TAINTED NEWS FROM THE RAILROADS.

THE railroads, having failed to either fool or scare the people, have taken a new tack. They are trying to break down the power and influence of the Interstate Commerce Commission.

the Corvallis paper, yet it says that "the principle involved in the statement is not in issue at all."

But the Corvallis paper ventures a suggestion which may also express Mr. C. C. Johnson's idea on the subject. It says: "There is some difference as to the better way of accomplishing this end."

They propose to be benevolent despots. They will take care of "their" people, and "their" territory, but in their own way.

What with extortionate rate advances, contemptuous disregard of the rights of the states, insolent defiance of congress, disregard of everyone's interests but their own, they are hastening the day of settlement.

A FRANK, BLUNT OPINION. AFTER briefly summarizing the senatorial campaign in Oregon, the Oregonian says:

Here the voters get it straight and plain at last—their attempt to choose United States senators, and the whole primary law, and the efforts to get rid of bosses and hoodlums and rings and slates, and to take a hand in choosing their public servants and running their own affairs—all this is "cheap and silly humbug."

Mr. C. C. Johnson indicates by his actions now that he agrees with this, though before the primaries he professed to be very much in favor of the primary law and Statement No. 1.

So, people, the fight has but fairly begun. The issue is in the voters' hands. They can establish and make permanent and effective the reforms that they have undertaken, or they can conclude, with the Oregonian, that it is all "cheap and silly humbug," and let matters revert to their old conditions, or worse.

ENLIGHTENMENT FROM CORVALLIS. THE Corvallis Republican claims to be in favor of the election of senators by direct vote of the people, and admits that the people of Oregon desire this change, yet it says: "Statement No. 1 does not present the proper method."

Letters From the People

FOREIGN people were selecting a man to appear before a congressional committee at Washington in the interest of the Willamette locks, would they choose Mr. Chamberlain, or Mr. C. C. Johnson?

quired to name one or the other of these men to stand for their interests before any tribunal or body, which would they choose? By the record of each, as it has been made and is perfectly known in Oregon, which would be the most resolute and purposeful representative and the most powerful and uncompromising advocate of the interests of the people of Oregon?

Seattle, May 6.—There are more Japanese in Seattle than in any other city on the mainland of the United States, and they are making their presence felt in the commercial life of the northwestern metropolis by rapidly pushing into every line of business.

As in the case of the Japanese in this community, it will be important to know what sort of impression they have made upon the people among whom they have come to live.

Good Service as Porter. A hahnkeeper who wanted a porter was he told that the fact that he had to depend upon the Japanese for this kind of work.

While the ambition of the Japanese to rise above the level of menial labor is to be commended, it is a pity that they remain in this same menial position for the class of work for which they are best adapted.

What is the difference between the Japanese and the Chinese? The Japanese are generally more intelligent and more industrious than the Chinese.

Chinese Pay Promptly. This particular Chinaman had been a tenant in years and had never been paid for the rent.

Small Change. Currency reform by this congress has become a stale joke.

Oregon Sidelights. Irrigan can, and does, produce the earliest strawberries of any place on the coast, north of California, asserts the Irrigan.

The Daily Menu. BREAKFAST. Creamed Potatoes, Boiled Eggs, Codfish Balls, Coffee.

VIRTUES OF WOODCUTS. Superiority of a Dying Art to Its Cheaper Successor.

From the New York Medical Journal. We are glad to learn that the Association of Women Principals of the Public Schools of New York is now up to certain important questions connected with the care of school children.

Many of the half-tone engravings are in a high degree artistic, and they are the advantage of presenting undeniable reproductions of photographic pictures, with all their good points and all their bad ones.

As a rule an engraving on wood is more expensive than a half-tone block, and doubtless that is one of the reasons why the way of a general return to the wood, but it ought not to prevent our taking all practicable steps to safeguard the children's eyes.

As a first lady in the land, Mrs. Taft would be most successful socially. For one thing, she is a woman of high character, and she is a woman of high intelligence.

As a matter of fact the Japanese are right up to date in official representation. They are not only well represented at home and abroad, but they are also well represented in the diplomatic corps.
