

FOUNDERS' DAY IS OBSERVED

Students and Alumni of Columbia University Celebrate Its Natal Day.

The celebration of the seventh anniversary of "Founders' Day" at Columbia university yesterday was made memorable by the large number of notable guests from Portland and vicinity who were present at the annual dinner given in honor of Archbishop Christie, by the faculty of Columbia. About 200 persons, including students, sat down to the dinner in the refectory.

Following the dinner, Archbishop Christie presided at the exercises, which were the enthusiastic gathering.

After a greeting of welcome for the students by Fenton Waite, the archbishop rose and paid an eloquent tribute to the founders of the college. Among those to whom he gave special mention for invaluable aid rendered to the institution at critical times in its history were Francis I. McKenna, Judge George H. Williams, Colonel David H. Dunne, Major McGinnis and J. F. O'Shea. In concluding his remarks the distinguished prelate referred to the present needs of the university and hoped that more men, like the pioneers who have made possible the work accomplished so far, would join the ranks of those who are striving to make the university the Georgetown of the west.

Ex-Senator Gearin Speaks.

Ex-Senator Gearin, who was introduced by the archbishop, made a pleasing address on the value of College Life. He urged the students to work with their utmost zeal, as they were now laying the foundations of the future, and upon the thoroughness of their present school course depended their after success. Mr. Gearin's speech was received with hearty applause.

The invited guests at the dinner were: Archbishop Christie, ex-Senator Gearin, and the Reverend Fathers E. Durrer, Phelan, C. S. C., Meier, Hunt, O. P., Guendling, McDevitt, D. D., Moore, Daly, LaCroix and Bolin; Messrs. Michael O'Brien, P. E. Sullivan, Frank Dooly, James Cook, Walter Daly, William Brady, Ed. Flynn and Dr. W. H. O'Brien.

After dinner most of the students went downtown to the ball game. "Founders' Day" is a holiday at Columbia and all rules and regulations are set aside for the occasion.

In the evening a literary and musical

BOARD TO RULE REALTY 'CHANGE'

Decided That Same Directorate Shall Manage Both Organizations.

Contrary to the plan formulated at the meeting of two weeks ago, the Portland realty board voted at last night's meeting to establish a real estate exchange to be operated in connection with the realty board and to be officiated by the officers of the latter organization. The proposition to organize a sales exchange by the local realty brokers was advanced some months ago and it was generally understood that when launched, the new organization would be operated entirely separate and apart from the parent organization, the realty board. At last night's meeting, however, that plan was swept aside and it was voted to operate the two bodies in connection, both to be managed by the same directorate and the same set of administrative officers. A board of governors consisting of five members of the realty board will be selected to assist in directing the exchange.

TO ATTEND MEETING OF ELECTRICAL MEN

W. M. Hamilton, the engineer in charge of the Portland Railway, Light & Power company's illuminating engineering department, leaves Wednesday for a month's trip to the principal eastern cities, where he will investigate the latest and most improved methods of electrical illumination. While in Chicago he will attend the National Electric Light association, which will hold its annual convention in that city May 19-22.

This convention consists of a meeting of the representatives of all the principal electric light and power supply companies and manufacturers of electrical apparatus. Various papers will be presented at this convention, dealing with topics vital to the interest of such firms, and thereby affording each member the benefit of the knowledge acquired by the experience of all of its members.

The company's customers, architects, wiring firms, and others to whom Hamilton has been of assistance in laying out lighting installations, will no doubt be glad to learn of his trip as no doubt will bring back information pertaining to his particular line of work that will be of assistance to all who wish to take advantage of the services rendered by the illuminating engineering department of the company.

DRUNKENNESS A Curable Disease

Eminent Physicians and Scientific Men Agree That It Should Be Treated as Such.

Drunkenness is a progressive disease; the moderate drinker is not satisfied with two or three drinks a day, the craving for more and more becomes irresistible as the disease advances; the result is Chronic Alcoholism.

The treatment used successfully by thousands right in their own homes is Orrine. It is a scientific cure for Drunkenness and has given such universal satisfaction that it is sold under a positive guarantee to effect a cure or your money will be refunded. This guarantee is given in good faith and is carried out to the letter. Orrine is not a new remedy; it has been sold by the leading druggists in every city for years. It has lifted tens of thousands from the depths to worthy manhood and has the hearty endorsement of grateful men and women in every state in the Union.

Orrine No. 1 is the secret remedy; Orrine No. 2 is for those willing to take the treatment. Either form costs \$1.00. The guarantee is the same in either case. Write to The Orrine Co., Washington, D. C., for free treatise on Drunkenness, mailed in plain sealed envelope. Orrine will be mailed, sealed, on receipt of price. Sold by the leading druggists in every town and city, and in this city by Clarke Woodward Drug Co., and nearly all druggists in Portland.

HOUSES ARE GOING UP IN EVERY DIRECTION

Realty Dealers Report Suburban Property in Strong Demand.

Building operations in the outlying districts of the east side have taken on renewed and increased activity. Take any carline you want to and you can count more than a dozen structures in process of erection. Real estate dealers in every district report a gratifying volume of business. They say there is plenty of money in circulation and suburban property in Portland was never more in demand.

One dealer reported 15 sales in the last 10 days, the prices being paid in exchange for lots varying from \$300 to \$4,500. Similar reports are heard on every side. No better evidence that the country has recovered fully from the financial flurry could be desired.

FIRST APPEARANCE OF H. L. BETTMAN IN PUBLIC

Symphony Concert This Evening Is Full of Promise.

The last rehearsal yesterday morning of the Portland Symphony orchestra for the concert this evening showed the players to be in the best form. Everything went smoothly and the program at this evening's concert promises to be even superior to the former concert in the point of finish. All the players are enthusiastic over their work and are themselves pleased with the results.

The soloists, Mrs. Walter Reed, contralto, and Henry L. Bettman, violinist, promise to do some of their very best work this evening. There is a great deal of interest in hearing Mr. Bettman, who will this evening make his first real public appearance as a soloist. It is one of the best things that have happened in the city in some time before only a small audience but has shown itself excellent. Mrs. Reed's work is always satisfactory and those who have not for a long time heard her with orchestral accompaniment are glad of the opportunity thus offered to gauge the real volume and power of her voice.

Following is the program which will begin promptly at 8:15: G. Verdi, March from Aida; E. Grieg, Peer Gynt—Symphonic Suite; E. Grieg, Polonaise in A major for violin; W. Wieniawski, Henry Bettman; Puccini, Fantasia from "La Boheme"; (a) Aria from "Otello"; (b) Woodland Serenade; Angelo Mascheroni, Intermzzo Op. 12 No. 1; M. R. Palacios, Hungarian Dances Nos. 5 and 6; Johannes Brahms.

HUSBAND WROTE OF HIS OWN DEATH

Allying that her husband wrote letters under an assumed name, telling her that he was dead, is the charge made by Mrs. Ota Wieland in a suit for divorce from Augustus John Wieland, filed in the circuit court. She says her mother received two letters signed "John Worthy," one from Everett, Washington, and one from Tacoma, informing her of her husband's death. It is one of the letters the writer said he had himself attended the funeral of Wieland, who had been killed in Alaska. Mrs. Wieland had her doubts, however, from investigation, she says, she learned that her husband had written the letters, and was very much alive when she was told of them. The Wielands were married in North Dakota in 1897, and the wife left their home in Wahpeton, South Dakota, in 1898. She says his cruel treatment forced her to leave.

GOVERNMENT TROOPS SCARE INSURGENTS

(United Press Leased Wire.) Lima, May 6.—Ordered by government troops, the insurgents who rose last week at Chosica and neighboring towns and who are under the leadership of Durand, are retreating into the interior.

It is rumored here that a revolution is in progress in Cuzco, the capital of the department of that name, and that the insurgents hold the city government and have seized the arms and ammunition of the rifle clubs. Cuzco is an inland region east of the Andes, and has a population of 30,000.

ATTEMPT TO MURDER RUSSIAN GOVERNOR

(United Press Leased Wire.) Moscow, May 6.—While driving with his wife today an attempt was made to assassinate the governor of Voronob, a bomb was hurled at the carriage, but it missed the vehicle and killed a woman on the other side of the street. The assassin escaped.
