

SAFE MOORINGS FOR WARSHIPS

City Will Have Five Dolphins Driven in Harbor Near Steel Bridge.

STRINGS OF BUOYS IN LOWER HARBOR

Executive Board Concludes That Visiting Shipping Is Entitled to Consideration in the Way of Protection Against Causing Damage.

Five dolphins will be driven in the harbor below the steel bridge along towards the east bank of the river for moorings for the warships that are to visit Portland during the Rose Festival. The contract for the work has been let and it is expected a pile-driver will be put to work at once.

Heretofore warships visiting Portland have to depend upon their anchors and hawsers and cables from shore but with the dolphins at the proper distance from shore they will be given fine moorings, affording perfect safety from dragging, no matter how hard the wind blows. The dolphins will be used by merchant vessels and for that reason will be of great value. For the present there is only one dolphin in the harbor, located at the south end of what was formerly Victoria dock, a few hundred feet north of the east approach to the steel bridge.

The five buoys that the executive board some time ago authorized to be placed in the lower harbor will be ready and in position by the time heavy shipping begins this fall. They are to be strung out from a point below the course of the ferry W. S. Mason to the head of Swan island.

BUILT ALONG MODERN LINES.

Norwegian Steamer Hornelen Little Affected by Severe Weather.

The Norwegian steamer Hornelen which began loading lumber yesterday at the mills of the Portland Lumber company for Panama has been carrying coal on the Pacific coast for a whole year, since she was here with a cargo of cement from Europe.

destra because as a rule good weather prevails. Now and then the wind takes hurricane velocity but severe blows do not come nearly so often as for instance on the North Atlantic where squalls and treacherous seas of mountain-like dimensions make things exciting and oftentimes decidedly dangerous.

SPENCER LOSES RACE.

While she will likely secure a good price for hauling the vessel into port, she will not be entitled to salvage, because the vessel was held in position by her anchors.

DRESS-MAKERS

The nervous strain through which dressmakers have to pass at certain seasons of the year seems almost beyond endurance, and frequently brings on nervous prostration, fainting spells, dizziness, sleeplessness and a general breaking down of the feminine system, until life seems altogether miserable.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

restores the feminine system to a strong, healthy, normal condition

Mrs. Ella Griffin, of Park St., Canton, N.Y., writes to Mrs. Pinkham: "I was troubled for three years with female weakness, backache, pains in my side, and headaches. I was most miserable and discouraged, for doctors gave me no relief. Lydia E. Pinkham's Vegetable Compound brought back my health and made me feel better than ever before."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health.
