Butter is down today, and it will not be very long before the lowest price of the year will be reached. Today the best makes of city creamery are selling in the retail shops at 55 cents per two-pound square, while some grades that are considered first-class are selling at 40 cents. Eggs are not going any lower, but in some quarters are being sold at a higher price. The reason for this is that eggs are not quite so plentiful as they were a short time ago, and the demand for storage is now quite heavy. Cheese of new make is coming to market quite freely these days, and the price is down accordingly in the retail shops. It is not generally known here that Oregon cheese is the best produced in the country, but in outside markets where they have a chance to test the qualities of the various states, the Oregon product sells highest. It is generally the rule for the product of a state to sell higher than the product of another section within its own borders, but down in California the price of Oregon cream cheese is 10 cents a pound higher than the California article. In the land of Native Sons this is a big compliment to the Oregon production.

Two excellent puddings for winter dinners are these given by the Delicatessen.
Marlborough Pudding.—Beat the yolks of five eggs with one-half pound of sugar, and one pint of cream seasoned with the grated rind of a fresh lemon. Put in a deep bowl or pitcher and set in a vessel of boiling water, and stir until it is a thick cream. When cold, stir in a small cupful of raspberry jam or orange marmalade; pour into a deep baking dish, and stir into a quart of egg to a stiff meringue with four tablespoonfuls of powdered sugar and put on top of the cream. With a spoon shape the meringue to look like layers of roses. Brown in the oven for a few minutes.
Lemon Pudding.—Pare the rind of three lemons, and boil rind till tender; pound in a mortar and mix with them a quarter of a pound of lady fingers, crumbled fine, and stirred into a quart of boiling milk. Beat the yolks of four eggs light with half a pound of sugar, and two tablespoonfuls of lemon juice. Stir in the whites of two eggs, beaten stiff; add to milk, put all on back of fire and stir till thick and smooth. But a border of pastry in a deep dish and pour in the pudding. Strain top thickly with candied sweetmeats or thinly-sliced citron, and bake three-quarters of an hour. Serve cold.
Strawberries from California are now quite plentiful, and their price is set down to a basis where everyone can enjoy a taste. It will be only a week, or so before Oregon berries come. Then the cream pitcher will be ready for use. Hot weather and lemonade go hand in hand.

Put This Stove in Your Kitchen. It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The NEW PERFECTION Wick Blue Flame Oil Cook-Stove is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency. The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical and a great light-giver. If not with your dealer, write our nearest agency. STANDARD OIL COMPANY (Incorporated)

Kind of one orange and the juice of two. Beat the whites of four eggs to a stiff froth and add to it the first preparation; then add the orange and almond mixture and blend perfectly. Spread the batter in the dish previously been covered with buttered papers, bake in a moderate oven for from 25 minutes to half an hour. Why the sheet has become somewhat cool, cut the sheet into small cakes of equal size; dredge with powdered sugar and serve.

BUYERS WILL NOW GET FULL WEIGHTS. Mayor Appoints Fred G. Buchtel City Sealer, With E. D. Jones Deputy.

Mayor Lane appointed Fred G. Buchtel city sealer of weights and measures and Ernest D. Jones deputy. When the announcement of the appointments was made, the morning much comment was indulged in because Buchtel was second in the list furnished by the civil service commission, while Louis V. Eberhardt, who finished first in the examination, was not given a place in the newly created office. Mayor Lane has the power under the city charter to appoint any one of the three candidates for a number of days, and he has exercised this power in favor of Buchtel and Jones. Buchtel has been secretary of the county board of relief for a number of years and Jones is in the employ of the Independent Coal & Ice company. Buchtel will receive a salary of \$125 a month and Jones \$100. They will take the oath of office tomorrow. The appointment of the sealer of weights and measures fills a long felt want among the merchants. They have been seeking for an official sealer for months and when the office was created by the council they expressed satisfaction. Examinations were held by the civil service commission as soon as possible and four men qualified for the place. This list was furnished Mayor Lane about two weeks ago and he has been investigating the character of the men and their qualifications until this morning when he made his appointments. The fact that Buchtel and Jones will take their oath of office tomorrow means that the work of the office will be started at once.

COURT ULTIMATUM TO BANK DIRECTORS. Capital State at Boise to Be Wound Up If Not Reorganized Speedily. (United Press Leased Wire.) Boise, Id., May 1.—Directors of the Capital State bank which was closed last January, late yesterday afternoon went to appear before him Monday and show what steps had been taken towards the reorganization of the institution. He stated that unless the bank could be opened at once he would direct the receiver to proceed with closing up the affairs of the bank. For more than two bank has been in the hands of the receiver, Deley was caused by the failure of depositors to sign an agreement giving the new organization 18 months in which to pay depositors in full. NEVADA GOLD. An Opportunity For You to Get It. Will you take advantage of it? Do you really want money, anyway? Would you like it to come in lumps? Take a month of your measly wages and put it in the stock of The Tiger Butte Mining Company. And we'll help you buy that lot. We'll help you build that house. We'll help you pay the mortgage on that farm. We'll help you to help yourself. 12 Cents Per Share. Is our price today, and only 10 per cent down and 10 per cent per month. You can afford that, can't you? Surely you can put forth some effort now that you may be spared fatigue in future years. Get Into Our Band-Wagon Today. We have a place for you. The Florence mine of Goldfield is paying prodigious dividends. So is the Mohawk. So is the Consolidated. 100,000 of its shares being sold the other day at \$6 the share. It was hard work to sell them at the beginning at 2 1/2 cents. When the mine had a showing similar to ours its stock was sold at 50 cents. Then it sailed to \$1, wavering a moment and shooting to the \$2.50 mark. One dividend and it was \$3. A Portland Bank Clerk Got Rich in Mohawk. His name was Robert F. Scott, and he worked at \$25 per week. He put six weeks' wages in that mine's shares, and sold, after drawing several hundred dollars in dividends, at \$105,000, and is now enjoying a tour of the world. Our Mine Is a Better One Today Than the Mohawk Was at That Time. We have a better showing than the Mohawk had. We have richer ore than the Mohawk had then. We have worked four years to bring our property to its present condition. We had the same trouble at the start that the Mohawk people had. The Florence met the same difficulties—doubters afraid to chance a dollar. These doubters have long since been sick. They will remain ill—for many years. Regret is evident in every breath they draw. "WE WERE FOOLS!" Is their declaration. We coincide in this opinion. At least they showed bad judgment. Had they banished their timidity they'd be rich today. But they have heirs of near relations that like themselves will continue poor, all because "We were fools!" If 100 Persons Would Come in Tomorrow, and Buy 1,000 Shares Apiece, We'd Close Our Books, Buy Our Machinery, Rush It to the Mine. And those 100 persons would have their money back within 90 days and a steady income from that time on. Won't you do it, people? Won't you get into the gold arena while you can? There Are Fortunes in Our Mines for You and Us. It is there for the digging. The rock is full of it, and already you are wishing you were a part and parcel of this great camp. THE HORNSILVER MINES ARE LIKELY TO BE AMONG THE GREATEST CAMP NEVADA HAS EVER KNOWN. The Tiger Butte Mining Company. Incorporated under the laws of Nevada. Capital \$1,000,000, divided into 1,000,000 shares, par value \$1 each, fully paid and non-assessable. Portland Office Suite 31 Mallory Bldg., 268 Stark St. OPPOSITE CHAMBER OF COMMERCE. SAY AMERICANS NEED THRASHING. Russian-Pole Professor Declares Powers of World Today Are Mad. (United Press Leased Wire.) Chicago, May 1.—What America needs is a thrashing. You are all too proud, too full of conceit; you worship the material. You scorn the thousands that are higher than the material. Business is everything—learning is nothing. Why, even China, of its kind, has a higher type of civilization than you have. Such was the fall that America secured at the hands of W. Lutowski, an eminent man of learning, professor of sociology and logic, at the University of Cracow, Russian Poland, who, on a year's leave, is visiting and studying in this country, has given a lecture at the University of Chicago this afternoon. Among other things Professor Lutowski prophesied a universal war and the destruction of autocracy in Europe. In that war America is to be drawn, possibly on the wrong side. "The powers of the world today are mad," continued the professor. "This madness appears overdraw. The madness of Prussia will mean within a few years the destruction of Prussia. It will precipitate a universal conflict between England and France and Prussia. Russia will be drawn in as its ally. Japan will take a hand on the side of freedom. And America may possibly, through its antagonism to Japan, enter the struggle allied with the despots."

BAD SPLIT PUTS CAKE ON GRILL. (Continued from Page One.) situation and shows it by his bearing. He refuses absolutely to talk for publication unless stereotyped written questions are put to him for careful consideration and answer. He outlined his position in the matter this morning. When the speaker after information found him in Senator Bourne's office in the Chamber of Commerce building he nodded in a far and distant way. Then he grabbed his hat and started for the elevator. "Morning," he said as he passed down the hall. The greeting was returned shortly. "Do you wish to ask me any questions?" was the answer. It was indicated that the interviewer had just dropped in to seek a little information generally. "Write your questions and leave them at the office," said Senator Bourne's secretary, "and I will answer them in the hour. The suggestion was made contritely that no cut and dried catchism was in mind. "Cake in Bad Hole. "Write 'em," reiterated Mr. Young. "That is the only way I will talk to you newspaper men nowadays." Then he disappeared into the elevator and shot back the yawning chasm to the ground below. "Yes," commented another politician who was in the ways of Senator Bourne, "it looks like Mr. Calkins was up against it. If he don't deliver the national delegation what will he get, and if he does what will he have? About the same thing that Senator Fulton got when he organized the senate in Bourne's interest. What Fulton got for that looks like the glittering plaything of the Italian and was just about as showy. And so it goes. Officially the sea is calm and smooth. Really the breath of the storm is over the waters, and Mr. Calkins is in a rocky channel, beset by the heated breath of the Fulton and Bourne factions, each striving to gain and hold control of Oregon's political machinery.
