INTEREST BEARING INCOME EARNING INCREASED VALUATION

The Interest on These Gold Coupon Real Estate Certificates Commenced May 1, 1908, and Is Now Accruing; Payable Semi-Annually

PROFITS—This certificate has four earning powers — bonus, interest, income and increase valuation.

NO RISK-Its principal and interest is held in trust and hence cannot be misapplied or dissipated.

GUARANTEE-In addition to its funds being invested in Portland Business Real Estate under a trusteeship, the Standard Trust company of Portland, Oregon, guarantees its principal and interest without reservation.

NO DEPRECIATION-Regardless of what depreciation may occur in the real estate market, these certificates being guaranteed in principal and interest, will never go below par.

CASHABLE-The Standard Trust company will purchase these certificates two years from their date of issue, paying the principal face value with a 2 per cent bonus and all accrued interest thereon.

INCOME-One half of the net income received from the property held in trust for these certificates, will be paid to the certificate holders, and available data shows net income should range from 8 per cent to 15 per cent per annum.

INTEREST-The interest on these certificates commenced May 1, 1908, payable semi-annually and is guaranteed absolutely, under a trusteeship.

INCREASE VALUE-The increase value of Portland Business Real Estate has been steady and healthy and easily justifiable. Within the last few years the eastern money interests have fully realized the many and wonderful resources of Oregon, among which are its agricultural lands, its timber and its water-powers, all needing development and exploitation. These resources must all pay tribute to Portland, and it is easy to reason why Portland business property has within the past five years, increased from 175 to 400 per cent and it is safe to predict that the next five or ten years will see even a greater increase.

DIVIDENDS-The property purchased and held for these certificates will be so held under trusteeship for ten years and then sold. The certificate holders will receive in addition to the face of their certificates and the interest and income paid on them, one half of the increased valuation of the property, being the difference between the purchase price and the selling price of the property, which can easily be estimated between 200 per cent and 300 per cent, for every reason gives evidence that Portland should have between 500,000 and 600,000 population within the next ten years.

CONFIDENCE-This investment must appeal to all who have confidence in Portland, and all living in this beautiful and glorious Pacific northwest country must know that Portland is destined to be its financial and social center.

STANDARD TRUST CO.

DENOMINATIONS-These certificates are issued in denominations of from \$25 upwards, allowing the small investor the same privilege of profit sharing and an equal advantage of the large and assured advances of Business Real Estate, as is enjoyed by the man of great wealth.
