

CITY MISSES A BIG PIPE ORDER

Government Awaits a Bid From Portland, but No Factory Is Here.

A call for two and a half miles of wood-stave pipe for irrigation construction purposes has been submitted by the government reclamation service and bids have been invited through the Portland chamber of commerce. So far as known at the chamber there is no wood-stave pipe manufactory at this point. The city of Portland is the center of a very large supply of wood suitable for this class of manufactured product and the present demand for pipe is not the first that has been presented.

Some time ago a contract was entered into by L. P. Pence and the National Wood Pipe company whereby a large factory was to be built here and the raw materials supplied through the Pence company's flume, which taps a large timber body back of Cornelius gap. The factory was to be built on the Willamette river bank near Linnton. Mr. Pence is now at Denver and by a delay in the carrying out of the contract the company has missed another large government order that could have been manufactured and delivered here at a profit. Wood-stave pipe is becoming more popular as a means of conveying water for irrigation and power purposes in the mild climates found in various regions of the Pacific northwest.

The installing of a large factory with modern machinery for manufacturing the pipe would, it is believed, prove to be a profitable and important industry if located at some point in or near Portland where access to timber would be had together with rail and water transportation facilities.

MAYOR VETOES OIL TANK BILLS

No Assurance That Grantee Will Abide by Requirements.

Mayor Lane has vetoed two ordinances granting special permits. The first is an ordinance authorizing Stroebel & Barenstecher to use crude petroleum for fuel, which was vetoed for the reason that under its provisions it does not require any acceptance of its terms by the grantee. Stroebel & Barenstecher have taken over the old Commercial club property at Sixth and Alder streets, and wish to run a pipe line under the street for the purpose of conveying the oil to their building. The second ordinance granted a permit to the Western Baking company to erect an oil tank on the east side of Twelfth street about 85 feet south of Glisan street. Mayor Lane vetoed the measure because it did not carry a binding agreement with it which would insure that the city's property would be properly protected.

Another reason for vetoing the ordinance is that it does not require the grantee to post a good and sufficient bond with the city guaranteeing that it will live up to the requirements of the ordinance. Both vetoes will go to the council next Wednesday.

NO SOUL KISS SAY THE POLICE

New York Coppers Say Love-Making in Prospect Park Must Cease.

(United Press Leased Wire.) New York, May 7.—A "soul kiss" of more than one second in duration will not be tolerated in Prospect park, Brooklyn, this summer. Police Inspector O'Reilly has given imperative instructions.

"Love making in its proper place and done according to the strict code prescribed by Cupid is all right," he says, "but I object to hugging and kissing when it is carried to excess."

Captain Lawrence Murphy says he is worried over the delicate position in which his men will be led. The police are instructed to be gentlemanly on all occasions and not to be harsh with lovers. They are instructed to wink very heavily when they believe it time for a "soul kiss" to stop and may whistle, cough or slap their hands as if attempting to scare a squirrel.

DR. BROUGHER WILL TELL OF TRIP ABROAD

Dr. J. Whitcomb Brougher, four years ago this month, started for his first trip abroad. He visited England, Paris and Scotland, and according to report had the time of his life. He will relate his various experiences in his brilliant and popular lecture, "A Tenderfoot Abroad," at the White Temple tomorrow night. The lecture will be illustrated with fine stereoscopic views and is considered by those who have heard it Dr. Brougher's wittiest and most entertaining lecture. Mrs. Walter Reed, the noted contralto soloist, will sing and a treat is in store for all who attend. The proceeds of this entertainment will be devoted to paying Dr. Brougher's expenses as a delegate to the Northern Baptist convention in Oklahoma City, Oklahoma. Next Sunday will be his last time in the pulpit before starting on his eastern trip.

THREATEN MORE TROUBLE IN BRAZIL

(United Press Leased Wire.) Rio de Janeiro, May 7.—Biological Placido Castro, who headed the revolution of Acre, declares that if Acre is incorporated with the state of Amazonas instead of being proclaimed a separate state, the inhabitants will proclaim another revolution and fight to make themselves this time an independent nation.

CHILD'S BODY DRIFTS OVER SIXTY MILES

(Special Dispatch to The Journal.) Pendleton, May 7.—The body of the 7-year-old son of Edgar McManis of 496 Tacoma avenue, Portland, was found in the Columbia river opposite Carrigan last evening. The child fell from a scow in the Snake river in Eugene on March 17, while in company of a crew of which the child's father was foreman working on the Snake river. The body floated over 60 miles. The remains will be taken to Portland for burial.
