TODAY'S MARKETS

While the Salmon Season Has Been Open on Columbia Since April 15 the Run of Fish Is Smaller Than at First.

SUGAR ADVANCED BY WITHDRAWAL

Cutting Out Special Brands Causes Advance of 10c in the Price.

Front street features:
Special sugar higher.
Storage operations in eggs.
Cheese production heavy.
Creamery butter moving.
Most eggs selling higher.
Spring chick demand heavy.
Poultry market is liberal.
Beans advancing again.
Strawberries for fleet.
Larger receipts of cucumbers.

Owing to the withdrawal by the refiners a short time ago of Imperial, Empire and Blank brands of sugar, local jobbers who still retain supplies are putting the prices on a more uniform basis by advancing these special brands 10c per hundred pounds which puts them at $6.45, the same as regular cane. As was told in these columns some time ago, these special brands put out by the California & Hawaiian, and the Western Sugar Refining company were simply what was called "fighting brands" inasmuch as they were established solely to fight the entrance of the Honolulu Plantation company into the Pacific coast markets through regular brokerage houses. These special brands were simply made of cane sugar, exactly the same as the regular cane brands but in order to fight the newcomer the older-established refineries put them out in competition because the newcomer was offering at an open reduction. In this way the old refineries were selling sugar at the same price as the Honolulu Plantation—that is to those who were made aware of the fact that the specials were simply the old cane brands under another name.

No Need of Brands.

Now that the refineries have come to some sort of agreement there is no need of these fighting brands so they were withdrawn from the market and that much additional money went into the coffers of the refineries. At this time while the refineries are not actually together, they are not courting any price wars and when one advances the others generally follow within the space of a few moments. At this time all refineries are naming the same prices.

Spring Chick Demand Is Heavy.

There is a very heavy demand for spring chickens at this time and broilers and fryers are finding a very big call at prices that range from $4.50 to $6.00 a dozen. While one or two dealers are selling these birds by the pound, most of them are still doing business by the dozen. This means that practically 30c a pound is obtained. When sold by the actual weight a lesser figure rules.

Ordinary chickens are in fair receipt with demand along the street good today at prices quoted by The Journal. Turkeys are scarcely arriving at all and would find a good demand at high figures. Receipts of spring ducks are nominal with movings at high figures.

Dressed meat receipts are quite good, especially as regards veal.

Storage Operations in Eggs.

Storage egg operators are again at work and the input during the past 48 hours has been quite liberal. Receipts of eggs are showing a decrease and for this reason the salable supplies are short in many places. Most of the eggs are today moving at 17½@18c and this is the price today quoted by Front-street merchants and The Journal.

An effort is being made by one or two of the members of the board of trade to boost the commission on eggs up to 10 per cent. A petition with that purpose in view is being circulated among the commission men.

Cheese Production Is Heavier.

According to latest advices from Tillamook and other Oregon cheese centers, the production of cheese in this state will be somewhat heavier than a year ago. Already the make is greatly increased and in consequence local arrivals are heavier. This applies principally to "Twins" as "Young Americas" are still in small supply and are quoted at a slight premium.

Brief Notes of the Trade.

Oranges are getting very scarce along the street.

A shipment of bananas was reported in this morning.

Oregon strawberries are still straggling in but quality is still poor; berries being mostly green. Price unsatisfactory therefore.

Receipts of hothouse cucumbers are quite liberal from local places and the market is easier.

Hothouse lettuce is showing fine quality and late arrivals have been more eagerly picked up at $1@1.50 a box.

String beans from Brawley, California, are arriving by express daily. With fine quality receivers experience no difficulty in selling at 15c a pound.

Front street sells at the following prices. Those paid shippers are less regular commissions:

S. P. LEADER OF THE MARKET

Harriman Issues Are Active With Union Pacific Nearly 2 Points Up.

New York, May 5.—The stock market was in the hands of friends today, and under the leadership of Harriman issues the market advanced several points. The active ones were Southern Pacific, with a net gain of 2 points at the end of the day, Union Pacific 1¾ points, St. Paul ¾ point, and Northern Pacific 1 point. There was likewise considerable activity in Reading, which closed ⅝ higher at 110¼.

The market opened firm, with trading of good character up to the noon hour. Then the activity seemed to drop to pieces and late sales were small.

Portland Union Stockyards, May 5.—The second of a series of horse sales during the past 24 hours has proven a great success. Wheat started quite steady on account of the fair showing of Liverpool, which closed ¾d higher for July. May was weak soon after and started to slide, with the result that the closing was at $1.02¾, or ¾c lower than yesterday. While July was a fraction up at the opening, the market was depressed later, although making an initial gain of ⅛c on short covering. The closing was ¼c under yesterday. September was strong early and held better than the others. It closed a fraction under yesterday.

Provisions were steady to strong, with a continuance of a good tone in hogs.

PRODUCE SECTION IS INACCURATE ON BOARD

As a factor toward naming accurate quotations on fruits, produce and poultry, the Portland board of trade has come to an untimely end. While there is a meeting of the produce interests called, it is unlikely that many Front street merchants will respond—a canvass of the situation showing but few dealers in favor of the movement. For just a short time since the exchange opened a fraction over a month ago, there was a fair amount of interest in the proceedings by Front street men, but of late but one, or possibly two, men in as many different lines have attended the sessions; hence, the quotations are now the matter of opinion of one or two men instead of reflecting what is actually occurring on the street.

On the Board of Trade today there was a good attendance of grain men, but this is the lax time of the year for that interest, and no transactions are reported.

Because of the impossibility of securing accurate produce quotations at this time on the board of trade, The Journal has omitted them and they will not be printed again until they become representative of actual conditions. In the meantime the Front street quotations will be printed as heretofore. However, the doings of the grain department of the board will be printed daily.

DEMONSTRATION TRAIN INTERESTS FARMERS

(Special Dispatch to The Journal.)

Walla Walla, Wash., May 5.—From the interest displayed in the demonstration train which the O. R. & N. started from Starbuck yesterday afternoon and which will be sent through the Touchet and Walla Walla valleys, several hundred farmers will attend the two meetings which will be held in Walla Walla, one tonight at the Commercial club rooms, following the train's arrival at 6:10, and one at 10:45 tomorrow morning at the new passenger depot at the foot of Main street. The train this afternoon is making stops at various towns in the Touchet valley, including Dayton, Waitsburg, Huntsville and Prescott and at each point the lectures from the Washington Agricultural college have been enthusiastically received by farmers.

Summer fallowing, conservation of moisture in the soil, animal husbandry, horticulture and dairying are the principal topics handled by the lecturers. The exhibits carried by the demonstration train have attracted much interest among the farmers, as intensive dry land farming is one of the perplexing problems facing farmers outside of the irrigated districts.

Following the arrival of the train this evening an informal meeting and reception will be held in the Commercial club rooms. Tomorrow morning the train will go to Wallula, stopping at various towns on the return trip to Walla Walla.
