney tissue, and his Renal Compound is the first real specific for kidney disease.

Literature mailed free.

JOHN J. FULTON CO., Oakland, Cal.

Fulton's Renal Compound can be had at all first-class drug stores.

## DRY SOUTHLAND MAKES OREGON LOOK BETTER THAN BEFORE

"Southern California? A beautiful country, but too dry. Why, when one gets up in the morning, it is almost like having slept without the night; you feel as if the sun had been shining while you slept," declared Adolph Wolfe, of Lipman, Wolfe & Co., who has returned from a southern vacation trip. He said a few whiffs of the Oregon ozone made him feel more comfortable as soon as he had crossed back to the north side of the Sierrita mountains.

It is said southern California has been even drier than usual this spring. The people there have been picking up applications to the tarless and unfeeling sky for weeks, and have been mocked by its continuous and consecutive smile. It is believed by Oregonians who have visited there this spring that southern California skies wear a smile that won't come off.

"Oregon is the place that suits me," said Mr. Wolfe. "I like this fresh, invigorating air we have around Portland. When I get back here I appreciate it more and more. I don't feel at home anywhere else."

"Business conditions in southern California are not the best. The tourist business is not good. There is not much in that country excepting climate and tourist travel, and when the tourists don't come there is not so much going in commercial lines. Because of the last year's money stringency eastern people of large wealth are not traveling so numerously to southern California resorts. The big hotels at Santa Barbara and other points are running with but a small coterie of guests."

Speaking of San Francisco, he said the city was a different place and did not make the same impression with him. He was struck with the strange newness of everything, and there was not a single spot in the business districts that he recognized as the San Francisco of old. He spent only a day there.

## DEFIES HEALTH AUTHORITIES AS TO HORRID CULTURE TEST

She was only 7 years of age and she was heartbroken. As she hastened alone to the health office, the little girl half early this morning, her little face showed strong determination and her little feet patterned a tattoo up the marble stairs. She was suffering with a sore throat, and she wanted to go to school. A handkerchief tied about her throat attested to the sore throat and her sobs to the broken heart.

When she came in, she came in and she carefully concealed her name when she left. She was there for one purpose—to get a permit to return to school, and she had not received the permit.

What! Allow that horrid glass tube to be inserted in her throat? Never. She wanted a permit. "Don't you understand, I want a permit. I want to go back to school."

"Well, we will take the culture and then we will be able to know whether it will be safe for you to go back to school," said M. P. Scollard, city fumigator, in his kindest tones.

And as he advanced with the tube, the little mouth closed together in firm determination and she turned and fled. Down the hard marble floors she ran screaming at the top of her little voice. Then down the steps and to the door, where Scollard overtook her.

Surely her heart was now doubly broken. She had not been able to secure the permit, and in addition, she had not been able to understand. Her young mind could grasp but one thing, and her heart controlled her mind. Finally she told Scollard she lived at 588 Fifth street, and he told her to run home to her mother and Dr. Pohl would come and visit her.

This seemed to please the little miss, and with her head held high and her feet stamping triumphantly she moved on her way home. She could not go to school, and she had not received the permit, but her beaming little face showed more conclusively than words that she had not allowed a culture to be taken.

**Free to Ladies.**

Admission free to ladies this week, afternoon and evening. Oaks club. Prepare your costume now for the big masquerade to take place May 1. Six elegant prizes.

## AT THE THEATRES

"Cupid at Vassar" at Hellig.

Seats are now selling at box-office, the Hellig theatre, Fourteenth and Washington streets, for the charming young actress Florence Gear, who comes to the above theatre next Thursday, Friday, Saturday nights, April 16, 17 and 18, in the musical comedy play, "Cupid at Vassar." A special-price matinee will be given Saturday afternoon at 2:15 o'clock.

"Florodora."

While there is a chance to see "Florodora" at popular prices the public is taking advantage of the opportunity. This world-famous musical comedy is at the Marquam this week, being played by the State Franchise Opera company. There will be a matinee Saturday.

"The Eternal City."

Hall Caine, author of "The Eternal City," which is making such a hit at the Baker all this week, is also author of "The Christian," so well known to all classes of people. "The Eternal City" is a story of Rome at some future date, and introduces the pope, and other persons of great pride and power. Matinee Saturday only.

"A Hoosier Daisie."

If you are from Indiana you will want to see "A Hoosier Daisie" at the Star Theatre this week, and if you are not from that state of corn and literature you will enjoy the comedy-drama anyway. The French stock company has a play of more than ordinary merit. There will be matinee Thursday and Saturday nights. All performances can be ordered by telephoning to the box-office.

**Bill Makes Good.**

The bill at the Grand this week makes good. It is a series of vaudeville specialties which have been assembled from the principal vaudeville centers of the country. There are numerous songs and dances and plenty of comedy. The Doria Opera Trio have the position of headliners, and Gladys Van is the special added attraction. In addition to these there are five other acts of merit.

**LOSES MINE STOCK ON ROULETTE WHEEL**

(United Press Special Wire.)

Rhyolite, Nev., April 14.—John City is today mourning the loss of \$50,000 shares of stock in the Big Belle mine, the control of which was taken from him by the roulette wheel. After he had lost all the money he carried with him, City started in to get even with the "bank" by putting up the mining

## IRRIGATION OFFICES

Big Land Project Is Meeting With Much Favor.

J. W. Cowgill will open today at 354 Stark street an office for the Palouse Irrigation & Power company. This project, although under way for the past two years, is now ready for the settler. Water will be turned on next month sufficient to irrigate a thousand acres. The Washouca valley has been platted in 16-acre tracts which will be sold on liberal terms. This land has been found splendidly adapted to the production of best quality of winter apples. The Palouse Irrigation & Power company have put in a great deal of money in this enterprise. There are about 3,000 acres of land, and the control of the company, 4,000 of which will be put under irrigation. The location is in the well-known Palouse country, celebrated for its production of wheat. This territory is distinctly tributary to Portland.
