DID YOU EVER

Figure out how much more it costs you for good things to eat when you buy on the credit plan? If you have never done so, it is surely high time that you did. Our advertised prices show the lowest cash prices at which goods of the right quality can be sold. You'll probably find a difference of at least 25 per cent in your favor when you buy for cash. Now, if 25 per cent is worth while saving on your part (on the grocery bill alone), isn't it the hour for you to change to a cash buyer?
