

OSWEE BREWERY FROM POKE OF GOLD CREATES STIR

Court Records Showing Senatorial Candidate as Attorney of Rockefeller Monopoly Used on Display Posters and Distributed Through Tillamook County. U'Ren in the Field.

Charges made two years ago, preceding the primary election, that H. M. C. C. C. candidate for United States senator, was attorney for the Standard Oil company, have been made again this year, and in one county at least—Tillamook—had the effect of turning many votes from the Republican candidate.

Opposition to C. C. C. in Tillamook county this year on the grounds that he was a paid attorney for the Rockefeller monopoly took the form of a large poster, which was displayed in practically every voting precinct in the county. Publicity given the charges had the effect of swinging many votes against the senatorial candidate. The poster reads as follows:

CAKE
Is now
And always was
the
STANDARD OIL'S
ATTORNEY.

THAT'S ALL.
U'Ren Makes Charges.

Proceeding the primary election for nomination of United States senator in 1904, W. S. U'Ren took the stump against C. C. C. charged the latter with being allied with the trusts and with the possibility of C. C. C. being a man who could represent the people in the United States senate. U'Ren at that time, in a published reply to criticism on Standard Oil, said:

"I speak of Mr. C. C. C. as the candidate of the trusts because I believe it is so. His appearance and argument in the supreme court of Oregon, as attorney for the Standard Oil company, in the case of Bayard vs. Standard Oil company, supreme court records, volume 25, page 425, proves very clearly that he is the favorite candidate of the great Standard Oil trust."

The interview is an extract from a column statement made by U'Ren which appeared in a morning paper April 13, 1904.

U'Ren's charges that C. C. C. was the Standard Oil's attorney, an argument against his fitness for office used then and in the present campaign, are given by the records of the Oregon supreme court.

Beginning on page 425 and continuing over several pages, in volume 25 of

POKE OF GOLD CREATES STIR

Workman Makes Find Under Building and Disappears With Wealth.

(Special Dispatch to The Journal.)
Seattle, Wash., May 16.—A poke of gold, the contents of which is variously estimated as worth between \$300 and \$1,000, was picked up under the building occupied by the Haines Oyster company and the Snug Harbor saloon, on Railroad avenue, at the foot of University street, and this morning by George Garcia, a laborer for the Northern Pacific railroad, working under the supervision of an inspector of Health Commissioner J. R. Gignion, who by Garcia disappeared after making his find and has not been seen since. It is believed that he has left the city with his newly acquired fortune.

City sanitary inspectors are of the belief that the poke was secreted beneath the building by some man who, frequenting the docks, either found it or stole it from an Alaskan miner.

From the dock side of the saloon building it would be easy for any man to gain access.

The find was made during the progress of the work of filling in beneath the building by some man who, frequenting the docks, either found it or stole it from an Alaskan miner.

The find was made during the progress of the work of filling in beneath the building by some man who, frequenting the docks, either found it or stole it from an Alaskan miner.

(Special Dispatch to The Journal.)
Seattle, May 16.—"I notice that Chief of Police Wappenstein, who said a year ago that he would not permit me to speak in Seattle, is no longer at the head of your police department. That's one good thing about America, they rotate in office, and every once in a while a man loses his job." This was Emma Goldman's most interesting statement made in an interview at the Hotel Butler this afternoon.

In so stating, she indicated clearly that other cities where she has spoken the police are not so strict as Wappenstein, who warned the Goldman woman that if she made inflammable speeches in Seattle she would quickly land in the city jail. Naturally, the former chief's determination to prevent the woman from inciting trouble here won for him her dislike, and she could not help remarking that on this trip she would not be interfered with by Wappenstein.

The notorious woman anarchist came here from San Francisco to earn a little money "lecturing." She is to speak at Egan's hall, in the Arcade building, tomorrow afternoon on "Anarchy" and the evening will hold a debate with Dr. H. P. Titus on "Anarchy vs. Socialism."

"I had four detectives constantly trailing me in San Francisco," said Mrs. Goldman proudly. "I could not go to my meals without having the four plain clothes men in my company. The chief of police of San Francisco honored us with his attendance at our meetings and he brought 150 patrolmen with him."

EMILY GRIGSBY DENIES STORY FOR BRYAN, KING AND CHAMBERLAIN

New York Woman Is Not Claimant to Portion of Yerkes Estate.

(Special Dispatch to The Journal.)
New York, May 16.—Positive denial was made tonight on behalf of Emily Grigsby of the story from Chicago that she is claimant to a large portion of the estate of the late Charles T. Yerkes, or that a cash settlement was made to her by the former Chicago millionaire.

(Special Dispatch to The Journal.)
New York, May 16.—The Democratic county central committee met at Ontario today and elected the following delegates to the state convention: T. E. McKnight, delegate at large; A. N. Hollis, J. E. Lawrence and J. R. Blackaby.

The following resolutions were unanimously adopted by the committee:

"Resolved, That the Democracy of Malheur county, Oregon, is united in its support of our peerless leader, William Jennings Bryan, and that we instruct the four Malheur county delegates elected to attend the Oregon state Democratic convention to be held at Portland June 3, 1904, to vote and work for delegates to the national Democratic convention at Denver, Colorado, who will vote for Bryan and his associates, as long as his name is before said convention."

"Be it further resolved, That the delegates elected favor the nomination of Will R. King as member of the supreme court of the state of Oregon and that they will use all honest endeavors to secure said nomination at the Democratic state convention to be held in Portland June 3, 1904."

"And it is further resolved, That we heartily endorse the candidacy of Governor Chamberlain for United States senator and pledge him our hearty support."

Thomas E. McKnight was elected at the evening session of the committee as state committeeman for Malheur county.

Malheur Democratic Committee Chooses Delegates, Instructed.

(Special Dispatch to The Journal.)

DENVER POLICE CHIEF ARRESTED

Delaney Accused of Assaulting Young Man He Found Loitering Near Home.

Denver, Colo., May 16.—Ex-Chief of Police Michael Delaney was arrested on an eastbound train at Akron late this afternoon by deputy sheriffs of Washington and Rowland counties on telegraphic orders from the district attorney's office in Denver. Delaney is wanted on a charge of assaulting T. S. Mathews, a young carriage-maker whom he found loitering about the Delaney home three weeks ago and at whom the former chief's daughter had been frightened.

Delaney was accompanied by his chauffeur, Captain Gray, who assisted in thrashing Mathews. Delaney and Gray were arrested and the former placed under \$500 bonds, which he forfeited by going to Chicago. Gray was found guilty today and sentenced to six months in jail by District Judge Greeley Whitford. When Delaney heard of this, he immediately started again for Chicago.

Delaney resigned from office on account of the matter raised over his trouble with Mathews.

CASHIER OF BANK UNDER ARREST AGAIN

(Hearst News by Longest Leased Wire.)
Pittsburg, May 16.—William Montgomery, cashier of the Allegheny National bank, was placed under arrest the third time within 10 days today, the last charge having been the misapplication of \$125,000 worth of bank bonds. George E. Tener and Richard E. Quay, his bondsmen on both former occasions, refused to assist him today, and being unable to obtain other bail he was committed to jail shortly after 3 o'clock.

He will be given a preliminary hearing before United States Commissioner William T. Lindsay Monday afternoon.

Montgomery's former bail, William L. Folds discovered the missing certificates of bonds of several local brewery companies and had been placed in the bank's vaults as security for money loaned.

DECISION MAY MAKE DIRT FLY

(Continued from Page One.)
miles above the Mount Hood company's power plant, and the surplus water appropriation sought by the company will be taken out of the Bull Run river below the city's intake.

Power drills and other machinery now in operation in an action under a court order from the Mount Hood company's site are propelled by electric power driven by a generator that runs under a 500-foot head of water piped from Deer creek, back in the hills north of the Bull Run river. A hydraulic giant used in clearing the power site is operated under a head of water piped from Hogback creek and Deer creek.

The surprising thing about the operation thus far indicated is the apparently enormous heights at which water is found available within comparatively short distances in the Bull Run and Sandy river hills. There is an immense amount of water that has until this time been comparatively unknown. The annual precipitation in these hills is said to be more than 90 inches.

Country Well Drained.
Notwithstanding this seemingly excessive rainfall, the whole region enjoys ideal farming conditions. The soil is deep and rich, and its condition is suitable for farm work early in the spring. At the present time the farms on the Bull Run and Sandy river basin are under good cultivation, reasonably dry and not too dry, and the crops are coming forward rapidly. The reason for these favorable conditions under the seemingly damp climatic handicap is that the country has marvelous drainage. Its bench lands are porous enough to take in the water, its clay subsoil holds sufficient moisture and has in addition a sandy river basin to serve its transportation needs. It will be an ideal country residence region.

MOB STONES STREET CARS

(Continued from Page One.)
avenues, three of the biggest lines in the city, not a car moved, however, the horns being besieged. No cars ran in Euclid avenue east of the Lakewood barn east Cleveland village being cut off, while only three cars ran on the long Cedar-avenue line, six on the big Broadway line. Palm avenue had five minute, instead of half-minute service. Euclid five instead of half-minute and Euclid 10 instead of two-minute service.

The suburban cars were not molested after the early hours, but no passenger cars were permitted to board or alight from them within the city except at the public square. The Pennsylvania and the Lakewood railroads ran suburban trains for the benefit of many residents of the nearby villages.

Following the first clash, at East One hundred and fifth street and Superior avenue, near the Superior car barns, two cars were dismantled, the Lakewood car barn and a passenger injured by flying stones. Immediately police were ordered out.

Battle With Carnes.
Tonight police had been held on during it and eight men had been massed at an early hour. Led by Chief Fred Kohler, Lincoln Stephens "Best Chief," a squad of police battled to make an opening through the strikers gathered before the Lakewood barns, used before their clubs, but were pushed back and forth by the crowd, bricks falling about them and ancient eggs bespattering many. Chief Kohler was drenched in egg and a brick hit him in the neck. One car was finally run out of the barns to be held in a derrick, which had been spiked. Police aboard the car were driven out and it was three hours before the police was possible at all. The second car, cut off at the barn, was blocked from the barn and a woman passenger was hit by a brick.

SCHOOL INDUSTRIAL FAIR FOR YAMHILL

(Special Dispatch to The Journal.)
McMinnville, Or., May 16.—County Superintendent Best has issued a program and prize list of the third annual School Industrial fair of Yamhill county, which will be held in this city September 25.

The prizes are grouped under the five heads, writing, agriculture, sewing, woodwork, and general. Cash prizes are \$100, \$50, \$25, \$10, \$5, \$3. Merchandise and mercantile credit prizes are much higher. Still other prizes will be announced later. The school prizes will be held the first day of the fair. The judging will be done on the following day. Superintendent Best is furnishing a program for this year. Each pupil must do all the work in preparing his or her exhibits. The only exception is the first plowing and harrowing of the ground.

20 Minutes Past 3, Plus 4 Minutes A Day. What Time Is It, If My Watch Was Right Last Monday?

Do you ever have to stop, and think and scratch your head and go through this sort of arithmetical gymnastics when you want to know the time of day? Do you? Can you walk past your jeweler's window and not stop to compare your watch with his regulator? Do you blush when your friends ask you if you have the correct time? Doing these things, it requires no argument to prove that you do not really know good watch service—South Bend service—does it? There are two reasons for the perfect watch satisfaction which every man and woman who carries a SOUTH BEND WATCH enjoys. The first is in the watch itself, and the way it is tested before it is sold to you or even to your jeweler. All the skill that money and experience can control is put into South Bend watches and, grade for grade, they are superior to any other watch made. They are modern timepieces made to keep perfect time under the most strenuous conditions of the life you lead. They are made for your standard of living and your requirements, with a care for quality and service that all other makers, no matter what their names or reputation in days gone by, do not give to watches sold at the same price.

SOUTH BEND watches is picked out with as great care as is exercised in making the watch. Even a SOUTH BEND watch, perfect as it is, must be adjusted to the individual who carries it. The watch that keeps perfect time in your pocket cannot be depended upon to keep time in another man's pocket. The highest grade, most costly watch made will fail as a timekeeper unless it is adjusted to meet the individual requirements of the person carrying it. You cannot make this adjustment yourself. Only a skilled watchmaker can do it for you. A variation of one one-thousandth part in the vibration means a gain or loss of a minute and a half a day, and a watch which varies that much is useless as a good timekeeper. And so we are just as careful to select good jewelers to sell our watches as we are particular to make good watches to sell. SOUTH BEND watches are sold only by reliable jewelers who are competent to properly adjust them. No extra charge is made for this service. The manufacturer will not allow a SOUTH BEND watch to be sold in any other manner. Every SOUTH BEND watch sold is carefully looked after by an authorized representative of the SOUTH BEND Watch Company, who knows how to care for the watch in such a manner as will furnish the greatest amount of time-keeping service.

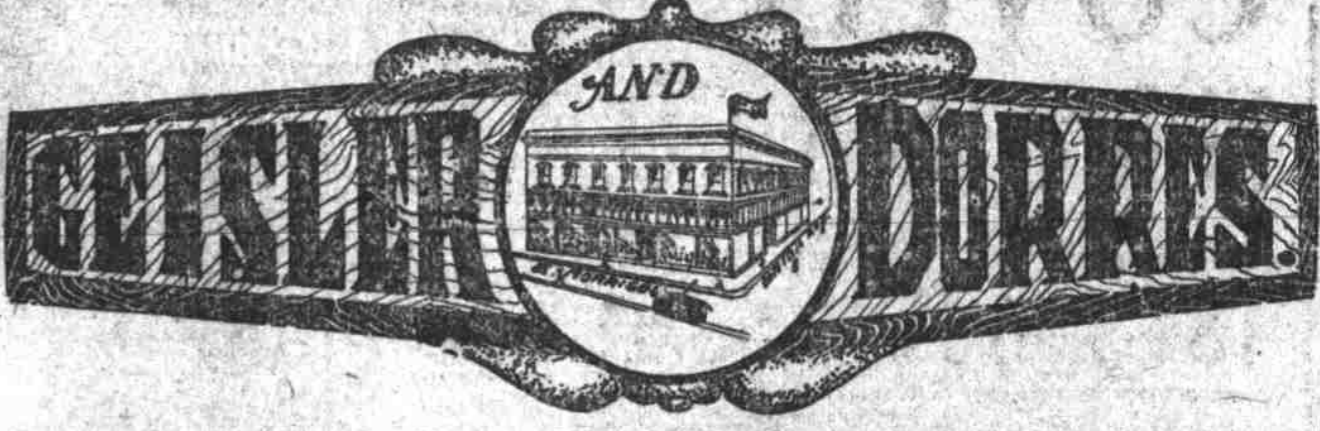

A SOUTH BEND Watch

No other watch you can buy can possibly give the service that a SOUTH BEND watch does. Your jeweler will gladly show you this beautiful modern watch and tell you all about it. He will explain to you why SOUTH BEND watches keep time better than any other watch. If your jeweler is not one of our 10,000 authorized representatives, send us his name and we will take the matter up with him personally and send you, free, our handsome book, "How Good Watches Are Made," and a little device showing how a SOUTH BEND watch adjusts itself to every temperature.

The Second is that every jeweler who sells

CLEVELAND'S HEALTH RAPIDLY IMPROVING

Lakewood, N. J., May 16.—Mrs. Grover Cleveland announced tonight that Mr. Cleveland was appreciably stronger than he was a week ago. For the first time in many weeks both Dr. Lockwood and Dr. Bryant were absent from the sickroom, leaving the patient in charge of the nurses. Dr. Lockwood returned to Lakewood today and will remain with Mr. Cleveland until Monday.

"Mr. Cleveland is steadily growing better," says the statement which Mrs. Cleveland issued.

"Last year he had an attack very similar to this one, from which it took him all summer to recover. We have made no arrangements to return to Princeton for the reason that the climatic conditions in Lakewood agree so well with Cleveland and it is possible to surround him with absolute quiet. His condition cannot be better."

COUNCILMEN GET LEMON

(Continued from Page One.)
make appointments to offices, the power of appointment being an executive function which is vested exclusively in that department of this city.

"I am of the further opinion that any act officially performed by his board of registers while operating under the authority vested in them by this ordinance would be unlawful and of no effect, and there is a possibility of the city becoming involved in litigation in consequence, should such board of supervisors registers and registers carry out the other provisions of the said ordinance.

"With a view to avoid having the city entangled in the complications which might ensue in consequence of an attempt to enforce this provision of the ordinance, every citizen in confidence in the intelligence and fitness for the position of the gentlemen named for such places, and to the end that the appointments of these persons shall be lawful and of effect and that they may legally carry out the will of the city in this matter of the regulation and licensing of automobiles and auto-cabs, I hereby notify you that I as mayor of this city have confirmed your suggestion of the names of Messrs. D. Inman, C. B. Brown and R. G. McPherson, and have appointed them as members of said automobile register in conformity with the provisions of the city charter of this city. Respectfully,
"HARRY LANE, Mayor."

No. 17553, of the name of R. D. Inman as a fit and proper person to act as a member of the board of automobile registers of this city, and do hereby appoint him as a member of such board. Respectfully,
HARRY LANE, Mayor.

Elr Comes in for Coal.
(Special Dispatch to The Journal.)
Astoria, Or., May 16.—The Norwegian steamship Elr, from San Francisco to Victoria, British Columbia, stopped in here this morning short of coal, hav-

ing been bucking strong head winds coming up the coast, thus running short of fuel. She will take on 60 tons at the Elmore bunkers, enough to get to her destination, and will leave out tomorrow.
