

MARTIN, SR., IS SILENT

No Reply Received by Suspect Held for the Murder of Pawnbroker Wolff, Although Telegrams Have Been Sent to Europe.

Alarmed at the failure of the father of Edward H. Martin, the suspect in the Wolff murder case, to answer cables sent him in Europe, Mrs. Martin, the wife of the man charged with the crime fears that the older Martin may not come to the rescue of his son. Repeated messages sent to points in Spain and France have elicited no answers and the brave woman who has been keeping up the fight for her husband in Portland is beginning to lose hope of support from Mr. Martin's parents.

City Attorney Kavanaugh, who is still acting for Mrs. Martin, has been unable to secure definite responses to his telegrams to Mr. Martin's New York agents. More than a week ago Mr. Kavanaugh understood that these agents had located the Martins. Each day since then Mrs. Martin has been waiting to hear something from Europe but has as often been disappointed.

Martin himself is growing restless and alarmed over the failure to hear directly from his father. He has had a long and confidential talk with Mr. Kavanaugh since his confinement in the county jail in which he is held on the charge of the murder of Wolff. But until it has been determined what lawyers will represent Martin on the line of defense can be drawn up.

Thus far efforts on the part of amateur detectives to connect Jack La Rose, the rascal thief with the Wolff murder have not been very fruitful. The city detectives will not listen to the suggestion that La Rose may have been connected with the Wolff murder and are not working along the lines that Martin, if he was the murderer, had any accomplice, although many circumstances connected with the killing of Wolff would tend to show that two men had been concerned in the affair.

La Rose still remains almost as much a puzzle as Martin—the two are the strangest murder suspects that have been arrested in Portland for years. La Rose was to have been arraigned in the police court today, but Deputy District Attorney Eugene H. Chow, the Chinaman whom he struck over the head Wednesday, appeared in the police court this morning and swore out a warrant charging La Rose with having assaulted him with a deadly weapon, so that in case the Neuman case doesn't stick against La Rose he can be held on the assault charge.

Harry Young, the state's witness against La Rose in the Neuman case, was taken to the county jail yesterday and will be held there until the trial. He has been out of work and was quite willing to accept the hospitality of the county and his witness fees in return for the custody of his person.

GILLETT GRANTS FINLEY REPRIEVE

Governor Saves Life of Man Sentenced to Die for Attempting to Flee.

(United Press Leased Wire.) Sacramento, Cal., May 15.—J. W. Finley, whose hanging at Folsom penitentiary was set for 10 o'clock this morning, is still a living man. Late yesterday Governor Gillett issued his second reprieve, granting another two weeks' grace. All had been prepared for the execution and Finley spent yesterday in the death cell. He received a message from relatives in Kentucky stating that money would be furnished for an appeal to the United States supreme court, and wired to Gillett for a stay until the 18th. The governor extended the time to May 22. Finley was serving a life term for murder when he joined the prison breakers and attacked the warden with a knife. He was recaptured and sentenced to die. If he hangs his will be the first to pay the penalty of death under the California law which prescribes the gallows for prison breakers.

Finley was given his original sentence from Mendocino county for murder on June 15, 1894. He had been in Folsom but a few months when he made a desperate attempt to escape, wounding a guard. He was brought to Sacramento and convicted of violating the new law which provides death for his offense, and on December 26, 1905, sentenced to hang. He was the first to be convicted of this crime. Many delays from appeals, etc., resulted, the last of which was April 1 last, when Governor Gillett granted him a reprieve. Many letters were received at the governor's office asking him to commute Finley's sentence. One of them was from the governor of Kentucky, Finley's native state.

MACHINE MAY BE HANDED LEWIS

If Neff Is Unable to Go to Convention Leaguer Will Go as Alternate.

(United Press Leased Wire.) Sacramento, Cal., May 15.—The Lincoln-Rooseveltians consider that they did a very clever thing in securing J. S. Wheeler as an alternate to Jacob Neff as delegate at large to the Chicago convention. Neff is the league candidate, won by a single vote over Harrison Gray Otis, and it was late when the election of alternate was in order. The Lincoln-Rooseveltians put up but one candidate, Wheeler as an alternate to Neff, while the regulars put up four, but two of them were for Neff, with none at all for Neff. There being no contest for alternate, Neff, De Young and Neff, these three were declared elected, and Wheeler was one of them.

The chances are that Neff may be too ill to go to the convention, and the regulars are therefore bemoaning their inattention to the detail of electing an organization alternate, which would make solid their delegation in case Neff doesn't go.

NERVOUS HEADACHES

Frequently Caused by Mental Overwork

Can Be Cured Only by Toning Up the Nervous System, the Treatment Which Restored This Young Business Woman to Health.

One who has not endured the suffering caused by nervous headaches cannot realize the awful agony of its victims. Worst of all, the ordinary treatment cannot be relied upon to cure nor even to give relief that is permanent. Some doctors will say that if a person is subject to nervous headaches there is nothing that will prevent their recurrence. Nervous headaches, as well as neuritis, are caused by lack of nutrition—the nerves are starved. Feed the nerves by furnishing through the blood the elements which they require in order that these nervous troubles be removed. The only way to feed the nerves is through the blood, and it is in this way that Dr. Williams' Pink Pills have accomplished so many remarkable cures.

Miss F. Mac Markell of 108 Heustiss street, Ithaca, N. Y., says: "I had nervous headaches for several years. They began when I was a student in the high school. I was studying hard, pale and thin and my friends were afraid I was going into a decline. I had no appetite, my digestion was poor, and I lost in weight. The headaches came on two or three times a week and sometimes every day. They were so severe that quite often I would have to go to bed when I came home from school. My blood was in such a bad condition that my hands were covered with a rash."

"Our family doctor benefited me for a time, but did not seem able to cure me. My grandfather told me to try Dr. Williams' Pink Pills, saying they had helped him. I found that they were helping me and took them until cured. When school opened again I was strong and able to study and have never had the headaches since."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50. Write to Dr. Williams' Medicine Company, Schenectady, N. Y. They are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

ROCKEFELLER IS NOT SOCIALIST

Oil King Surprised at Robert Hunter's Statement at Convention.

(United Press Leased Wire.) Pocatello, Idaho, N. Y., May 15.—"Who is this man Robert Hunter?" asked John D. Rockefeller today, when told that Hunter had informed the delegates assembled in the Socialist convention in Chicago that the oil king was a Socialist, and that he had brought Dr. Aked over here from England to be pastor of his church because the latter believed in socialist principles. "That's the mildest of all the cruel things I have been called," he continued. "I wish some one would tell me who this great seer is. Such statements as he made stir up discontent; they do no good. If he is correctly quoted, and if he really thinks he has the right figures on me, let him hold to that opinion. Don't spoil his deduction. It can hardly be said that I brought Dr. Aked here. Ask him. He'll settle that point for you. Anyway, this fellow Hunter is not going to worry me. Golf is more important. By the way, the links were great yesterday."

CHINESE REVOLT GROWS SERIOUS

Government Alarmed at the Progress Being Made in This Line.

(United Press Leased Wire.) Shanghai, May 15.—The Chinese government is greatly alarmed over the Chinese revolt, which is steadily growing more serious. The rebels have cut off communication to Mengtsu. It is estimated that the revolutionists number 10,000 and that they are under instructors trained in Japan. The fact that the rebels selected Yunnan as the scene of their first attack convinces Peking that they are familiar with conditions, as this province is poorly protected. The government is not hopeful of saving Mengtsu, which is at the head of the French railway, from being taken.

savings banks for if the people feel the United States is behind their deposits there will be no tendency to withdraw their money and panics will be averted. The national banks should be compelled to pay a certain percentage of their deposits into a national fund, called a sinking fund, which shall be kept as a reserve to insure the deposits; the state banks, to a state sinking fund. He also favored the exclusion of the undesirable class of immigrants and advocated a graduated income tax law.

Governor Chamberlain said that he heartily endorsed the views of President Roosevelt and, if elected, would give his undivided support to the man who followed out the president's policy.

A number of the candidates for office and political leaders of the county were seated on the platform. It was generally conceded by those present that the speech of Governor Chamberlain was the strongest ever heard in this city.

GOOD RAIN

mense crop, and peaches, prunes and apricots are showing up well. A special report from Weston, Gilliam county states that light snow is falling there today. No damage is anticipated from cold showers, however. Lack of moisture was the only thing feared in that vicinity to insure a bumper crop. An abundance of rain has fallen in the Willamette valley, where crop prospects are good.
