

CAKE ADVOCATES CLEAN POLITICS

Republican Candidate for Senate Says Democrat Is Better Than Grafter.

(Special Dispatch to The Journal.)
Salem, Or., April 16.—After he had outlined his policies and carefully made plain his attitude on questions of national importance H. M. Cake, candidate before the people for the United States senate, paid considerable attention to the direct election of United States senators and Statement No. 1 in his address at Salem last night. This part of his address was heard with the greatest interest by the several hundred that filled the opera house and he was cheered time after time as he reiterated the principle that in the people lies the source of all favors.

"The people are going to insist on clean politics and will never again in this state submit to the indignities of a powerful machine either Republican or Democratic," said Mr. Cake. "To the candidates for the legislature I say, get behind the people. The people are right. If you are not in line get in line with the people at once for the people will not wait for you. In the end you had better submit at once for they will ultimately decide who will represent them."

Direct Election.
Mr. Cake pledged himself to do all in his power to change the constitution of the United States so that the people would select their own senators. He recited at some length the history of senatorial elections in Oregon and in other states where the people had been deprived of representation in congress and had furthermore been humiliated beyond endurance by reports of bribery and corruption that have prevailed in legislatures as a result of the iniquitous system. Of most interest perhaps were his remarks regarding the possibility of a Democratic choice for senator in June.

Prefer Democrat.
"But," said Mr. Cake in conclusion, "before I would again see the highest office within the gift of the people of this state be one of corruption and merely the vehicle for doing petty politics I will be willing to see you elect a Democrat."
The hop buyers' league has engaged the opera house for this evening and candidates for the legislature before the primaries have been invited to speak. It is expected that it will be one of the most entertaining political rallies ever held at the state capital. Both Statement No. 1 candidates and the "antis" have been invited to speak while the people are invited to be present and witness the onslaught. This meeting will close the campaign in Marion county.

TOWN TOPICS
There is no longer much question but what W. H. Hurlburt will receive the nomination for the office of state railroad commissioner at the hands of the Republican voters of this district at the primary election tomorrow. It is generally conceded that Mr. Hurlburt is the man for the job. He has a fine physique and education he is admirably equipped for the performance of the duties of a railroad commissioner. He has had over 25 years' experience in the railroad service and has acquired a fund of expert knowledge that will prove of inestimable value to the commission. Moreover, Mr. Hurlburt has for over 12 years been an active and enthusiastic worker for a greater Oregon and should be elected to the railroad commission. There is no reason to believe that the interests of the state will suffer at his hands. Not being the candidate of any class, clique or committee, Mr. Hurlburt is in a position to render the state the best possible service and to do full justice to all.

His number on the Republican ballot is 41. For representatives, vote for Cassidy, Hunter and Wilkins, all union men, also pledged.

Commencing April 20, and until further notice, the Russell-Shaver cars will run from Capitol avenue to Union avenue and Russell street and return, transferring passengers north or south on Mississippi avenue, Williams avenue or Union avenue.

PORTLAND LEADS AS WHEAT PORT
(United Press Leased Wire.)
Washington, April 16.—According to statistics compiled by the department of commerce and labor, the third of the wheat exported from the United States in March, 1906, was shipped from Portland.

In that month Portland exported 1,422,347 bushels, nearly three times what it exported in March, 1907, and nearly double the export of the entire Puget sound district last month.

HARRY NEW SORRY CHICAGO WAS CHOSEN
(United Press Leased Wire.)
Chicago, April 16.—Besieged with demands for tickets to the Republican national convention in June, Chairman Harry New of the Republican national convention today gave vent to his feelings and criticized Chicago for its convention facilities.

"Chicago never should have been given the convention," he said. "There are several other cities in the country that could have given us better facilities."
Chicago promised us rooms for 14,000 people. What do we get? I will give a cash bonus to any man who can seat more than 1,000 people in the Coliseum, which is the best building you have here. I am sorry that Chicago got the convention."

Cleland as presiding judge expired yesterday by the rotation rule that prevails in the circuit court, and for one year Judge Gantenbein will look after the setting of cases, will assign matters for trial and will pass upon motions and questions of law. The change was accomplished without ceremony or comment. Judge Cleland will retain his present quarters, except that when he is engaged in the trial of a jury case he will use some other courtroom, as No. 3 is not arranged for the accommodation of a jury. GRACE GEORGE GROWS BEAUTIFUL

People always laughed at Miss George's Christian name—Grace. At 20 she was 4 feet 11 and tipped the fairbanks at 210—and her intimates called her "Gracie" and "Dolly" and such other pet names. She often thought that she saw a sting in those terms of endearment, and finally decided to turn the scales on her loving friends by springing a surprise on them. So she let it be known that she was going away on a long journey. She did not bid her friends for 30 days, but took religiously during that month, three times a day and before bedtime, one teaspoonful of the excellently effective Marmola Prescription. The result was she got down from 210 to 170. She never told her friends what did it, but, credit where it is due, it was the Marmola Prescription: 1/2 ounce Marmola, 1/2 ounce Fluid Extract Cascara aromatica, and 3/4 ounces Syrup Simpliciter, which can be had at any good druggist's for a trifling sum.

TALK OF MORGUE IS A JOKE

City Attorney Says Coroner Cannot Establish One—Three Candidates for Coroner Have Promised Such an Institution If Elected.

During the recent primary campaign one of the warmest fights for nomination has been waged between the two candidates for the office of coroner. One of these candidates, Dr. Ben L. Norden, has repeatedly argued, in the campaign meetings, that it is not within the power of a coroner to establish a public morgue, and while he favors such an institution, he has not promised to establish one, knowing that he cannot, after election, make his promise good.

Yesterday morning Dr. Norden requested an opinion from the city attorney. The opinion follows: Portland, April 16.—Dr. Ben L. Norden, Medical building, city.—Dear Sir: I have your favor of this date wherein you request advice as to whether the laws of the state of Oregon, or the charter or ordinances of the city of Portland contain any provision concerning the establishment of a public morgue; also whether a public morgue, if established in the city of Portland, would be an official institution, and whether the revenues derived from such morgue would go into the public treasury. You are advised that neither the charter nor ordinances of the city of Portland provide for a public morgue in the city. The state laws contain no provision for the establishment of such morgue. In this state a public morgue, if established, would have no official status, but would be a mere private institution maintained by the coroner. No public charge could be collected for the use of such an institution, and the receipts would not go into the public treasury. Before an official public morgue can be established suitable legislation must be enacted. Respectfully, J. P. KAVANAUGH, City Attorney.

In view of this opinion the campaign thunder of the public morgue advocates, Drs. Stott, Twitchell and Mr. Hill, has suffered a severe blow, and Dr. Norden's friends feel that his arguments advanced throughout the entire campaign, have been proved to be absolutely sound. Dr. Norden has received the indorsement of the medical profession.
