

SAILORS VISIT BELLINGHAM

Visitors Flock Into Puget Sound City to See Naval Parade.

(United Press Leased Wire.)
Bellingham, Wash., May 22.—With box cars attached to all the night trains, so that the thousands of visitors from the neighboring towns could reach the city in time for today's fleet celebration, Bellingham awakened this morning with 75,000 enthusiastic visitors within her gates. From early morning a continuous procession of vehicles of every description have brought in their loads of happy country folk adding thousands more to the number of visitors.

Before 8 o'clock the landing parties consisting of a battalion of bluejackets from each ship, were piped to quarters, and a half hour later with the same precision as though marching from an armory trooped down the ship's gangways to the small boats bobbing alongside. Thousands of spectators were massed along the waterfront to watch the sailors disembark.

Promptly at 10 o'clock, under command of Captain Potter of the Vermont, the long column of stately sailfighters swung into Elk street from the landing stages. The line of the parade was between solid banks of wildly cheering people who gave vent to their patriotism in a demonstration such as has not been witnessed since the fleet dropped anchor in Pacific waters.

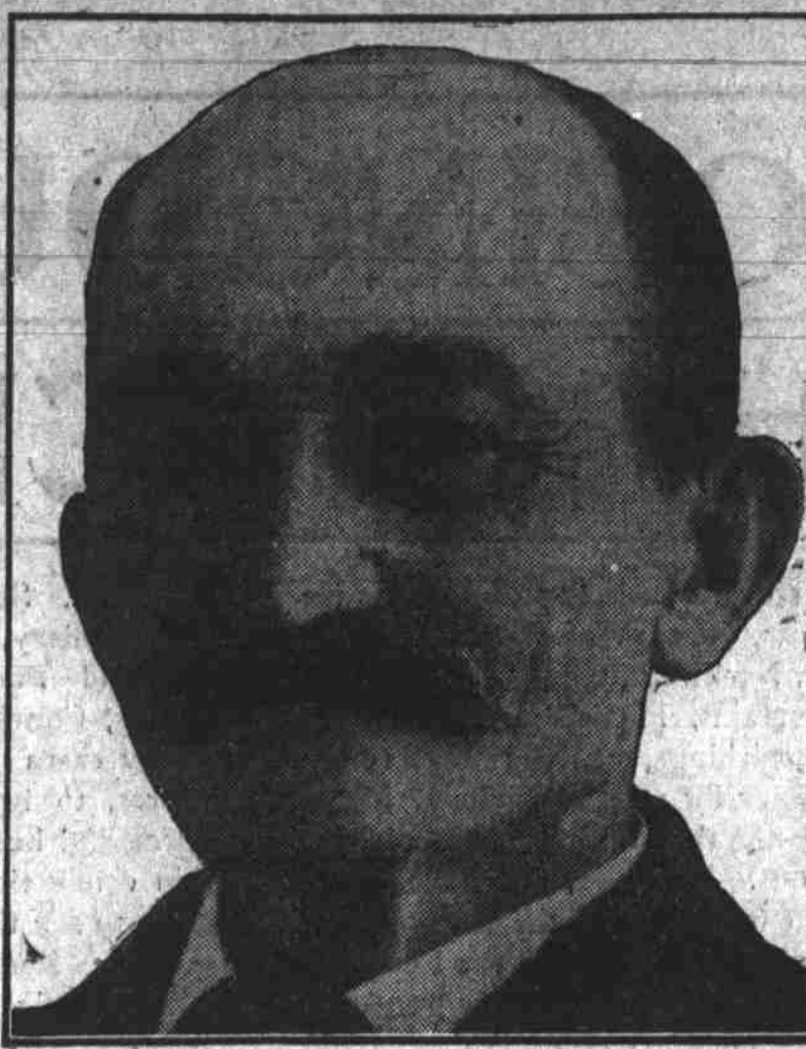

This afternoon at 3 o'clock a baseball game will be played between a team from the Connecticut and the Bellingham league team which will be attended by several thousand sailor rooters. Tonight 1,000 enlisted men will attend a theatre party tendered by the city while others will be entertained with a dance at the White City.

The attention of the enlisted men of the fleet has elicited the warmest commendation from Admiral Sperry and the fleet commander.

The social event of the fleet visit will be the officers' ball at Fairyland rink this evening. The elaborate display of fireworks will be given by the Japanese and Chinese residents this evening.

The warmth of this initial welcome to the honor of the fleet and the approaching visits to Seattle and Tacoma are being looked forward to with pleasurable anticipation.

Headache and Indigestion

MR. FREDERICK BINDENBERGER.

Mr. Frederick Bindenberger, of Cranford, N. J., who is 73 years of age, thought he was too old to work at his carpenter trade, as he was troubled continually with headache, indigestion and pains which seemed to be rheumatic.

On the advice of a friend Mr. Bindenberger started taking Duffy's Pure Malt Whiskey, which completely cured him. He now has a good appetite and can do as good a day's work as any man.

Recently Mr. Bindenberger wrote:—"Previous to three years ago I thought I was too old to work any more at my trade as a carpenter. I was tired out, had what seemed to be rheumatism in my back and shoulder, had indigestion, headache and was pretty generally broken up. I was advised by a friend to take Duffy's Pure Malt Whiskey, so I bought a bottle. I kept getting better; what seemed to be rheumatism left me; my appetite came back; I began to feel like doing something, so I went to work and have worked ever since, taking Duffy's Pure Malt Whiskey every day. I have only lost four hours since last November, and that was on account of the snow being too deep to get to the shop until noon. I feel as young as I did thirty years ago and can make more of the younger ones hustle. I will be seventy-three years old next August if I live until then, and I guess I will.

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It cures nervousness, typhoid, malaria, every form of stomach trouble, all diseases of the throat and lungs, and all run-down and weakened conditions of the body, brain and nerves. It is prescribed by doctors and is recognized as the great family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Price \$1.00. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Write Dr. R. Curran, Consulting Physician, for a free illustrated medical booklet and free advice. Duffy Malt Whiskey Co., Rochester, N. Y.

LILLEY MAY BE GOVERNOR

Will Not Be Expelled From Seat in Congress Because of Politics.

(United Press Leased Wire.)
Washington, May 22.—The probability that Representative George Lilley, recently severely criticized by the congressional committee which investigated his charges against the Electric Boat company, may be elected governor of Connecticut next November, may result in the delay of the contemplated action looking to his expulsion as a member of the house.

Since the Lilley charges have been declared groundless strong opposition to the Connecticut member has developed in the lower branch of congress. John Sharp Williams, minority leader, is said to have already prepared a resolution asking for Lilley's expulsion and that it may be introduced before the house adjourns. However, the Republicans appear to feel more kindly toward Lilley, and after Lilley's return to his constituency have decided not to vote for his expulsion during this session. It is said that they have taken this attitude because reports have reached Washington to the effect that the representative has excellent chances of being elected the chief executive of his state. Hence they are willing to give the matter a "dignified delay."

CAKE SILENT ON STATEMENT ONE

His Attitude Best Possible Vote-Maker for Chamberlain in Malheur.

(Special Dispatch to The Journal.)
Ontario, Or., May 22.—H. M. Cake, Republican candidate for United States senator, addressed a fair-sized audience here last night. His address was conspicuous for his failure to make any reference to Statement No. 1 and displeased many Republicans, as the majority of the Republicans of the county are for Statement No. 1. It was claimed that his failure to mention Statement No. 1 was out of consideration for W. H. Brooke, the Republican candidate for representative, who is opposed to Statement No. 1.

It is conceded by Republicans generally that Cake's attitude and his speech generally will give the county to Chamberlain in June by 250 majority.

Not nearly so large an audience greeted Cake as Chamberlain at this place.

CORONER'S MEN CALL CAMPBELL MURDERER

(Special Dispatch to The Journal.)
Astoria, Or., May 22.—The coroner's jury impaneled to inquire into the cause of the death of John McClellan has rendered the following verdict:

"We find that he came to his death at Deep River, Washington, from wounds inflicted by a gun in the hands of one Michael Campbell, with intent to kill, and we charge said Michael Campbell with the crime of murder."

Same crisp, brown flakes every morning—
Post Toasties
—Delicious with cream.

FIRST EXHIBITION BY MANUAL TRAINING BOYS

Alex Lange and His Chess Table.

Tap, tap, tap, bang—30 happy boys hammering and filing and sawing and polishing, with twice as many proud mothers and aunts and just a few proud teachers looking on. It was the first annual exhibit of the manual training classes of the Holladay school, and to say that it was a success isn't giving the affair half credit enough. Work that would do credit to any shop and that far surpasses much of the commercial handiwork turned out, was on exhibition—all the result of the hour and a quarter a week spent by the children of the school in the manual training work.

The exhibition only lasted through yesterday afternoon, but it was very well attended. Principal Jenkins of the Holladay school, W. J. Standley, supervisor of manual training, and M. G. Steele, instructor in manual training, were in charge and showed those who came to see the pupils' work through the building. Visitors were greeted at the door by a cheerful youngster and the invitation to "Butt in," which, when accepted, revealed a large room and over a score of boys ranging from 8 to 15 years, hard at work at the tables, busily cutting out patterns with scroll saws, working the wood vises with the skill of ancient carpenters and hammering away busily at embryo tables, hat racks, stands and numerous other wooden and metal articles.

Girls Spectators Only.
There were a few girls present—but very much in the background and only allowed in on sufferance to see what their older, or perhaps, dreadful disgrace—youngeer, brothers had been doing. The girls have their sewing classes, but the manual training work is strictly confined to the boys of the school.

When it came to picking out individual exhibits the work of referees became arduous. Nearly all the older boys are working to secure a place in the Honeyman competition prizes. One self-doubting kid made a stained wood writing desk—the young devils of William

Morris had fashioned it entirely with his own hands and it is a thing of art—but he was ashamed to have it on exhibition. Mr. Standley insisted, however, and thinks it stands a very good show of winning a prize. Then there is a chess table, which Alex Lange, who is 12 years old and who takes the pupils in every branch of their school, in their textbooks. They can't see why such a problem in mathematics is of importance when they read it as a rule in their textbooks. They can work over a problem and if they get a wrong answer they can't see what difference it is going to make in the end. But give them the actual material to apply their rules to and they soon see what a mistake results in; that it means that all their labor and the wood with which they have been trying to make something concrete and useful must be thrown away. The consequent improvement in all lines of study following the lessons learned in the shop is marvelous.

A great variety of objects was on exhibition. Mr. Standley has had printed a textbook on tool work for the grades in which a systematic course is laid out for the pupils, beginning with the simple scroll work and ending with the hinge cabinet and inlaid work. The Lange boy's table has been carefully inlaid with the checker squares, the work showing almost flawless. An inlaid hat rack, made by Willie Raser, showing the contrasting Spanish cedar and black walnut will be one of the pieces entered for the Honeyman prizes. There were some unique birdhouses, showing not only careful and painstaking

work, but a real susceptibility to purely classical lines; tables all carefully hand-made and hand-polished; carved wood pieces and electroliners and cabinets in many styles.

It's the first exhibit of the kind the Portland public school children have made, but the Holladay school intends making it an annual feature of the spring term after this.

YOUNG FISH IN BROKER'S OFFICE

Youth Reported to Have Eloped With Miss Harriman.

(United Press Leased Wire.)
New York, May 22.—Stuyvesant Fish Jr., who has been reported missing in various newspaper stories, was found today employed as an ordinary clerk, in the offices of the William Solomon company, bankers and brokers, a big stock exchange firm which has much to do with the financing of the Western Pacific Railroad company. Young Fish went west after he left Yale and worked in small railroad offices in Oklahoma and Texas. It was reported from Houston a few weeks ago that he had eloped with the daughter of his father's financial enemy, E. H. Harriman, and since then a search for him has been continued. It is said today that Stuyvesant Fish Sr. told his son that he had better come back from the west and go to work in Wall street, as that was the best place to learn the foundation of the railroad business.

Young Fish today said: "I never just earning my living here and I don't want to talk about it. Besides, it's stale, my being here. I have held this office for some time now, and the newspapers have just found it out." The reported alliance of the Fish and Harriman families was without foundation.

FOREST GROVE COLTS MEET O. R. & N. NINE

(Special Dispatch to The Journal.)
Forest Grove, Or., May 22.—The Forest Grove Colts will cross bats on the local diamond with the O. R. & N. nine of Portland next Sunday. Manager John Wirtz has arranged a series of games to be played with teams from various parts of the state and the fans here are looking forward to a season of baseball that will rival that of last year, when the Colts, with one or two exceptions, defeated every team they played against.

BEWARE OF PHYSIC

Only Aggravates Stomach Trouble and Never Cures.

The trouble with most people who have stomach trouble is that they do not like to take the time to get cured; they overeat and eat unwholesome food, which simply upsets the stomach.

While you can get relief from one or two doses of medicine, it is not to be expected that a trouble which has been coming on for years can be cured in a day. Chronic and long standing cases of stomach trouble need at least two or three weeks' treatment before the sick headaches, dizzy spells, bloating, heartburn and other symptoms that directly result from indigestion, are banished never to return.

Mi-o-na is far different from the usual digestives which have been used in treating stomach troubles. It is taken before each meal stimulating the secretion of the digestive juices and strengthening the whole system, so that the stomach itself does the work of taking care of the food which is eaten, without distress or suffering.

No discovery in medicine in recent years has been of greater value than the prescription of Mi-o-na stomach tablets. It is today the acknowledged specific for the treatment of stomach diseases, and is relied upon as a certainty in relieving the worst cases of indigestion and mal-assimilation, and making a complete cure. The strongest proof that can be given in support of the claims of Mi-o-na will cure the worst form of stomach trouble (cancer excepted), and relieve the worst case of the acute indigestion of the guarantee Woods & Looney Co. give with every 50 cent box of Mi-o-na, to refund the money unless Mi-o-na cures.

Russian and Sailor Suits from \$2.65 to \$8.50. Boys' two-piece and Norfolk, knickers and plain pants, finest worsteds and serges, from \$3.15 to \$12.50.

TOWNSEND WILL VISIT PORTLAND

Much Speculation as to Proposed Trip of Special Prosecutor.

(Washington Bureau of The Journal.)
Washington, D. C., May 22.—B. D. Townsend leaves in a few days for Portland, stopping enroute a day in North Dakota. He will confer at Portland with government officials. Townsend held a conference with Attorney-General Bonaparte today.

The announcement from Washington that Townsend is coming to Portland

has led to the speculation as to whether he will supersede Tracy R. Backer in taking charge of the government suit in regard to the cancellation of the Southern Pacific land grant. Townsend's many friends believe that he will not participate in the case unless he is in complete control and it is known that powerful influences have been at work in his behalf.

Townsend has done practically all of the work thus far in preparing the facts, gathering law points and securing data to be used in the forthcoming trial. In addition to this he has, as stated in the Washington dispatch, handled the work of getting the bill through congress and permitting the government to sue the company. In fact it was due to Townsend's urgent requests that the department of justice pursued such a policy of expediting congressional consent before bringing suit, that such a policy was adopted.

The announcement from Washington indicates that the suit against the Southern Pacific will be brought at an early date and it promises to be one of the greatest legal battles ever fought in the federal courts. The amount at issue involves an empire of 3,000,000 acres worth between \$50,000,000 and \$55,000,000.

MAE WOOD DECLARES SHE WILL NOT ADMIT CHARGE OF PERJURY

(United Press Leased Wire.)
New York, May 22.—"I'll rot first!" shrieked Mae Wood today in her dark prison cell when she was asked if she would plead guilty to the charge of perjury on which she was arrested as the result of her divorce suit against Senator Thomas Collier Platt.

"Out of respect for his advanced age," Mae continued, "we left the strongest points out of our case, but next time everything will come out all right. Senator Platt threatened my life on four different occasions if I uttered a word about his marriage to me. He is a powerful politician and has lots of money. That is why I am here. I haven't got any money at all, so that if I win ultimate victory it will mean everything to me."

F. H. Jameson, a wealthy cattleman of Cody, Wyoming, is in the city and expects to remain to see the Rose Fests.

FOR THE NEWEST IN WEARING APPAREL VISIT "THE STYLE STORE"

Your Fiesta Apparel

Portland women will blossom as the rose during Fiesta week. All can be beautifully attired, at most moderate cost, by observing these suggestions: We have just received a new shipment of beautiful Fiesta silk and wool suits, hats, gloves, shoes and daintiest lingerie and summer silk waists especially chosen for the Fiesta week by our eastern buyer. Make your choice early and be prepared.

Fiesta Dresses for Schoolgirls

Have the pleasure of seeing your little girl prettily and stylishly dressed without any work to yourself, by buying her white dress ready-made. We have them in all the dainty summer lawns, dimities, etc., well made, beautifully trimmed, in all sizes, very reasonably priced. See them at once.

Madras Curtain Special

Tomorrow (Saturday) night, we will sell our fine silk and linen Madras Curtains, 2 or 3 pairs of a kind, reduced to less than half. Good selection of patterns from which to choose.

Regular \$9.00 Values for \$4.35
Regular \$15.00 Values for \$7.35
