up a gold mine development, and

THE BEST MINING STOCK EVER SOLD AT

3 Cents Per Share!

Biggest Sales Yesterday Ever Known in Portland.

We will telegraph that other \$4,000 to the Florence mine in Goldfield next San day afternoon, and we won't have to sell to "The Big Four" either. Never did mining stock sell as did these shares yesterday. The whole question had been settled before

THE PUBLIC OF PORTLAND AND NEIGHBORHOOD IS OWNING THE "PROMO-

This never was done before in Oregon. It is the first time the whole public was let in on the ground floor, and we are glad that we are the pioneers in this new departure. We take it that never again will a gold mine or silver mine or any other kind of a mine be exploited in any other way—so far as Portland is concerned. And it is right to give ALL, the people a show at the very beginning, so that when the "pay day" of the proposition comes around the actual benefactors of the mine, in its infancy, shall reap the great reward. We are proud, indeed, of the distinction of being the beginners of this honest and upright method of starting

THOSE WHO BUY FLORENCE CENTRAL SHARES THIS WEEK AT 3c PER SHARE ARE GETTING THE BIGGEST GOLD MINE STOCK BARGAIN EVER HEARD OF IN THESE UNITED STATES.

Our property is a part of the wonderful Florence of Goldfield, Nevada, ABSOLUTELY the richest gold mine in the world today—without an equal on the earth—without a mate in Christendom. In all history of mining the equal of Goldfield has never been known, and in all Goldfield there is no other gold mine to compare with the WONDERFUL AND ASTOUNDING FLOR-ENCE. And our lease on this mine is positively located in THE VERY CENTER of its richest ground, and will doubtless PAY THE LARGEST DIVIDENDS THE MINING INDUSTRY EVER HAS KNOWN.

BUT WE HAVE MORE THAN A LEASE ON THE FLORENCE MINE.

We own outright one claim in the midst of the Hart gold mining district, south of Goldfield, that gives every promise of amazing richness. We own one claim adjoining the Butte Boys, which shows up well, and two claims in the Silver Peak district, 12 miles south of Silver Peak and six miles south of Stimler. We have expended sufficient money on these claims to prove their splendid values, and are satisfied that there is the making of another rich and productive mine.

WE HAVE GROUPED THESE FOUR PROPERTIES AND OUR LEASE TOGETHER,

This sale, however, will last only until Sunday night, 8-p. m., May 10. It cannot and will not last another hour. We are selling stock well worth 25 cents at 3 cents per share, but this has been solely that the public might have that which ordinarily has gone to favorites of the management—the cream of the cream—the best there was to be handed out.

THE CHEDD LEASE PEOPLE OFFER US A BARGAIN.

As we have already stated, our Florence lease is directly in the center of the Florence ground, the richest ground on earth, the Baby Florence, the Pollard Florence, the Aurelia Florence, the Florence Emma Fraction, the Daisy Florence and the Florence Goldfield Chedd lease. This latter lease has mined directly up to our line, and is compelled to get a fresh supply of air from some

source. Yesterday we had a letter from this company offering to sink our Florence shaft to the 300-foot level at an expense to us of \$10 per foot—just one-third it would cost us to do the work—if we would let it be double compartment, so that the Chedd miners could be supplied with air from this source. We shall make this deal with the Chedd people, therefore our development will cost us but \$1 for every \$3 we should otherwise have to pay. This will be good news for every owner of a share.

WE WANT TO CLOSE THE SALE OF THIS 150,000 SHARES AT ONCE.

And it looks like we will not have to wait many hours to do it, therefore those desiring to get hold of a bunch of this 3-cent stock, will do well to "get in and drill." The next 48 hours should do the business.

PEOPLE, LOOK AT THIS

Our lease is right up against the Little Florence lease, you have heard so much about. That lease expired Sunday May 2, at midnight. The Goldfield Tribune of April 28 tells this short but screaming story of what that mine did during its bounding life:

It paid \$430,000 in dividends and \$100,000 is awaiting distribution.

AND WE ARE A PART OF THAT MINE; THERE IS BUT AN IMAGINARY LINE BE-TWEEN US.

Incorporated under the laws of Oregon for \$1,000,000, divided in 1,000,000 shares of the par-value of \$1 each, fully paid and

HISTORIC SCHOOL

Rickreall by a Pioneer Pupil.

(Special Disputch to The Journal.) Dallas, Or., May 5-The first school pienic in Polk county for the year will be held at Rickreall Saturday, May 16. J. H. Ackerman, superintendent of pub-He instruction, and George H. Himes of Portland will be the principal speakers. The afternoon will be given over to sports and games. The com-mittees on arrangements is under the direct supervision of Superintendent H. C. Seymour of Dallas, county school superintendent.

C. Seymour of Dalias, county school superintendent.

The principal attraction of the day will be the unveiling of a suitable menument to mark the site of the first school opened in Folk county. This historic spot is on the road between Dalias and Rickreall and about half a mile west of the latter place.

This first school was opened in the spring of 1845, with J. E. Lyle, a formar Polk county ploneer, now deceased, as teacher, Mrs. Josephine Boyle, one of the first students, will unveil the monument. George H. Himes will deliver an address at the unveiling, dealing with early Oregon history.

Rickreall, known in early years as "Dirie" was the home of Colonel J. W. Nesmith, former Indian fighter and politician. The house in which he died still stands about half a mile east of this old and historic town.

Edward Rice, Lone Veteran of the Civil War, Dies of Cancer at Newport.

(Special Dispatch to The Journal.) Newport, Or., May 5 .- Edward Rice, who died of cancer at the age of 62 years at the home of S. Chambers, was a veteran of the Civil war. He enlisted in the second Wisconsin infantry, known as the iron brigade. After the war he settled near Alexandria, Minnesota. About 1880 he came to Oregon and entered the lighthouse service at Faquipa head, as which capacity he served until two years ago. A few weeks ago he mentioned the fact to Dr. F. H. Minthorn that there was \$3,000 in gold buried in his woodshed in glass jars. The doctor advised him to put it into the bank, which he caused to be done. It is understood he had a sister living in Minnesota. The funeral took place Sunday afternoon at the Presbyterian church. years at the home of S. Chambers, was

TO MARK SITE OF MOTHER DROPS

Monument to Be Unveiled at Five Little Children and Husband Are Left Behind.

> Five mother-hungry little children and a sad-faced father, in an East Portland home, are today wondering what has become of the mother and wife. Saturday night without worning and for no apparent reason, Mrs. E. Henderson dropped out of sight. She left her hime at 226 Cherry street, ostensibly to do some shopping. In a letter which she mailed her husband Sunday she expressed her desire to live apart; but the letter gave no inkling as to her future plans. Mr. Henderson feels sure that she has acted on a momentary impulse. As soon as someone can be secured to look after the children he will institute a search.
>
> Following are the children: Omer. age 3 months: Earl, age 2 years; Louisa, age 3 years; Esma, age 5 /years, and Paul, age 8 years. The police have been notified and are on the lookout for the missing woman. Henderson was formerly a clergyman in the east, but gave up the vocation because of family disagreements and came to the coast. In Portland he has been employed in the Southern Pacific freight sheds. apparent reason, Mrs. E. Henderson

Crop Will Be Only About Two Thirds That Produced Last Year.

Advices being received daily by Secretary Williams of the state hortfcultural board show that the recent frost was productive of considerable damage to the prune crop of the northwest. This state, it is now estimated, will This state, it is now estimated, will have only about two thirds the quantity of prunes produced last year. This, however, will make the crop fall but little less than normal, because last year's production was more than ordinarily large.

The greatest damage to the fruit was done in the low lands and unsheltered valleys where dampness contributed to the destructive effect of the frost monarch.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weak-nesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the check of its freshness and the form of its
