

# BREAD AND WATER FOR TAR IN IRONS

## Sailors of Schooner Churchill Make Accusations Against Captain.

### TWO THROWN IN JAIL AT KELUNG

#### Crew Signed Here Last November for Round Trip to Formosa and They Say Brutal Treatment Marked Beginning of Voyage.

With sensational tales of brutality on the part of the captain, six sailors from the four-masted schooner Churchill arrived here last night from Astoria, where the craft lies idle after a trip to Kelung, Formosa. Being rationed men, the six sailors who made the trip to Kelung and back are H. Frost, A. Gustafson, John Tyak, A. Panter, F. W. Wier and Frank Beer. Anderson is first mate and Thomas Holmes second. They are supposed to have sided in with the skipper.

**In Irons on Bread and Water.**

John Tyak, the sailors declare, was held in irons on a diet of bread and water for eight days until almost within sight of the entrance to Columbia river. From the headquarters at the sailors' union hall, 51 Union avenue, until they saw a new ship.

They related their troubles to D. W. Paul, business agent for the union, but will bring no charges against the captain since he paid every man in full, although the sailors say he threatened to make reductions for divers offenses of which he accused the men.

The captain's name is C. Hennewitz and the six sailors who made the trip to Kelung and back are H. Frost, A. Gustafson, John Tyak, A. Panter, F. W. Wier and Frank Beer. Anderson is first mate and Thomas Holmes second. They are supposed to have sided in with the skipper.

# —We Will Pay You \$10 to Ride in An Elevator

This is the amount we save you when you purchase suits made to your measure. It is a Scotch & English Tailor from Holbrook for \$10 to \$10.

We have adopted the famous system for clothmaking, 25 saves both you and us money and means "better clothes."

**WHY** is the sectional system better? Because it is employed by the week and kept on one certain part instead of the old-style piece work. It is a Scotch & English Tailor, thereby enabling us to reduce the price and increase our volume of business, which means a reduction from \$10 to \$10 to \$10 to \$10. It is the modern system now advocated by the best fashion companies of the world!

**David M. Holbrook Tailor**

# Another Nevada Mining Camp Has Bounded Into Existence and Is Astonishing the Country

## A MIGHTY RUSH OF MINERS TO THE TOWN OF HORNSILVER; AND TWO RAILROADS HAVE DARTED AFTER ITS TRADE

### A Telephone Line Already Completed, and a Survey Made For the Installation of An Electric Power Plant

#### THE TIGER BUTTE MINING COMPANY, BOUND TO BE FIRST IN PRODUCTION, DESIRES TO HURRY THE SALES OF 100,000 SHARES OF ITS TREASURY STOCK AT 12 CENTS PER SHARE.

#### THAT IT MAY GO LIKE A WHIRLWIND, BUYERS MAY PAY IN 10 EQUAL INSTALLMENTS, AND DIVIDENDS ARE LIKELY BEFORE THE LAST PAYMENT HAS BEEN MADE.

Those fortunate enough to reside in the Nevada gold region these times have plenty of excitement—real gold excitement—handed out to them. It is not a thoroughly completed day that does not uncover a rich gold, or gold and silver mine somewhere, and copper is coming to the surface so rapidly as to make it difficult to keep track of all the finds.

The newest camp of all—and it promises to rival the wonderful Goldfield and the astonishing Rawhide—is the town of

## Hornsilver, Esmeralda County

Twenty-nine or 30 miles out from Goldfield. A mine at that place has been quietly worked for four years, and 10 days ago it suddenly blossomed out into a "picture-ore" producer, tossing into its ore buckets quartz that has been milling up to \$30, \$40, \$50, \$100, \$150, \$200 and up to \$500 to the ton. For four years the patient owners of this mine have been toiling industriously and hoping for this event, but in those years they have consumed nearly every dollar of their ready means, and now find themselves possessed of a first-class mine but lacking the tools to operate it. They are in immediate need of a first-class galloway, a 20-horsepower gasoline engine, a small blacksmith shop and a quantity of lesser supplies. That they may secure this equipment without delay and speed the production of ore and hurry the day of dividends, the management has placed 100,000 shares of its treasury stock on the market, part of which is offered for subscription in this city at 12 cents per share, payable 10 per cent down and 10 per cent per month, without interest. At a depth of 105 feet this mine has an 8-foot ore body that runs \$12 to the ton, and this is of the cheap milling rock variety. In fact,

## It Is a Monstrous Proposition

The day is near at hand when Tiger Butte will be considered one of the world's mineral wonders, and owners of its shares will be counted among the most fortunate of the children of men.

## "Going Along By Leaps and Bounds"

Hornsilver, to the south of town, is going along by leaps and bounds. The telephone line from Cuprite into the new town will be completed today, and the work of a permanent survey will be started also today by the Goldfield & Tonopah railway from Cuprite into the camp.

The preliminary survey has already been made, and it was found the steepest grade is only 3 per cent. In all probability that will be cut down by the permanent survey, which is 14 miles from the main line. Grading will be under way before the month is over. The Las Vegas & Tonopah railway also has made a survey to the camp, and it may be a race between the two corporations as to which one will first get into the new camp.

There have been many rushes into distant camps in this section of the state, but nothing like this one since Goldfield was discovered. Never before in the history of a mining camp after a town was surveyed, have telephone, railway and electric power lines headed so soon for it. Scores of leases have been granted in the past two weeks and it looks as though there was ore

## We Can't Tell How Long This May Last

There is no telling how long this stock may be upon the market. We do not know ourselves. The company has opened offices in Salt Lake, San Francisco and Portland, and when this 100,000 shares has been disposed of, we shall be notified to close our books. This ought to happen soon.

## At 12c Per Share Every Atom Should Be Disposed of Within Ten Days' Time

This is the greatest mining stock bargain ever known on earth! We are offering Oregon and Washington people an opportunity to own shares in AN ACTUALLY DEVELOPED MINE, at the price charged in the mining regions for shares in infant prospects.

## Who Will Be First to Step Out on the Road to Riches

# The Tiger Butte Mining Company

Incorporated under the laws of Nevada. Capital \$1,000,000, divided into 1,000,000 shares, par value \$1.00 each, fully paid and non-assessable.

Portland Office Suite 31 Mallory Building, 268 Stark Street

OPPOSITE CHAMBER OF COMMERCE. TELEPHONE MAIN 8397.

# COMES HERE FOR FLOUR.

British Steamer Sheila Arrives to Load for Oriental Port.

This afternoon the British steamer Sheila will be in the harbor to load flour for the Orient. She reached here at 7 o'clock this morning and left at 11. The intention is to have her to the Portland Flouring company's mill to begin loading at once.

The Sheila will take 2,800 tons of flour here and then proceed to Puget

# Office Hours—10 a. m. to 5 p. m., 7 to 8 p. m.

Sunday, 10 to 12. Phone—A5755 Main 7743

# SPECIALISTS

Diseases of the EYE, EAR, NOSE AND THROAT

And all acute, chronic and nervous diseases of men, women and children. Also Liquor, Tobacco and mild cases of Drug Addictions. Call or address

Rooms 508-9-10-11-12 Merchants Trust Building  
SIXTH AND WASHINGTON STREETS  
Entrance 363 1/2 Washington St. PORTLAND, OREGON

# EFFECTIVE MAY FIRST

All cars of the Portland Railway, Light & Power Company within the city limits of Portland and its suburbs, including St. Johns, will

# STOP ONLY AT NEAR SIDE OF CROSSINGS

as is now being done at railroad intersections. Conductors of the Portland Railway Division are instructed to permit passengers to get on and off of cars at forward vestibule, when desired, except on forward vestibule of Portland Heights cars.

# ALONG THE WATERFRONT.

The steamer George W. Elder, Captain Jensen, arrived here last night from San Pedro and way ports.

The steamer Eureka, Captain Norren, will be at Martin's dock this evening from Eureka via Coos Bay.

Several movements were made in the harbor this morning. The French bark Eugene Pershing, going from Centennial dock to Oceanic to begin loading and the Edward Dettelle from Greenwich dock No. 1 to Irving to finish discharging.

The steamer Breakwater sails this evening for Coos Bay.

The weekly concert of the Seamen's Institute, Front and Flanders streets, will be given this evening at 8 o'clock. The program is in charge of the men of the Y. M. C. A. All are welcome.

# MARINE NOTES.

Astoria, April 29.—Arrived at 8 and left at 11 a. m.—Steamer Eureka, from Coos Bay. Arrived at 11 a. m.—British steamer Sheila, from Coos Bay. Arrived at 11 a. m.—Steamer W. E. Foster, from Monterey. Sailed 10:25 a. m.—Steamer St. Helena, for San Francisco. Arrived during the night—French bark Eugene Pershing, from San Francisco. Sailed at 8 a. m.—Garman steamer Nicomedia, for Portland. Arrived last night—steamer Shoshone, from Columbia river.

Astoria, April 29.—Arrived at 8 p. m.—Schooner Mindoro, from Newcastle, Australia. Barkentine Chehalis, from Makah, arrived at the bar and was ordered to Coos Bay. Arrived down at 11 p. m.—Steamer St. Helena, from San Pedro, arrived at the bar yesterday. Steamer Westerner, from Astoria. Gibraltar, April 29.—Passed yesterday—British steamer Baron Cawdor, from Portland.

Astoria, April 29.—Condition of the bar at 8 a. m. smooth; wind, east 10 miles; weather, clear.

Tide at Astoria—High water—12:30 a. m., 8.5 feet; low water—6:20 a. m., 0.2 feet; 6:25 p. m., 1.6 feet.

# There are not many roles in melodrama more exacting than the dual one of mother and daughter in Milton Noble's "From Sire to Son," which the Allen stock company is playing at the Lyric. But Miss Felton comes out fairly well with it—surprisingly so, taking everything into consideration. She first assumes the part of the mother who is murdered. Later on she reappears as the daughter who has returned to avenge her mother's death. She reverses the Beau Brummel role that Mansfield made famous—the change is easy and less natural at the bar and is effective and is one of the best things that Miss Felton has yet done.

# AT THE THEATRES

**Last Time "The Ham Tree."**

Tonight at 8:15 o'clock at the Heilig theatre, Fourteenth and Washington streets, the last performance of America's foremost negro impersonators, McIntyre and Heath, will be given. These famous funmakers and their big company of 50 people have made one of the greatest hits in the history of the show business.

**"Sherlock Holmes."**

There are few if any people who are not fond of detective stories. Conan Doyle's stories of Sherlock Holmes especially, and the Baker company's production of the play as dramatized by William Gillette is attracting the largest crowds of the season.

**"From Sire to Son" Scores.**

Another great success is to be credited to the Allen stock company at the Lyric this week, where Milton Noble's famous play, "From Sire to Son," is being presented in the most admirable manner. Versus Felton, Revella Urganhart, Forrest Seabury, Mrs. Clara Allen and a half dozen other favorites are seen in fine parts. Moving pictures are usual.

**Star's Sparkling Fun.**

Musical comedy is constantly on tap at the Star theatre, where "A Scotch High Ball" is being presented by the Armstrong Comedy company. There are three performances daily, every afternoon and two each evening. The night shows start at 7:30 and 9:15. "Scotch High Ball" is a merry affair

# Without much plot, but with a great deal of fun.

**Famous Composers Imitated.**

Henri French, the headliner at the Grand this week, has one of the greatest acts in vaudeville. Mr. French gives perfect impersonations of world-famous composers and band masters. Von Suppe, Sousa, Liszt, and others are portrayed with life like fidelity by the artist.

# UMATILLA JOINS BOOSTER BRIGADE

(Special Dispatch to The Journal.)

Pendleton, April 29.—At a boost meeting at the courthouse Monday evening Tom Richardson, the Portland booster, made a great talk on the good of publicity in eastern Oregon. For a time it looked as if the meeting would be a failure in the way of raising money, as the property-owners in general seemed reluctant. However, after nearly \$100 had been raised and a number of speeches had been made by representative men of the county on the great outlook for Umatilla county in the way of irrigation and otherwise, the people became more enthused. President Richardson of the Commercial club appointed a soliciting committee, which got to work at once, and a good sum is being subscribed today for publicity work.

# Y. M. C. A. SECRETARY MINISTER OF RELIGION

Olympia, Wash., April 29.—"What constitutes a minister of religion?" is a novel question to be presented to a railroad commission, but the great O. A. Fairchild has passed on the inquiry at the request of the Great Northern Railroad company. The railroad minister law of this state prohibits the issuing of passes or free or reduced transportation, with certain exceptions.

# Shut Your Mouth

Don't breathe through it. It's a bad thing to do. Nose stopped up by Cold, Catarrh, or if you have Hay Fever or Asthma, Weir's Inhaler will give instant relief. Try one at your druggist's for 4c. Weir's Inhaler Co., Portland, Or.

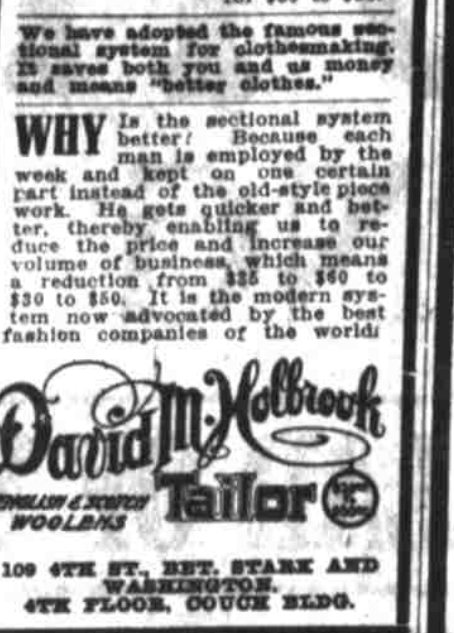

**Hand Embroidered Lingerie**

Dainty, durable and elegant, is within reach of every woman—by our plan.

We have nearly 100 exquisite designs for sets complete. Corset covers stamped on extra quality French cambric, each, 50c. Free lessons in embroidery. If finished complete, hand made and hand embroidered, \$3.50 to \$10.00.

Consult us for latest ideas for the Trousseau.
