

ITINERARY FOR CRUISE

Fleet Will Arrive Off Columbia Lightship About Noon, Wednesday, May 20, on Way North—Admiral Sperry to Command.

(United Press Leased Wire.)
San Francisco, May 14.—Although Rear Admiral Sperry does not assume command of the Atlantic fleet until May 15, he has already arranged the itinerary for the northern cruise of the battleships after their departure from here. This action was taken in view of the fact that many of the mayors of the cities on Puget sound and farther down the coast had requested a list of the dates of arrival of the fleet at their respective ports.

HOME FAT REDUCER

Works Rapidly and Safely—Requires No Exercise and Allows You to Eat What You Like—Gives Thin Waist.
For the benefit of those who wish to reduce their flesh quickly and safely, we will give the receipt and directions in full for a simple household remedy that can be obtained at trifling cost from any good drug store: 1/2 ounce Marmola, 1/2 ounce Fluid Extract, Capsicum, Aromatic and 1/2 ounce Syrup Simplex. All three are cheap and wholesome, but you should take care to get an unbroken package so that you get Marmola and not a substitute. When you get home mix the three together by shaking them together in a large bottle and take one teaspoonful after each meal and at bedtime.

Follow these directions and you will have the best fat reducer that money can buy. It will take off the flesh at the rate of at least two pounds a week without disarranging the stomach or causing wrinkles, while, best of all, no exercising or dieting is required to help it out. You can get results and at the same time take things easy and eat what you like—as much as you like—and whenever you like.

and on May 25, 13 vessels will drop anchor at Seattle. The Connecticut, Vermont, Kansas and Louisiana will then proceed to San Francisco and some of the other ships will make repairs at Bremerton navy yard.

U. S. Battleships.

EXAMPLES OF CRAFTSMANSHIP SOON AT THE ART MUSEUM

These are busy days at the Art Museum where committees are unpacking and labeling the art handicraft and loan exhibits arriving daily for the arts and crafts exhibition to be opened with a reception next Tuesday night. After the reception the exhibits will remain open three weeks. This will be in some respects the most interesting and instructive exhibition ever held in the city.

Art jewelry, metal work, pottery and glass have been received from prominent artists in the state. Mr. Watkins, who conducted the class last winter at the metal shop, has sent some beautiful enamel work. J. Nelson Winter has contributed some of his best work

CROWDS TO COME FROM THE NORTH

Northern Pacific Will Run Excursions From Washington to Rose Festival.

For the first time in the history of local celebrations of large public significance a big crowd of people is to be brought into Portland from points north. The Northern Pacific Railroad company has undertaken to play an important part in the Rose Festival excursion travel and has promised to run special trains from Grays Harbor, Tacoma, Seattle and other points in its territory.

In a letter to the Portland Commercial club Assistant General Passenger Agent A. D. Charlton has given the assurance that the Northern Pacific will organize large excursion parties from these points. He said: "It is our aim if possible to organize large excursion parties from Grays Harbor territory, Tacoma, Seattle and other territory for the Rose Festival. We will have the service to handle it and

TOWNSEND HEADS STUDENT BODY

Junior Elected to Presidency at University After Hot Campaign.

(Special Dispatch to The Journal.)
University of Oregon, Eugene, May 14.—In one of the most exciting and closely contested student body elections ever held at the university, Thomas H. Townsend was elected to the presidency of the student body over Jesse H. Bond by a majority of 15 votes.

Townsend is a junior in the economics department and is registered from Roseburg. He has been prominent in student body affairs and is very popular. For three years he has been connected with the Oregon Weekly and is now its editor-in-chief. He has been a member of the debating team for the past two years and is a very strong debater. He is a prominent member of the Y. M. C. A. and the Delta Alpha fraternity and is 23 years of age.

The other successful candidates are: Vice-President, J. Leroy Wood; secretary, Neta Harding; executive committee, Harvard Moore and Ormond Bean; athletic council, Fred W. Moulton, William Wood and Paul W. Reid; Oregon Weekly editor-in-chief, Earl Kilpatrick; associate editors, Harriet Lane and Oliver Houston; manager, Dean L. Goodman; assistant manager, Frederick Dean; Oregon Monthly editor-in-chief, Ruth Hansen; associate editors, Jenny Lilly, Neta Harding, Marian Stowe and Alfred Powers; manager, William M. Calk; assistant manager, Cecil Espey.

KNIGHTS OF COLUMBUS TO INSTALL COUNCIL

Scores of Knights of Columbus from this city will go over to Vancouver next Sunday to assist in the installation of a council. The council work is to be put on by a special degree team from Tacoma and Seattle. State Deputy James Gorman of Seattle will be master of ceremonies. Fifty candidates will be initiated into the mysteries of three degrees in the order.

BEAUTIFUL SOUVENIR

Published by the Portland Post Card Company.
By far the most beautiful souvenir of the city of Portland has just issued from the engraver's press. From the rose-supported motto and prize design on the front all the way through its pages there is a succession of the best views of Portland, embracing business and residence architecture, scenes in the parks and plazas, views of public buildings, the vehicles and autos seen in the Rose Festival of last season, glimpses in the harbor and glimpses of the peerless falls and mountains. The panoramic view of the city, occupying a double page in the center of the volume, is new and reveals many skyscrapers not heretofore seen in representations of the city. It is the most aristocratic and pretentious representation Portland has had. Its excellence is reflected in the thoroughly artistic manner in which the big photos have been treated. The natural greenery of shrub and lawn, the pink of the rose, the azure blue of the Oregon sky, the glowing tints of the western sun softening the fleecy clouds, are all preserved in their poetic purity. The artistic artfulness of the artist in portraying accurately the superb views obtainable in and around Portland has no finer example than this souvenir of "The City of Roses." It is for sale by all dealers.

DALLE PEOPLE HEAR SINGLE TAX SPEECH

(United Press Leased Wire.)
The Dalles, Ore., May 14.—Frank E. Coulter of Portland spoke to a fair-sized audience here at the Vost last evening under the auspices of the Oregon Tax Reform association, and in favor of the single tax, and the following proposed amendment to the state constitution: "Excepting that all dwelling houses, barns, sheds, outhouses and all other appurtenances thereto, all machinery and buildings used exclusively for manufacturing purposes, and the appurtenances thereto, all fences, farm machinery and all other uses as such, all fruit trees, vines, shrubs, and all other improvements on farms, all livestock, all household furniture in use, and all tools owned by workmen and in use, shall be exempt from taxation."

NEW SKIN REMEDY

Creates Big Stir; Drug Stores Crowded With Sufferers.
For several weeks past, Skidmore's and other leading drug stores in this city have been crowded with persons desiring a supply of medicine for the new cure for eczema. This is the drug which has created such a stir throughout the country since its discovery one year ago.

For the convenience of those who use pomade for pimples, blackheads, blotches, red nose, chives, berriety and other skin troubles, a special 50-cent package has been adopted, in addition to the regular price which is now on sale at all leading drug stores.

In eczema cases, pomade stops the itching with first application and proceeds to heal, curing chronic cases in two weeks. In minor skin troubles, results appear after an overnight application. For a free, experimental sample write direct to the Emergency Laboratories, 14 West Twenty-fifth street, New York City.

I so advised the Rose Carnival people when they discussed this question with me. We have named rates for the carnival from all points in Washington, Oregon, Idaho and British Columbia. The rates for the carnival are as follows: Vary according to the territory to be covered. All will be given an opportunity to bring a large number of thoroughly advertised in all newspapers, display posters, hangers, etc., and every effort will be made to bring a large crowd to Portland.

with you dollar for dollar commercial organizations in the state of Washington in an effort to bring these commercial organizations together at Portland during the Rose Festival week. The matter is now through our general agents and agents at prominent points and we are able to accomplish excellent results."

ROSE FEVER VANISHED

Why sniffle, snuff, snort and sneeze? When WEIR'S INHALER Will prevent it. Don't take our word for it. Your druggist will prove what Weir's Inhaler will do. Ask him to show you. Price 50 cents. Weir Inhaler Co., Portland, Or.

COAL GOSSIP

Don't put your next winter's coal in your cellar at the present time. Coal that is carried through the hot summer months is bound to deteriorate more or less, then when you come to use it you are liable to condemn the quality. Freshly mined coal contains all the life and burning qualities and gives better satisfaction than coal that has been in the open air for months. Our mine is located close to the Columbia river and coal mined today can be delivered in your home the day after tomorrow; so why buy a year's supply ahead. We have our own barges and our own steamboats so are absolutely independent in the matter of transportation. What we will do, however, is this, we will send you a sample sack of coal weighing one hundred pounds, from our Coal Creek Mine, charging you fifty cents. You try the coal, satisfy yourself as to its quality, and if you don't like it we will give you your money back. If it suits you then we will book your order at \$6.00 per ton and agree to deliver to you freshly mined, clean lump coal, in any quantity you want and at any time during the next twelve months. In this way you are protected against a raise in price, and have absolutely assured yourself that you will have all the coal you want and when you want it. Try the coal and make your contracts now for your future needs. We guarantee the quality.

Shares in This Company at Fifty Cents Each

We are offering a limited amount of stock in the Coal Creek Coal & Mining company at fifty cents per share, payable 25 per cent and 15 per cent monthly until paid for. The money derived from the sale of the stock is to be used in opening up another vein of coal, which will more than double our present capacity, and to develop our wonderful water power and install a complete electric plant with which to operate the mine, run our trains and light our mine and village. We then are in position to produce coal at a minimum of cost, and with our water transportation, can deliver coal to any city or town touched by the Columbia or Willamette Rivers cheaper than any mine on earth. Remember that no coal mine yet discovered in this section can lay claim to the four distinct advantages which we claim for this one.

FIRST:

An excellent quality of coal and millions of tons of it.

SECOND:

Coal Creek crossing our domain of 2,700 acres, with a fall of five hundred feet in two miles is capable of furnishing thousands of horse power for equipping the plant with electricity.

THIRD:

Our own line of steamers and barges and the broad highway of the Columbia to haul it on.

FOURTH:

The names of F. B. Jones, W. E. Jones and R. B. Rose furnish a sufficient guarantee that the affairs of the company will be honestly and intelligently administered.

AND FURTHER:

To demonstrate to you our unbounded faith in this proposition, we will make the following proposition to all holders of our stock outside of our immediate official family. We will agree not to accept any interest or dividend on the investment that we have already made which amounts to \$50,000 until such time as the holders of this new issue of stock receive at least 10 per cent annually on their investment. It is against the law for any corporation organized on a stock basis to guarantee a specified amount of dividends, but our property earned 12 per cent last year on the money invested in it and we know that it will earn at least that much this year and we are willing to apply these earnings upon the new capital which we are interesting until such time as the new investment will start earning dividends on its own account. This is a very liberal proposition and virtually guarantees investors at least 10 per cent on their money the first year with a reasonable assurance that in future years their money will earn from 15 per cent to 25 per cent annually.

Call at either of our offices and see the coal and let us put you in the way of making a safe investment that will assure you permanent and regular dividends. The mine earned 12 per cent last year and with our increased capacity and facilities for cheap mining should easily earn twenty to twenty-five per cent annually in the future. We have turned down two flattering bonafide offers for this property which meant a much higher valuation on stock we hold than we are offering it to the public for, but with the safe would pass the control, and as we consider the property well worth a million dollars we can afford to wait and dig it out ourselves and share it with the friends that join us. We would be glad to send anyone interested to the mine so that they can see for themselves just what we have. This is a proposition that should appeal to large and small investors alike. It is so much different from the average mining investment offered to the public. It is a local enterprise backed by local people, who have spent a life time in the community and stand high in the business world. You can go to the mine and see for yourself and be convinced that every statement we make in connection with this property is really underestimated than otherwise.

Boost—Don't Knock

There have been and will continue to be coal mining stocks offered to the public. Investigate them thoroughly, then come and let us show you what we have to offer. The comparison will demonstrate to you the true merit of our proposition. Other stock dealers will tell you our coal is no good. Don't believe them. Try it and see for yourself. We will save you many a dollar in your year's fuel bill.

IT'S ON! That Sale of Lots In Irvington Park

—and it is coming through—for they are selling on their merits—magnificent either in themselves or as compared with any other property in the city. YOU—We are talking to you—you who have been waiting for this moment until just the right thing should be offered.

YOU—Who have felt that some time or other you would buy—if you could be absolutely sure of getting the right location, surroundings, car service, street improvements, building restrictions, soil, water supply, price and terms—and if ever there has been a fulfillment of the old saying—"all things come to him who waits"—surely it is just that in this case, for as to

there is nothing on the Peninsula to equal the residence portion between Ainsworth avenue (100 feet wide), and Killingsworth avenue—east of Twenty-second street.

prevent shanties—none but desirable residences will ever be built in Irvington Park.

there is no better soil in the city—and the natural shrubbery exceeds anything you can imagine.

\$225 to \$375—10 per cent cash and \$10 monthly for a full 50x100 foot lot; 14 foot alleys; water laid to your door; 6 minute car service morning and evening; 12-minute balance of time. Anything better than this has yet to show its head above the horizon.

The story is only half told.
