

ALTONSON IS AHEAD BY 490 CAKE INCREASES LEAD IN STATE

Expected His Lead Over No County Returns Are Yet Hurlburt Will Be Increased Further. Complete, but Little Further Change Expected.

Charles B. Altonson is leading W. H. Hurlburt in the contest for the nomination for railroad commissioner for the second district, and with returns so far in his favor in the lead. The complete returns are expected to increase this lead to a greater or less degree as Altonson has been crawling ahead by virtue of the vote given him in the outside counties of the state.

The complete returns from Multnomah county gave Altonson 3,744 votes, while Hurlburt carried the county with 4,316 to his credit. Outside of the county, however, Altonson has been gaining steadily until now he is ahead by the narrow margin of 490 votes, with a number of the smaller precincts scattered over the state.

It is not believed that any of these will affect his lead, however, unless it be to increase it. In the state at large the vote so far collected gives Altonson 3,134 and Hurlburt 3,079. These figures taken with the returns from Multnomah county give Altonson a total of 6,874 and Hurlburt a total of 6,358.

The vote so far by counties for the two candidates is as follows: Hurlburt, Baker 88, Clatsop 173, Columbia 137, Crook 68, Gilliam 200, Grant 82, Malheur 190, Morrow 140, Sherman 140, Tillamook 239, Union 234, Wasco 244, Wheeler 244, Multnomah 3,744.

Table with 2 columns: County, Votes. Lists counties like Baker, Clatsop, Columbia, etc., and their respective vote counts for Hurlburt and Altonson.

With returns still missing this afternoon from Cook, Curry and Jackson counties, Campbell leads Carter by a majority of 723 votes in the race for railroad commissioner nomination in the second congressional district. It is not probable that returns from the counties not yet accounted for will make a considerable difference in the results as indicated by the figures given above.

Home-seekers come to Oregon steadily despite financial stringency number is equal to last year's.

No considerable falling off of the colonist movement from last year's figures is shown in the reports of the last week of two from Union Pacific and Oregon Railroad & Navigation company agents. While the expected increase did not materialize, due to the effect of last fall's financial stringency, there is still an encouraging activity in colonist travel to the Pacific northwest.

Of the total for the week a decided gain was shown in the number of passengers to some points in Oregon. Astoria got 15 instead of last year's three; points south of Portland secured 49, instead of 49; Hood River got 11 instead of eight; The Dalles 20, as compared to six for the week last year; Baker City got 21, a gain of four over a year ago; there were 23 to Walla Walla and 11 to Lewiston.

If his gains continue he may win the nomination. It will take the final count to make the result certain.

Object of Attorney, Who Desires to Appeal to Supreme Court.

Judge Cleland in the circuit court this morning was asked to enter a decree for the defendants in the case of P. A. Marquam against the United States Mortgage & Trust company, J. Thorburn Ross and others. This case involving the ownership of the Marquam building. On demurrers and motions to strike out Judge Cleland three times ruled against Marquam in the effort of his attorneys to file a complaint that would reopen the case, twice before carried to the supreme court. Each time the attorneys for the plaintiff came back with a new move, attempting to amend their complaint that would be permitted to maintain a new action. After their third defeat Wallace McCamant gave notice of the motion that was submitted today, asking that a decree be entered for the plaintiffs. McCamant takes the position that Judge Cleland has left no ground for the defendants to stand on, and that the decks should be cleared of the debris, so far as the circuit court is concerned. Judge Cleland took the motion under advisement. E. H. Watson, attorney for Marquam, is preparing to appeal once more to the supreme court on the record made before Judge Cleland.

Woolery was 57 years of age, and was known as a woman hater during the years he was in the Snake river country. Nothing is known of his early life, but it is believed he was jilted by the one girl in the east. Shortly afterward he was sent to the almshouse, where he passed the remainder of his days in advocating marriage.

ON BLAZING CAR HE RACES TO FIREHOUSE

Motorman Sticks to Charge in Meteoric Flight of Eight Blocks.

Philadelphia, April 17.—With his car on fire from the platform to front, Motorman John Allison last night made a meteoric flight for eight blocks, along Wayne avenue, Germantown, in an effort to reach a fire station before his charge should be entirely consumed. He finally was forced to shut off current and abandon the car when only two blocks from aid. The car was going toward Germantown on W. Market street, when flames shot from beneath the resistance boxes. Stopping, Allison ordered the passengers off, and as soon as they left the car on full current, and set out for the fire station in Germantown avenue, near Chelton avenue. His passage up the avenue created excitement all along the line. The flames grew closer and closer, until the heat became too great to be endured. When Allison felt his time was up, he stopped, being then at the intersection of Wayne and Chelton avenues. Before the flames were extinguished, he had consumed everything but the framework.

INVENTOR OF ENVELOPES

It is somewhat curious that such a simple contrivance as the envelope should be a comparatively modern invention. As a matter of fact it is just 100 years since a paper manufacturer of Brighton named Brown invented envelopes for letters in their present form. Brown then it was some considerable time before their use became at all general, not in fact, until somewhere about the year 1850.
