If Successful All Power  
Would Be Taken Away  
From State Railroad Com-  
missions—Injunction Is  
Asked For.

A suit which, should it be successful,  
will in effect abolish every state rail-  
road commission in the United States  
in so far as their power to make or re-  
gulate rates is concerned, was filed in  
the federal court this afternoon by the  
attorneys for the Oregon Railroad & Nav-  
igation company. The suit is in form of  
an injunction suit asking that the fed-  
eral court stay the enforcement of the  
decision recently rendered by the state  
railroad commission which reduces the  
distributive rates out of the state to  
the same as those in force in the state  
of Oregon.

three and fatally wounding one of his  
comrades. The dead:

PRESENT OREGON CITY  
LOCKS TO CONGRESS

Hawley Hopes Appropria-  
tion May Be Included in  
New Bill.

The chamber of commerce has re-  
ceived a letter from Representative W.  
C. Hawley of the congressional commit-  
tee on agriculture, saying that the com-  
mittee will try its utmost to get from  
congress a sufficient amount to be used  
in connection with the \$300,000 appro-  
priated by the state of Oregon for the  
acquisition and operation of the locks at  
Oregon City by the general govern-  
ment. Detailed information is asked  
from the chamber concerning amount of  
lockage fees, amount of commerce arising  
and likely to arise in the future, and  
cause of the locks, cost of transportation  
by land and water, and all other  
items that in any way may aid the com-  
mittee in getting the government to fur-  
nish the necessary money to complete  
and operate the locks as government  
property for all time to come.

JAMAICA NOW GOOD  
MARKET FOR LUMBER

Van Dyne, American consul at  
Kingston, Jamaica, has written to the  
chamber of commerce asking that local  
merchants and manufacturers send him  
catalogues to put on file in his office  
for the inspection of the Jamaica. Be-  
cause of the rebuilding of Kingston af-  
ter the earthquake of a year ago Mr.  
Van Dyne says that there is now a good  
market in that place for lumber, cement,  
shingles, building hardware and many  
other lines.

HEALTH ORDINANCE ON NOTIFI-  
CATION OF COMMUNICABLE  
DISEASES TO BE ENFORCED.

At a meeting of the city health board,  
Dr. Estlin C. Pohl, city health officer,  
was instructed to arrest and to  
have arrested all persons who know of  
any case of smallpox or other communi-  
cable disease and fail to report it to the  
city health officer. The instructions of  
the health board were strict, and Dr.  
Pohl was told to see that the city ordi-  
nance covering communicable diseases  
was carried out to the letter.

The ordinance covering the point  
brought out by the health board is com-  
prehensive and section 1 provides that  
any person found guilty in the municipal  
court of violating the provisions of  
the ordinance shall be fined not more  
than \$5 nor more than \$500, or shall be  
imprisoned not less than five nor more  
than 90 days, or shall be both fined and  
imprisoned.

The ordinance also declares that it  
shall be the duty of every physician,  
minister or priest, parent or guardian,  
any afflicted person, every household,  
or any person who offers medical ad-  
vice to report immediately to the health  
officer the discovery of any communi-  
cable disease. This provision of the or-  
dinance is considered one of the most  
important in the law and any person  
found guilty of violating it is subject to  
the same fine and imprisonment as  
above.

Because of the failure of persons  
properly to follow the city ordinance an  
incident epidemic of chicken-pox and  
measles has broken out in the vicinity  
of the Chapman school. The school was  
closed for two days while the health  
officer was fumigating but was re-  
opened today.

Portland has been practically free  
from smallpox and other contagious dis-  
eases this year and the health officer  
desires to maintain the good record thus  
far kept up. Realizing that the only  
way to insure the city against the health  
laws of the city were strictly en-  
forced and the board so instructed  
Dr. Pohl.

Because of the discovery of the dis-  
ease at Chapman school, Dr. Pohl called  
on Superintendent Rigler this morning  
to see that all children attending the  
Couch school be vaccinated and re-  
quested that all other school children  
be treated in the same manner. Fol-  
lowing are the names of the children of  
the health ordinance which bear on the  
question:

"Section 7. The communicable dis-  
eases dangerous to the public health,  
and which shall be immediately reported  
to the health officer are hereby declared  
to be smallpox, variola, typhoid fever,  
diphtheria, membranous croup, cholera, scarlet  
fever, measles, whooping cough, arys-  
ephric meningitis, typhus fever, and  
any other infectious disease which may  
be hereinafter declared to be such by  
the health officer."

"Section 12. It shall be unlawful for  
any child who is or has been afflicted  
with any of the communicable diseases  
herein mentioned, or exposed to or is  
suspected of having been exposed to any  
such disease, to attend any school un-  
less he present the certificate mentioned  
in section 11.

"Section 13. It shall be unlawful for  
any school teacher or other school offi-  
cer to admit to any school as a pupil  
or otherwise, any person afflicted with,  
exposed to or suspected of having been  
exposed to any of the communicable dis-  
eases herein mentioned.

"Section 14. It shall be unlawful for  
any person to travel by any school bus  
having the care, custody or control of  
any child, or other person afflicted with  
any of the communicable diseases here-  
in mentioned, or exposed to or suspected  
of having been exposed to any of the  
diseases herein mentioned, to permit  
such child or person to attend any school  
or church, library or place of amusement,  
or to ride in any public conveyance or  
appear in the public streets of the city  
unless he present the certificate men-  
tioned in section 11.

CROP-AD TRAIN  
GOES EASTWARD

Livestock, Fruit Growing  
and Other Subjects Will  
Be Demonstrated.

The O. R. & N. company's farming  
demonstration train for eastern Ore-  
gon left Portland last evening, carry-  
ing a party of railroad officials and  
professionals from the Oregon Agricul-  
tural college, who will lecture to the  
wheat farmers of the inland empire re-  
garding the advantages of diversifica-  
tion of crops and the benefits of  
following the present plan of per-  
mitting these lands to lie fallow every  
alternate year.

The party accompanying the train  
were R. B. Miller, general freight  
agent of the O. R. & N. company; J.  
O'Neill, traveling passenger agent;  
A. Morse, special agent freight de-  
partment; R. Burns, agent at Walla  
Walla; James Withycombe, director  
Corvallis experiment station; and  
Lewis, horticulturist; C. E. Bradley,  
chemist; H. D. Seudder, agronomist.

The object is to further the im-  
provement of agricultural conditions in  
the territory served by the Oregon  
Railroad & Navigation company through  
lectures which will be given by the  
college faculty on subjects of special  
interest to the farmers. Among the  
subjects to be discussed, according to  
the conditions in each locality, will be  
the rotation of crops, conservation of  
moisture, general cultural methods.

AT EMERVILLE  
TRACK TODAY

On Wednesday morning at 7 o'clock  
the train will arrive at Irrigon, where  
a stay of nearly two hours will be al-  
lowed for lectures and inspection of the  
irrigation lands. The train will reach  
Hornet at 9:45 o'clock, and here a  
lengthy visit will be made to view the  
government irrigation works and talk  
to the farmers. During the day the  
train will stop at Echo, Pilot  
Rock and Pendleton.

Leaving Pendleton Thursday morning  
the train will stop for lectures at  
Milton, Weston, Athena and  
Adams, and return to Pendleton for  
the night, this closing the demonstration  
trip.

Health Ordinance on Notifi-  
cation of Communicable  
Diseases to Be Enforced.

At a meeting of the city health board,  
Dr. Estlin C. Pohl, city health officer,  
was instructed to arrest and to  
have arrested all persons who know of  
any case of smallpox or other communi-  
cable disease and fail to report it to the  
city health officer. The instructions of  
the health board were strict, and Dr.  
Pohl was told to see that the city ordi-  
nance covering communicable diseases  
was carried out to the letter.

The ordinance covering the point  
brought out by the health board is com-  
prehensive and section 1 provides that  
any person found guilty in the municipal  
court of violating the provisions of  
the ordinance shall be fined not more  
than \$5 nor more than \$500, or shall be  
imprisoned not less than five nor more  
than 90 days, or shall be both fined and  
imprisoned.

The ordinance also declares that it  
shall be the duty of every physician,  
minister or priest, parent or guardian,  
any afflicted person, every household,  
or any person who offers medical ad-  
vice to report immediately to the health  
officer the discovery of any communi-  
cable disease. This provision of the or-  
dinance is considered one of the most  
important in the law and any person  
found guilty of violating it is subject to  
the same fine and imprisonment as  
above.

Because of the failure of persons  
properly to follow the city ordinance an  
incident epidemic of chicken-pox and  
measles has broken out in the vicinity  
of the Chapman school. The school was  
closed for two days while the health  
officer was fumigating but was re-  
opened today.

Portland has been practically free  
from smallpox and other contagious dis-  
eases this year and the health officer  
desires to maintain the good record thus  
far kept up. Realizing that the only  
way to insure the city against the health  
laws of the city were strictly en-  
forced and the board so instructed  
Dr. Pohl.

Because of the discovery of the dis-  
ease at Chapman school, Dr. Pohl called  
on Superintendent Rigler this morning  
to see that all children attending the  
Couch school be vaccinated and re-  
quested that all other school children  
be treated in the same manner. Fol-  
lowing are the names of the children of  
the health ordinance which bear on the  
question:

"Section 7. The communicable dis-  
eases dangerous to the public health,  
and which shall be immediately reported  
to the health officer are hereby declared  
to be smallpox, variola, typhoid fever,

such disease, to attend any school un-  
less he present the certificate mentioned  
in section 11.

"Section 13. It shall be unlawful for  
any school teacher or other school offi-  
cer to admit to any school as a pupil  
or otherwise, any person afflicted with,  
exposed to or suspected of having been  
exposed to any of the communicable dis-  
eases herein mentioned.

TEACH USEFUL TRADES  
IN PUBLIC SCHOOLS

Principal of New Depart-  
ment for Boys' Training  
Reaches the City.

Portland is to have a school of trades  
where boys and girls can be taught  
how to wield the axe and saw, make a  
general solder, pipefitting, stringing  
wires, and many other acts that  
occur in the regular work of a plumber,  
carpenter, electrician or any other  
trade.

The school of trades will supply  
the deficiency in the manual training  
schools. I am sure that a trial  
of the school will convince all parents who  
want to see their sons engaged in some  
trade that the school will be a suc-  
cess and will be the best place for  
their offspring to acquire a trade which  
will guarantee them a livelihood  
through life.

George W. Hamilton,  
tradesman. One half of the Atkinson  
school building will be devoted to the  
trades school which will open next Sep-  
tember and George W. Hamilton, the  
principal appointed to take charge of  
the new department in Portland's public  
schools, has arrived in Portland and is  
busily engaged in securing teachers and  
equipment for the new school.

HOOD RIVER W. R. C.  
GAINS IN NUMBERS

Washington, D. C., May 11.—Report-  
ing to the state department from  
Amsterdam, Consul Henry B. Morgan  
says that possibly no country of  
Europe had been relatively affected so  
disadvantageously by the recent finan-  
cial depression as the Netherlands, where  
the total suspension of the diamond trade,  
whereas the exports of the sparklers  
amounted to \$1,422,604, in 1907 they  
fell off to only \$742,604.

CLEAR THE COMPLEXION OVERNIGHT

Simple, Rash, Eruptions, Etc., Quickly  
Eradicated by New Skin Remedy.

Since its discovery one year ago,  
posolam, the new skin remedy, has in  
its extraordinary accomplishments, ex-  
ceeded the most sanguine expectations  
of the eminent specialist who gave it  
to the world. It has cured thousands of  
cases of eczema, acne, eruptions, facial  
and other disfigurements of years  
standing. The terrible itching attending  
eczema is stopped with the first applica-  
tion, giving proof of its curative prop-  
erties at the very outset.

In less serious skin affections, such  
as simple, rash, herpes, blotches,  
acne, barber's itch, etc., results show  
after an overnight application, only a  
small quantity being required to effect  
a cure. A muddy or sallow complexion  
is noticeably improved by a single ap-  
plication, and the skin gradually attains  
these minor skin troubles can now avail  
themselves of the special 50-cent pack-  
ages, recently adopted to meet such  
needs. Both the 50-cent package and  
the regular \$2 jar may now be obtained  
in Portland at the Sildmore Drug com-  
pany, and other leading drug stores.

Violent Storm Sweeps Over  
State Killing Several Peo-  
ple and Demolishing  
Buildings—Meagre Re-  
ports From District.

Woodward, Okla., May 11.—Sweeping  
everything in its path, a tornado of un-  
usual violence swept over a portion of  
the state today, causing heavy damage  
at Arnett, Vici, Coaley, Grand Nash-  
ville, Mutual, Richmond and Costos.  
Loss of life is reported but has not  
been confirmed. A number of the towns  
visited by the tornado are off the railroads  
and only meagre reports of the disaster  
have been received.

The districts swept by the wind lie  
25 miles south of here. At Arnett one  
man is said to have been killed and at  
other points several persons are re-  
ported injured. The tornado passed  
over four counties and covered a dis-  
trict 75 miles long.

GLENN T. MELIS'  
BODY IS FOUND

No Trace of August LaRouge  
in the Nehalem River,  
However.

The body of Glenn Melis, the young  
Portland boy who with August La-  
rouge, also of this city, disappeared  
while on a hunting and fishing trip  
five months ago, was found at the  
mouth of the Nehalem river Saturday  
night. The corpse was identified by  
the clothes which the boy wore and  
was severed by a hunting party and  
is still missing and it is supposed that  
he was also drowned.

Two dogs were taken by the boys on  
the trip, and days after one of them,  
nearly starved to death, came home.  
The other has never been seen since.

MYSTERY SURROUNDS  
AGED MAN'S DEATH

Redding, Cal., May 11.—Whether  
Horace Nutting, 71 years old, whose  
body was found in the burned ruins of  
his home, four miles west of Anderson,  
was murdered or committed suicide af-  
ter setting fire to the house, is a prob-  
lem which still is unsolved.

One fact points to suicide and an-  
other to murder. The body was found  
besides Nutting's charred body was found  
his shotgun, with two cartridges dis-  
charged.

The authorities say this circum-  
stance would indicate suicide, unless  
the old man fired the shots in a  
fit of rage, as he was known to be  
count for the burning of the barn, if  
firebugs did not start the fire.

Nutting was alone, his wife having  
gone to Oakland an hour before. Su-  
pervisor George H. Nutting, to San Fran-  
cisco.

THE NETHERLANDS HIT  
BY AMERICAN PANIC

Washington, D. C., May 11.—Report-  
ing to the state department from  
Amsterdam, Consul Henry B. Morgan  
says that possibly no country of  
Europe had been relatively affected so  
disadvantageously by the recent finan-  
cial depression as the Netherlands, where  
the total suspension of the diamond trade,  
whereas the exports of the sparklers  
amounted to \$1,422,604, in 1907 they  
fell off to only \$742,604.

People who are looking for bargains  
in stones are advised to hurry, as they  
are disappointed as prices will be main-  
tained at the old level through influence  
of the diamond trust.

HOOD RIVER W. R. C.  
GAINS IN NUMBERS

Washington, D. C., May 11.—At the  
regular meeting of Canby Relief corps  
No. 15 Saturday afternoon 13 new names  
were added to the former enrollment of  
59. The total enrollment is now 73. A  
committee was appointed to confer with  
a committee from the G. A. R. to ar-  
range a program for Decoration day.

LABORER STRUCK  
BY FALLING PILE

C. R. Jones, laborer on the new Salem  
line, was struck by a falling pile this  
morning while working on bridge No.  
2, and slightly injured. He was re-  
moved to St. Vincent's hospital. A cut  
on the hip and a contusion on the neck  
are extent of his injuries. This is the  
third accident of this nature at this  
bridge.

LABORER STRUCK  
BY FALLING PILE

C. R. Jones, laborer on the new Salem  
line, was struck by a falling pile this  
morning while working on bridge No.  
2, and slightly injured. He was re-  
moved to St. Vincent's hospital. A cut  
on the hip and a contusion on the neck  
are extent of his injuries. This is the  
third accident of this nature at this  
bridge.
