

ODD FELLOWS TO MEET AT ALBANY

Grand Lodge Selects Willamette Valley Town in Preference to Hood River.

(United Press Leased Wire.) Salem, Or., May 21.—Albany was selected for holding the next grand lodge of the I. O. O. F. The choice was made by the grand lodge in session this morning at the state house on the second ballot. Hood River delegation made a strong bid but lost out. The final vote was Albany 171, Hood River 113. On the first ballot the vote was as follows: Albany 137, Hood River 121, Eugene 100, and Astoria 11. Eugene and Corvallis withdrew after the first ballot was taken.

Election of officers occurred yesterday afternoon in order to dispose of that duty and prepare the way for consideration of a place for holding the convention next year. Usually the election of officers is left for the last place on the order of business, but was put forward. The result of the election was as follows: Edward Hostetter, The Dalles, was elected grand master; H. E. Cook, Le Grand, deputy grand master; Thomas Ryan, Oregon City, grand warden; E. E. Shanon, Portland, grand secretary (re-elected); O. D. Dean, The Dalles, grand treasurer (re-elected); Past Grand Master Richard Scott of Milwaukie was elected grand representative, and also made trustee of the Odd Fellows' home at Kenilworth in Portland.

Plan Parade. It is planned to complete all the grand lodge work by 2 o'clock at which time the parade will form. It is doubtful if the business of the session can be transacted by that time, but the attempt will be made. The attendance at the grand lodge this year has been greater than for several years. Salem's hotels and boarding houses are crowded. Large delegations have received the degree in both the Rebekahs and the Odd Fellows. A class of over 200 was initiated by the former and 195 by the latter.

Rebekahs Election. Election of officers also occurred in the Rebekahs grand lodge yesterday afternoon with the following results: Mrs. Mary E. Smith was elected grand president; Mrs. Cora E. Hubbard, grand vice-president; Mrs. Addie Groul, grand warden; Mrs. Cora E. Hubbard, grand secretary; Mrs. Eda Jacobs, grand treasurer, and Mrs. Lizzie Howell, selected trustee of Rebekahs in grand lodge officers were installed this morning. The second day of the convention closed last night with a parade in the drizzling rain of the Muscovites, after which the bears hold high links and a banquet in the Elks' hall. Chemeketa lodge No. 1 also held its regular meeting last night, which was attended by large numbers of visiting delegates. There was also a social given by the Rebekahs and other visitors in the state-house. This afternoon the convention will be concluded with a grand parade, if the weather permits, and by evening a great majority of the delegates will be on their different ways homeward.

DISCOVERS CURE FOR DIPHTHERIA

Dr. Ernest Jentzsch Injects Lobelia, a Poison, Into Patient's Veins.

(United Press Leased Wire.) Chicago, May 21.—Dr. Ernest Jentzsch has sprung a surprise in medical circles by the announcement that he has discovered a treatment which is an absolute cure for diphtheria. With this remedy, which he calls a "vegetable antitoxin," or lobelia, he claims to have cured 150 cases of diphtheria by administering it hypodermically. Although lobelia is known as a poison among physicians, Dr. Jentzsch has demonstrated that it is harmless when it is used in this way. At the request of a physician attending a meeting of medical men at which he announced his discovery Jentzsch injected 30 drops of the antitoxin into his body. Not one of the physicians and ever before heard of the use of lobelia as a cure for diphtheria.

STATE UPHELD IN HUME DECISION

Legislature Competent to Exact License for Canning Salmon.

(Salem Bureau of The Journal.) Salem, Or., May 21.—Affirmation of the case of the state vs. R. D. Hume by the supreme court makes it obligatory upon the defendant to pay a fine of \$500 for canning salmon in hermetically sealed cans, a horticultural act, secured the proper license from the state. The conviction was secured by a deputy game warden in Curry county and the case was appealed on an alleged error made by the court. Hume, through his attorneys challenged the validity of the law licensing salmon canneries, on the ground that the law was not within that function of the legislative powers defined as police regulation. The attorneys contended it was the intention of those who framed the law that it was to be a means only of raising revenue, and therefore was unequal in its operation and violated the organic law of the state. The supreme court held that it was properly under the category of police regulation and not invalid.

BERKELEY SCIENTIST SAVES YOUNG ROSES

(United Press Leased Wire.) San Francisco, May 21.—Congratulations are pouring in on Hugo Lilienthal of Berkeley, a horticulturist of note, on his discovery of a method of saving young roses from mildew, which means that from 50 to 75 per cent of roses grown will be preserved from destruction. Lilienthal has informed Secretary of Agriculture Wilson of his discovery. The method is a grafting of tender slips upon the dog rose, the graft entering the dog rose bark obliquely but not entering the cortex. The dog rose, having hard glossy leaves, able to resist the attack of the mildew, protects its little proteges and lends them some of its own hardness.

Politics and Politicians

Democrats of Louisiana will meet in state convention at Baton Rouge, June 1 to select delegates to the Degrer convention and Indiana Bryan for the presidential nomination. The Prohibition party in Texas has called a mass state convention to be held in Dallas, May 26, for the purpose of selecting 32 delegates to the national Prohibition convention, to be held in Columbus, Ohio, next month. The National Association of Manufacturers, representing investment capital to a total of at least \$15,000,000, will take part as an organization in the coming national and congressional campaigns. John P. Swasey has been nominated by the Republicans of the Second congressional district of Maine to succeed Congressman Charles F. Littlefield, whose resignation will take effect in September next. "Uncle Cy" Leland has gathered about himself a battery of original big guns in aid of his candidacy for the Republican nomination for governor of Kansas at the primaries next August. President Manuel Calera of the lower house of the Mexican congress a party of friends will attend the coming national Republican convention in Chicago to inaugurate the party nominations are made in the United States. W. S. Cowherd, candidate for the Democratic nomination for governor of Missouri, says he expects to carry practically all of the Democratic counties of the state in the primary and a good many of those that are not reliably Democratic.

Among those who are now receiving mention for the temporary chairmanship of the Democratic national convention are Henry C. Clayton of Alabama; Governor Joseph W. Folk of Missouri; former Governor David R. Francis of Missouri; Theodore E. Bell former congressman from California; Congressman Ollie James of Kentucky, and John E. Lamb, of Indiana.

Representative Burton of Cleveland is said to have been selected to make the nominating speech for Secretary Taft at the Chicago convention. Representative Burke of Pittsburg, will probably perform a similar service for Senator Knox, and it is understood that General Woodford will make the speech placing Governor Hughes in nomination. The name of Cannon oratorical champion has not been made public.

One of the most exciting political campaigns that Georgia has experienced since the Civil war is now at its height. Several issues, such as railroad regulation and the disfranchisement of the negro, are involved, but these have been almost entirely lost sight of in the more absorbing dispute as to the success of and practicability of the state prohibition law that was passed last summer.

A new national organization, with a membership of approximately 60,000 concerns allied with the liquor business, will be formed at the convention of the United States Brewers' association in Milwaukee next month. The organization will be composed of the masters, manufacturers of brewing machinery, dealers in brewing supplies, contractors, wagonmakers, etc., and the object will be the making of an organized fight on the prohibition movement.

Practically two and one-half floors have been engaged at the Auditorium hotel for the accommodation of the Hughes boomers at the Chicago convention next month. Reception rooms and parlors will be included in the headquarters. Here the Hughes boomers will keep open house, dispensing ice water, sodas and beer to all comers. The quarters will be opened several days before the convention is called to order.
