Columbia Lard For Purity

Any person who holds the old-fashioned idea that pigs are more carelessly fed than any other animal, knows nothing about the requirements of a modern packing plant. In the first place, a pig must be properly fattened on clean wheat and corn in order to produce good, wholesome leaf fat, such as we require. Second, the animals are passed on before and after killing by U. S. Government Inspectors. Again, the fat is tested before it is allowed to go into the vat. Third, it is rendered, strained and run into sterilized pails in the most hygienic manner possible. For a pure, wholesome, reliable meat product, specify COLUMBIA LARD.

KEEP INDIAN WITNESSES COOL

Federal Officers Want Them to Be Able to Testify in Logan Case. At the request of counsel on both sides of the case of the government against Larkie Logan, an Indian, charged with manslaughter, which was begun in the United States circuit court this morning, Judge Wolverton issued an order to the effect that all witnesses, many of whom are Indians from the Siletz reservation, found to be intoxicated should be taken in the custody of the United States marshal. This was done so that when the witnesses were called they would be in condition to appear before the court. Defendant's Brother in Jail. John McCourt, United States district attorney, who is prosecuting the case, assisted by J. K. Weatherford of Albany, retained by relatives of William Garner, whom Logan killed, stated to the court this morning that he understood several of the Indians had been celebrated during the night and that apparently the celebration was still going on. Abe Logan, a brother of the defendant, was arrested by the police and will be held until he is called as a witness. He created a disturbance near the postoffice. Logan's plea is to be self-defense. His attorneys are A. H. Mendenhall of Portland and E. F. Swope of Toledo. In outlining the defense to the jury this morning Judge Swope said that the evidence would show that the Garniers had been selling whiskey on the reservation at \$1 a bottle, and that Logan had gone there by invitation. Self-Defense Alleged. Swope said that Garner, who had a wooden leg, had attacked Logan after having accused him of coming there to spy, knocked him down and then kicked him on the head with his artificial limb. Logan then drew a knife and cut Garner, and the defense will contend that this was brought about by Logan believing that he was about to be killed. Garner was stabbed March 19 and died two days later. Logan was indicted by the last federal grand jury. The jurors who were selected to hear the case are as follows: B. Lee Pagar, banker, Portland; C. W. Odell, farmer, Forest Grove; Andrew M. Westrom, blacksmith, Portland; James A. Gibson, farmer, Sheridan; August Dippel, salesman, Portland; J. Raymond Rogers, printer, Portland; George F. Peterson, fruitgrower, Mount Taber; Alexander M. Wright, bookkeeper, Portland; James P. Rasmussen, merchant, Portland; Thomas W. Dunger, master mechanic, Portland; H. D. Manning, farmer, Geraville; and F. H. Webber, saddler, Brownsville. Twenty-seven witnesses, most of whom are Indians, have been summoned to Portland by the government. The case will probably go to the jury some time tomorrow. Knott C. Eggbert, superintendent and dispersing agent on the Siletz reservation, was the first witness called by the prosecution this morning. 14 X Congressman W. B. Ellis. This experience in congress. Vote to keep him there.

ROOM NEEDED FOR ALBINA HIGH SCHOOL

Improvement Association Proposes That One or More Streets Be Vacated. Necessity for having one or more streets vacated in order to afford the school board ample room for the erection of the proposed new high school in Albina was one of the subjects discussed at a meeting of the North Albina Improvement association, held in the fire house at Albina avenue and Killingsworth street, last evening. J. E. Nolte and William M. Killingsworth were appointed by the association to meet with the members of the school board and suggest just what is needed in the way of a site. A vigorous effort will be made to have action taken at once on the bill which shall not be handicapped in its plans for the proposed building. At the conclusion of the business session of the association the members were addressed by Judge Bronaugh, who is taking charge of the nomination for circuit judge, department No. 3, and short speeches on civic improvement were made by Mr. Killingsworth and Mr. Fiegel. Just before adjournment the club voted to endorse the candidacy of Judge Bronaugh, especially commending him for his efforts in framing and securing the passage of the present local option law of this state. 14 X Congressman W. B. Ellis. Is doing effective work at Washington for veterans of two wars. Vote to keep him there.

WITNEY CASE GOES OVER UNTIL SATURDAY

At the request of Attorney W. P. Richardson, acting for the defendant, the case against G. B. Whitney, charged with involuntary manslaughter in connection with the death of his fiancée, again was postponed this morning until next Saturday morning at 10:30 o'clock. At the hearing last week Attorney Richardson asked that Whitney be discharged on the ground that the prosecution has introduced no evidence to show that a crime had been committed, and if a crime had been committed there was no evidence to show that the defendant had any connection with it. Whitney's father now is on his way to Portland from the east and he requested by wire that the case be postponed until he arrives here. He also telegraphed to the effect that he had mailed a draft to cover attorneys' fees. 14 X Congressman W. B. Ellis. Is doing effective work at Washington for veterans of two wars. Vote to keep him there.
