

### FARMERS HEAR GOSPEL GLADLY

Demonstration Mission Has Been Most Successful in Umatilla.

(Special Dispatch to The Journal.)  
Pendleton, Or., May 15.—Over 2,000 interested Umatilla county farmers have attended the meetings held by the Oregon Agricultural college experts on the C. R. & N. farming demonstration train that has been run through the county, visiting every prominent place yesterday and today.

Beginning its itinerary at Milton at 8:45 Wednesday morning the train was run westward to this city, making stops at Weston, Athena and Adams and reaching this place late in the afternoon after one of the most successful days of the entire itinerary.

Aside from general freight agent R. B. Miller, general superintendent J. B. Campbell of the C. R. & N. company, the following agricultural experts were present: Dr. James Withycombe, director of the Oregon experimental station; Prof. Lewis Condit, horticulturist; Dr. E. K. Bradley, entomologist; H. D. Scudder, agronomist; and Prof. Byron Hunter, assistant agriculturist of the department of agriculture, who represents the secretary Wilson.

At Milton the experts spoke on irrigation and fruit raising and urged farmers to better methods of cultivation, spraying and packing. At Weston diversified farming was the theme and berry tracts and gardens were extolled. At Athena and Adams the experts spoke vigorously against the suicidal policy of summer-fallowing the land and the rotation of crops and diversified farming.

Wednesday afternoon the train visited Echo, Pine Rock and Pendleton, at all of which places large crowds of interested farmers attended and many of the deep interest in the lectures and subjects discussed.

At all of the places where stops were made, farmers drove in for many miles and while the bonanza farmers, those who have thousands of acres in cultivation without house or home on their farms, the people turned out to hear the substantial medium class farmers, stockmen and dairymen of the county were and expressed an appreciation of the subjects so ably treated by the experts.

The train has been an unqualified success in Umatilla and adjoining counties and General Freight Agent R. B. Miller of the C. R. & N. company, who managed the program, is highly pleased with results and believes that much good to the farmers and to the state will follow the running of the train.

Yesterday, the last day of the demonstration train through eastern Oregon, was the most successful in the entire itinerary. Early yesterday morning the train left here for Milton and Freedom, where it stopped for breakfast and to hear the lectures on fruit-growing and wheat raising. This section of the country is devoted principally to fruit raising and it was an inspiration to the speakers to see the trees laden with small fruits, while boxes of ripe strawberries were shown them.

From here the train went to Weston, where it stopped for an hour, and later to the town of Athena, where the world are found. Wheat raisers turned out to give three cheers and they were indeed proud to show the thousands of acres of the growing grain.

### EELS KILLED BY ELECTRIC SHOCK

Power Company Has Novel Method of Exterminating Destroyers of Trout.

(Special Dispatch to The Journal.)  
Ukiah, May 15.—The run of eels in the rivers and creeks in this section is exceeding any known for years. Thousands of them are to be seen along the streams. The canal built by the Snow Mountain Power company, from their power-houses in Potter valley, seemed to be a very attractive place for them, and myriads commenced swarming up it. They piled up at the power station in a manner that threatened to clog the outlet of the motors.

There seemed to be no way of getting rid of them until electricians sunk a large meshed piece of wire netting in the canal where the eels congregated and when it was well covered several thousand volts were turned into it. The eels were then gathered up and hauled away and buried. Several wagon loads of them have been killed by this means already. The fish commissioners are particularly interested in this method of destroying eels, as they are one of the greatest destroyers of young trout known.

At Milton the experts spoke on irrigation and fruit raising and urged farmers to better methods of cultivation, spraying and packing. At Weston diversified farming was the theme and berry tracts and gardens were extolled. At Athena and Adams the experts spoke vigorously against the suicidal policy of summer-fallowing the land and the rotation of crops and diversified farming.

This section of the country is devoted principally to fruit raising and it was an inspiration to the speakers to see the trees laden with small fruits, while boxes of ripe strawberries were shown them.

From here the train went to Weston, where it stopped for an hour, and later to the town of Athena, where the world are found. Wheat raisers turned out to give three cheers and they were indeed proud to show the thousands of acres of the growing grain.

The Outlook for Umatilla.  
Thinking upon the subject of wheat raising, Dr. Withycombe held that with every succeeding wheat crop the supply of nitrogen in Umatilla county's soil was being made less, and that in time it would become exhausted. When that time comes, as it did some years ago in the Willamette valley, the farmers of this section will have to turn their attention to dry farming methods, and when they do they will make more money than they do now and the lands will greatly increase in value.

### Chasing Bears

through the tall timber gave our forefathers stomachs that could digest anything. The man with his nose on a desk has to "coddle" his stomach. The best "coddler" is

### "FORCE"

the food that combines the life of the wheat with the soothing, invigorating tonic of barley-malt. Try it for breakfast. You will like the sweet, crisp, malty flakes.

"FORCE" is made of the best white wheat, steam-cooked, rolled into thin flakes, combined with the purest barley-malt and baked. Always "crisp" it before serving it by pouring into a pan and warming it in oven. Then serve in large dish with cream, piling the flakes in one side of the dish and pouring the cream in the other side, dipping the flakes as eaten.

Your grocer sells it.  
No other Flaked Food is "just as good."

### SONG RECITAL AT ALBANY COLLEGE

Professor Palmer Conducts Conservatory's Most Successful Event.

(Special Dispatch to The Journal.)  
Albany, Or., May 15.—The most successful entertainment in the history of the Albany College conservatory of music was given in the auditorium of the United Presbyterian church Wednesday evening. It was a song recital by the pupils of Professor Palmer, director of the department of vocal music. A select program was presented and thoroughly enjoyed by the large audience.

The program was as follows: "Blum-Berg Song of the Sea," Glee club; (a) "The Art Like a Flower," (b) "Lullaby of Love," Miss Winnifred McNair; "May Morning," Mrs. Mable Johnson; "Love On Dust," Professor Palmer and Miss Edith Yetter; "Good Bye," Miss Clara Schmitt; (a) "I Will Come in the Spring," (b) "My Lullaby," Mrs. Fred P. Nutting; "The Ivy Leaf," Miss Edith Yetter; "Welcome Pretty Primrose Flower," Octet, Mrs. E. Sox, Miss Phyllis Gibson, Miss Laura Anderson, Miss McNair, Miss Vera Barton, Mrs. Johnson, Miss Edith Yetter, Miss Schmitt; "Happy Days," Miss Margaret Boyles, with flute obligato by J. C. Irvine; "Mona," Earl Cochran; "Good Night Beloved," Mrs. E. Little. The chorus and Glee club is one of the leading musical organizations of the city and is composed of the following: Mrs. E. Little, Mrs. Mable Johnson, Miss Mary Armstrong, Miss Gladys Easton, Miss Inez Easton, Miss Clara Schmitt, Mrs. V. L. Little, E. C. Irvine, Victor Yates, Murray Barabach, Dr. Doolley, Dr. C. V. Little, Miss Vera Barton, Miss Anna Schultz, Miss Laura Taylor, Miss Buena Eickman, Miss Phyllis Gibson, Miss Christine Papp, Miss Harriet Johnson, Miss Laura Anderson, Miss Kathryn Ross, Miss Margaret Boyles, Miss Lydia Epuley, Miss Maudie Epuley, Miss Winnifred McNair, Miss Edith Yetter.

The chorus and Glee club sang under the direction of Professor Palmer, with Miss Elizabeth Cone as accompanist.

### OAKS' BUSY SEASON TO BEGIN TOMORROW

New Airdome at Park Will Seat Comfortably 2,000 Spectators.

Whether it rains or shines, the summer season at the Oaks will commence tomorrow at noon when the gates will be opened to the public and the long period of amusement and entertainment will begin.

Judging from the weather outlook today the patrons of the place may have an opportunity to test the convenience of the new airdome on the opening day. Work on the airdome has been completed and it will be ready for sheltering the crowds who may be present at the opening program of the Tyrolean singers during the afternoon. The airdome is capable of sheltering 2,000 or more people and seats have been arranged, making it as comfortable as the interior of a theatre.

Plans for the opening have all been completed, and it is expected that the first day's program will draw a large crowd. The Tyrolean singers will be the feature of the opening day, as they will make their appearance during the afternoon. Added to this will be the ride of Harry Bretton in his flying automobile, down an incline, ending in a leap across a 45-foot gap in the track. During the evening a program of fireworks has been arranged for at which some set pieces which have never been seen in the west will be shown.

### SUPREME COURT CAN KILL THIS RATE LAW

(Special Dispatch to The Journal.)  
Olympia, Wash., May 15.—Unless the supreme court decides the railroad commission test case within about 30 days after its submission, it will be too late for the governor to call an extraordinary session of the legislature to provide for submitting a constitutional amendment at the next general election, if the decision of the court should be against the commission.

### DOUGLAS CANDIDATES OPPOSE STATEMENT

(Special Dispatch to The Journal.)  
Roseburg, Or., May 15.—The latest entry in the senatorial list from this county is that of J. M. Hansbrough, who will file his petition as an independent Republican. Mr. Hansbrough is opposed to Statement No. 1 and will make his campaign on that issue. Hansbrough was some years ago a member of the legislature and was defeated the last time he ran for joint representative from Jackson and Douglas counties. It is said Hansbrough enjoys the confidence of the machine element of the Republican party. He has been working as a bartender lately.

### SALEM PREPARES FOR I. O. O. F. GRAND LODGE

(Special Dispatch to The Journal.)  
Salem, Or., May 15.—Preparations are being made in Salem for the entertainment of the grand lodge of the Independent Order of Odd Fellows which will assemble here on Tuesday.

### Hood's Sarsaparilla Will Make You FEEL BETTER, EAT AND SLEEP

Better, and build you up for the hot, debilitating days of summer. It is the most effective Spring Medicine, the one that truly purifies and enriches the blood, removes all pimples, boils, eruptions and other troubles caused or promoted by impure blood or low state of the system.

### NO JURISDICTION IN MARKED TIMBER CASE

Court at St. Helens Sustains Prier's Demurrer—Columbia Boundary.  
(Special Dispatch to The Journal.)  
St. Helens, Or., May 15.—In the case of the state vs. Michael Prier upon information for taking up and having in his possession marked or branded timbers found adrift on the Columbia river, a demurrer was sustained upon the grounds that the Columbia river is the boundary of the state of Oregon and not a river within the borders of the state as contemplated by the statute, and that such marks or brands were not recorded in any county of Oregon.

### Barlow Church Renovated.

(Special Dispatch to The Journal.)  
Barlow, Or., May 15.—The Aurora Electric company is wiring the Luther-Barlow church. The church has just been lined with decorated wood, which is being tinted in cream, tan and gilt. It will be a very artistic interior. The church was otherwise repaired and renovated in general.
