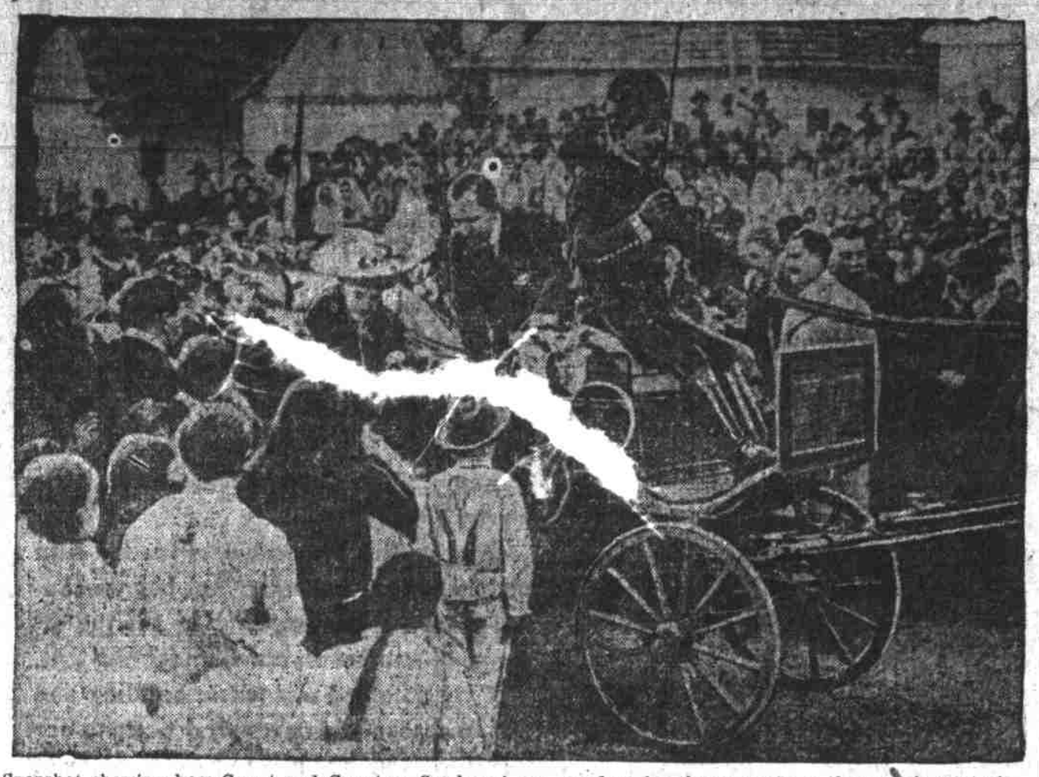
PEASANTS STARE AT COUNT AND COUNTESS.



Snapshot showing how Count and Countess Szechenyi are gazed at by the peasants on the count's estate in Hungary. The countess who was formerly Miss Gladys Vanderbilt, seems to be getting used to her husband's antiquated palace and his queer people.

ALL MANNER OF GOSSIP FROM "DEAR OLD CHICAGO"

Chicago, May 15.—This city will move June 15—officially. On that day its administrative officers and offices and the office cats, of which there are dozens, will leave the old city hall (and its millions of unofficial cockroaches), at La Salle and Washington streets, and go to temporary quarters at 204 and 206 Randolph street. The wrecking gang will at once be put to work on the old stone pile that has been Chicago's official home since 1884. The work of razing the old city hall and putting in the concrete caisson foundations for the new structure will be consolidated and is to proceed simultaneously. This will be a unique procedure in the history of public buildings, and is considered by optimistic citizens to mark an effort to handle city affairs in a business-like manner. It has been discovered that the stone in the old building is of such a quality that it may be crushed and used in making the concrete for the caissons for the foundation of the new structure. Samples of the stone will be tested in a stone crusher, and if it can be used there will be a big saving. Cook county was forced to pay $79,000 to get rid of the material in the old courthouse, the twin to the city hall, in preparing for the new one. In the new city hall, Chicago at last will provide public comfort stations, as is done generally in European cities. Two such stations will be put in the city hall.

The personal estate of John Alexander Dowie, "Prophet Elijah III," who builded cities, who established big industries, who dealt in millions and who held the financial destinies of his thousands of followers in the hollow of his hand—for a while—now proves to be reduced to $1,200, of which Mrs. Jane Dowie has been awarded $400 as her widow's dowry. The splendid robes of office have faded, the jewels have disappeared, the handsome furnishings of his home have been taken away by receivership, the erstwhile glories of the founder of Zion are memories only. Mrs. Dowie's memory of them has, however, prompted her to demand of the present receiver of Zion many items of personal property in Shiloh house, which she claims as her own. She has asked for the furnishings of her bedroom, for household articles, including "a pillow case containing 11 infant robes," garments of cherished maternal associations. She has asked also for a mahogany bedroom set inherited from Esther Dowie, her daughter, who was burned to death. The value of the real estate no one seems to know, and it may prove to be more valuable than is expected. Mrs. Dowie has a claim upon it. She and the son, Gladstone, the "unkissed Gladstone," according to his father, are now in the chicken business on the Michigan estate, Ben Mac Dhui, near Muskegon. Gladstone, incidentally, is practicing law and recently has shattered the belief his father fostered, that he was "unkissed," for evidently Prophet Elijah III did not know all that happened to his son. Gladstone is reported to have declared: "Of course I have been kissed; first when I was reasonably young, at school, and since then it has happened at reasonable intervals off and on, and I hope——." His gestures indicated his hope for other tender impresses in the days to come. He declares that he "come near being engaged once" in Zion City; that he may be again.

Every railway and lake transportation line entering Chicago is scrambling for a share of the big shipments of the grain that changed hands May 1, when the May deliveries were made and paid for under board of trade rules, and which now will go forward to its ultimate destination. The focus of this rivalry for traffic is the board of trade, for the grain and provisions bought and sold there run into tonnage figures which are enormous. The cured meats in 1907 totaled 753,259,255 pounds, and grain and flour 766,950,782 pounds. The figures incidentally throw new light upon the great legitimate business of such exchanges, which has been confused with the gambling done in their counterfeits, the "bucketshops" which have been persistently fought by them for years. In order to maintain a continuous market for livestock, the packing companies sell in the provision pits for future delivery those meat products which must be cured, and on which they need to borrow, as otherwise, for lack of capital, the record of 7,201,061 hogs and 2,305,314 cattle marketed for cash in Chicago in 1907 would not have been possible. About 4,000,000 bushels of grain soon will leave Chicago elevators, of which the lake boats have got about 2,000,000 bushels. The elevators here, with capacity of 63,000,000 bushels, will be practically emptied before the crops of this year are available, in fact, before part of the new crop has been planted.

Archbishop Glennon of St. Louis severely scored philanthropists who donate libraries and people who lecture on the child problem or engage in social settlement work "merely for the purpose of securing notoriety." In his address here he said: "There are today philanthropists—so called—who believe that by giving the people libraries that they might study out present day philosophy, they are accomplishing great good," said Archbishop Glennon. "And there are others who spend their time in social settlement work or lecturing or giving away their libraries and establishing their social settlements, but I want you to understand that philanthrophy divorced from Christ is not charity. The philosophy taught in your schools and universities today is just as brutal as it is repugnant. This philosophy of evolution, emanating from the brain of Darwin and Spencer, makes for brutality and retards progress. What is the use of struggling if there is nothing to be attained? Where is there an appearance of charity in this system? The strong succeed and the weak perish. Now what do you think of your university professors who urge this theory upon an unsophisticated people? And yet there are in this city 3,000 people known to you whose hands and hearts and lives are consecrated to God and to charity. These nuns move along as a great, silent force, and where in their lives do you find the law of evolution—a struggle for self? If that theory be the law of life, then these women are the world's saddest failures. The Sisters of the Good Shepherd are particularly worthy of mention, for their lives are devoted to the uplifting of the woman who has fallen into sin." Archbishop Glennon sees dread times ahead for our country, when the true merits of so called philanthropy will be tried in the balance of necessity. He asserted: "It is a recognized fact that we fast are reaching a social crisis, with our millionaire on one hand and the pauper on the other. When that day comes the philanthropist, sitting in his upholstered chair, will not answer to the occasion. He will be told that it is not a lecture that is wanted, but that it is bread."

Although Chicago's altruistic support of deep waterway projects won the next autumn's convention of the Lakes-to-the-Gulf Deep Waterway association, the city has lost in 10 years 10,000,000 tons of commerce to Milwaukee, Duluth, Cleveland and other lake ports because of its neglect of its own harbor. According to reports just made to commercial organizations here, the water in the Chicago river and the $53,000,000 drainage canal has become, by filling in of sediment, much too shallow for commerce. The reports have startled business interests here and seem likely to arouse them to effective action. According to figures submitted to the real estate board, the shallow water in the drainage canal was due to neglect to dredge the channel, and the choked channel was the cause of a back flow to Lake Michigan during freshets in February. The report gave the depth in some places 20 feet from the dock line at two feet. In the west fork of the old Chicago river, there was shown to be only 12 feet in several places. At other points the depth is 13 feet, with a maximum of 24 feet. During the past 17 years, except for turning basins, less than $450,000 has been expended in improving the Chicago river, and $91,000 of that amount was expended in the purchase of projecting land. The government engineer, Colonel Bixby, has put the tonnage receipts of the two harbors, Calumet and Chicago, baring iron ore, at 1,506,781 tons less in 1905 than was received in 1889 in the old river alone.

That the west is at last outstripping the east in the development of public utilities is evidenced by the selection of Chicago as the headquarters of the independent telephone interests and the chief manufacturing center for both Bell and independent apparatus. Twenty years ago the east was dominant in all lines of public service activity. The phenomenal growth of the country since then has reversed conditions. What this growth has been in one branch is interestingly summarized by a writer in one of the curent magazines. "The 'Bell' report for 1907 shows that there are now nearly 4,000,000 subscribers, or 'stations,' in that system," says the Saturday Evening Post. "The number of local messages averages 18,000,000 daily; the number of 'long distance' messages nearly 500,000 daily. Many more long-distance messages are sent by telephone than by telegraph. Gross earnings of the various 'Bell' exchanges amounted to $120,000,000 last year (comparing, for example, with $33,000,000 gross earnings of Western Union telegraph). The report gives actual value of 'Bell' plants and working capital as $589,000,000. If reports from the 'independent' companies were available these figures would be considerably enlarged; and this is nearly all a creation of the last 20 years."

By the time for the Republican convention in June, the downtown street car lines will be on dress parade, particularly those in Wabash avenue, on which the Coliseum is located. President Mitten of the Chicago City Railways company, has declared that the delegates shall see a sample of a perfect street car line. Rusty rails and antiquated cable slots are disappearing daily under the saws and picks of wrecking gangs; tracks are being removed, and track-laying gangs are hard at work all over the city. This year is expected to see the greater part of the "rehabilitating" completed. Welding cars furnish moving exhibits watched by curious crowds, in the process of uniting rails into a continuous bar of steel. It is done in three minutes. One car carries a sand blast, which cleans the ends of the rails; the next grips the steel while the electricity, passed through the metal, gives it a white heat. The generators for the current are part of the public exhibit on the third car.

I know the disease and weaknesses of men like an open book. I have been curing them for years. I have given my life to it, and thousands upon thousands of men, restored to VIGOROUS VITALITY, are today living monuments to my skill, knowledge and success. I never hold out false hopes. I never take a case I cannot cure. I have made so thorough a study of all the diseases of men—of VARICOCELE, STRICTURE, CONTAGIOUS BLOOD POISON, HYDROCELE, NERVOUS DEBILITY, GENERAL WEAKNESS, LOSS OF VITALITY, and have cured so many cases that if there is a cure for YOUR disease you will find it here. When I take a case there is no such thing as failure. I CHARGE NOTHING FOR CONSULTATION, and my knowledge, skill and experience are at your service. I will explain to you HOW and WHY I CAN CURE YOU (why the diseases of men require the knowleige and skill of a specialist).

Stricture Acute or chronic, cured quickly, safely, surely, without pain or loss of time or inconvenience. No matter how long standing or how complicated. I cure. I don't cut. My treatment removes every trace of the effect of early follies. My cures are simple, sure and permanent. It removes all obstructions and cures for all time to come.

Blood Poison I cure contracted blood poison. My record of past years, eradicating from the system and curing to stay cured afflicted men. Tainted blood, pimples and copper spots, patches and sores in the mouth, swollen or softening gums, tumors and ulcers of the skin, rheumatism, pains in the legs, chronic ulcers or tumors anywhere I cure in all stages.

Varicocele I CURE Varicocele quickly, safely, without danger or detention from business. MY METHOD is the safest as well as the most certain and satisfactory.

Nervous Debility I have cured thousands of cases of Lost Vitality, Physical Debility, Despondency, Pimples, Loss of Energy, Failing Memory, Palpitation of the Heart and Stunted Development. MY METHOD makes a quick, permanent and radical cure, without discomfort or detention from business

Private Diseases I cure all diseases of a private nature about which most people dislike to consult their family doctor, such as discharges, drains, eruptions and all contracted troubles. I cure them quickly.

Prostatic Troubles Some of the notable successes of my professional career have been in the radical cure of enlarged and inflamed conditions of the Prostate Gland. My treatment acts directly, reducing inflammation and irritation; it heals the gland, removes the obstruction and establishes free passage of the natural secretions, without pain or discomfort.

MEN

I Never Disappoint My Patients

When I Promise a Cure You May Rely Upon It That I Will Cure You

DR. TAYLOR, The Leading Specialist

The fear that you could not be cured may have deterred you from taking honest treatment. Or you may have been one of the unfortunates who have been treated in vain by inexperienced physicians, FREE TREATMENT, FREE TRIAL SAMPLES, PATENT MEDICINES, ELECTRIC BELTS and other similar devices. Such treatments cannot and never will cure you, nor will these maladies cure themselves. When I offer you a cure and am willing to risk my professional reputation in curing you, and have such FAITH AND CONFIDENCE in my continued success in treating these diseases that I WILL NOT DEMAND A DOLLAR UNLESS YOU ARE PERMANENTLY CURED and satisfied with a lasting cure, what fairer business proposition can be offered to the sick and afflicted? This should convince the skeptical, as I mean what I say and do exactly as I advertise. I am sure of SAFE AND POSITIVE CURES in the shortest possible time without injurious after-effects. My charges will be as low as possible for conscientious, skillful and successful services, and MY guarantee is simple and true. NOT A DOLLAR NEED BE PAID UNTIL CURED.

My Fee for Thorough Cure Is Only **$10.00**

IN ANY SIMPLE DISORDER, PAY WHEN CURED

No man could make you a fairer or more straightforward proposition than that. I make this offer because I KNOW that my methods will cure any case that I accept for treatment. Under no circumstances do I ever attempt to treat incurable cases. If I attempt to treat your case, therefore, depend upon it that I will cure you.

If afflicted you can depend upon it that the service I offer you is the service you need, and is service such as can be rendered by no other physician. Maybe you are one of the large number of men who think their case is incurable. Perhaps your own doctor has told you you could not be cured; but remember that is only because he did not understand your disorder and could not cure you. It did not mean that you could not get help from expert or experienced specialists.

I Cure to Stay Cured

By a method that involves no painful processes. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old conditions. It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. My method is perfect and quick. The cure is absolutely certain. I especially solicit those cases where many so-called treatments have failed—or where money has been wasted on electric belts and other appliances.

I Cure "Weakness"

"Weakness" in all its phases and in practically every case that comes to me for treatment is merely a symptom resulting from a state of chronic inflammation in the prostate gland. The inflammation may be a lingering result of some contracted disease, or may have been brought on by early dissipation, etc. In by far the greater number of cases the general health of the patient is perfect, there being no lack of either physical or nervous energy. No stimulants or tonics are needed, and if employed would only result in temporary excitement of the functions and positive injury to the tender and already disordered prostate. My treatment is a local one entirely. It removes all inflammation, swelling and tenderness from the prostate gland, establishes normal circulation throughout the parts, and restores permanently and completely all natural functions.

I Cure All the Diseases of Men

Such as lost vigor, specific blood poison, organic weakness, varicocele, stricture, hydrocele, piles and reflex ailments. Those suffering from varicocele, hydrocele, blood poison, or any other disease tending to destroy and disfigure and to render happiness impossible, are urged to call upon me without delay. Those wasting valuable time, dissipating their money and aggravating their ailment by submitting to indirect ineffectual, unscientific treatment that never did and never can cure, are invited to visit me and investigate my successful system. I positively guaranteed results in all curable cases, and frankly refuse to accept any other cases, if for any reason it is too late to guarantee a cure.

Free Consultation and Diagnosis

Call at the office, if possible, for free advice, examination and diagnosis. If you cannot call, write for Symptom Blank.

I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble. If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 a. m. to 9 p. m., Sundays from 10 to 1.
