

BIG PARADE WILL SHINE WITH HANDSOMEST STEEDS ON COAST

Some of the handsomest horses on the Pacific coast will be seen in the parade of the Portland Hunt club during the Rose Festival next week. W. M. Davis, who is in charge of the horse and carriage parade, has appointed as his aides F. O. Downing and Ambrose Cronin and the backers of these three experienced horsemen the parade should be one of the chief events of the week.

AMBROSE CRONIN

club will act as escorts to the King of the Festival on his triumphal march from the river to the arch of welcome, and the Junior Hunt club has arranged a very natty uniform for use in the parade.

The Riverside Driving club has extended an invitation for all who wish to enter the parade to join them and

to drive under the colors of the club which will be furnished gratis. Reports from the floats and decorated vehicles that are to take part in the parade show that there will be hundreds of handsome floats and carriages in Thursday's parade and that it will undoubtedly be the daylight feature of the festival week.

MADE GOOD ONCE, NOW WANTS OFFICE AGAIN

Tom Word Tells Why He Asks Support of Multnomah's Voters in the Race for Sheriff—Does Not Wish Profit From Prisoner's Meals.

Tom Word is carrying on a very active campaign for the office of the sheriff of Multnomah county. His activity in bringing him and his friends great encouragement. At all the meetings he has addressed in the county he has been received with great cordiality and many new and old friends have dropped in at headquarters and promised all the help they can. It looks to many conservative backers of the county official that he has the best of the race now, and that he will finish a winner at the polls.

Mr. Word has prepared the following letter addressed to the voters of Multnomah county: "Four years ago you elected me sheriff of this county. I promised you a clean business administration of the office, and I made good. I made no weight in the balance and not found wanting. I closed the gambling halls and gave of Portland all manner of inducements were offered for a permit to run the games wide open. They did not avail. The persistent fight made by law enforcement and the betterment of civic conditions was waged against the gamblers and dive keepers from a platform of duty, for public decency and the protection of our homes. The combined 'open town' element

institution in order that the common school might have more money. The same spirit that thinks a fourth-class school at our highest state institution is good enough is liable to hold the same standard applicable to our common schools. The University of Oregon should be given all that is needed to give it first-class equipment and to retain teachers of the highest standard. The appropriation should be placed on a permanent basis, taking it out of public funds and trade in the legislature.

Don't Drive Students Abroad.

"Oregon, with its rich natural resources, does not want a bargain-counter equipment nor inferior teachers. The best is none too good for a state like ours. Defeat the university appropriation, make it necessary for our boys and girls seeking a higher education, and who may be able to pay the price, to go to Seattle, Berkeley, Stanford for the same, and we advertise our people's refusal to stand by their own." "I am a candidate for election to the office of sheriff of this county and ask your endorsement upon my record. If elected, I will try to do better than I did before."

"TOM M. WORD."

asked in regard to his pledges to be satisfied with a flat salary, Mr. Word said: "Yes sir. I mean just what I say in that letter. My salary shall be \$4,500 a year, and no more. The county court can't board its own prisoners without a cent profit to me. And more, I am so well pleased with the work that is being done by the prisoners at Kelly camp that I would like to see the county court shall not only have the custody of the prisoners at that place, but also appoint the guards."

BATTLESHIPS IN IMPOSING ARRAY

(Continued from Page One)

was to symbolize the welcome extended by Seattle to the men of the battleships. It was enclosed in a handsome mahogany box embellished with the stars and stripes of a rear admiral, an anchor, a shield and the gold monogram of Admiral C. S. Sperry.

In accepting the key Admiral Sperry said in part: "As President Roosevelt has said, ships cannot fight alone. The vessels must have men who feel that ashore there are millions of people who appreciate their services. When fighting must be done, they will go into battle cheered by the thought of the kindly acts of the American people whose patriotism and good wishes will spur them to better effort."

Men Visit City.

After the formal welcome thus given the fleet, the men of the various warships put off in small boats to visit the city, and at the pier members of the Young Men's Christian association were present to distribute a portion of the 60,000 streetcar tickets provided for them. These were eagerly received and the blue jackets went "seeing Seattle." About 8,000 theatre tickets had also been provided and a portion of these were given out.

The vast crowd that has gathered today is one of the most orderly known in the history of the city, the police blotter recording less than 50 arrests for the entire day.

Tonight the 13 battleships are lighted and with their searchlights playing over

the city they bring forth exclamations of delight on every hand. The city itself is brilliantly lighted in unique electrical effects and the crowds are so great that a portion of the concourse is compelled to walk in the streets. The Japanese fireworks display has progressed all evening and thousands are watching it from the hills and shores across the bay.

COLLAPSE OF AIRSHIP

(Continued from Page One.)

around the ground saw the airship pitched in a distorted heap almost in the same spot from which it had arisen a few minutes before, moans and cries of pain issuing from the stricken vessel together in the disarrayed stretch of twisted mechanism and shrouded canvas.

NARROWLY ESCAPES DEATH WHEN AIR MACHINE COLLAPSES

(Heard News by Longest Leased Wire.)

Toledo, Ohio, May 23.—Falling in his disabled airship a distance of more than 1,000 feet into Centerfield bleachers in armory park, A. Roy Knabenshue and his two assistants, Hess and Hamilton, barely escaped death this afternoon because the powerful engine that drives the ship suddenly stopped and refused to start again.

UNIVERSITY POOR MAN'S BEST HOPE

(Continued from Page One.)

laboring men, though poor, as in that of successful professional and business men, but the proper education and the force of circumstances been denied them. There are two things that do too much money. If properly applied, cannot be extended, for good roads and good schools.

"A look at the names of those who control the University of Oregon affairs ought to satisfy any person that none but proper expenditure would be allowed by that body of men. The University of Oregon should not be held down to the standard of a fourth-class

GOVERNOR CERTAIN OF BIG VICTORY

(Continued from Page One.)

to Statement No. 1. Even if Chamberlain should receive the popular vote on June 1, the victory will be a barren one unless a majority of the legislators are pledged to carry out the people's will. For this reason it is imperative voters should vote only for legislative candidates who are absolutely committed to this principle.

Four Killed in Washout.

(United Press Leased Wire.)

Wichita Falls, Texas, May 23.—Railroad and farm property was badly damaged by a cloudburst and washout here today. A washout 10 miles from here wrecked a train and four passengers were killed.

CONDENSED MILK FIGHT ON COAST

Borden Concern Meets Pacific Company's 40-Cent With a 43-Cent Cut.

(Special Dispatch to The Journal.)

Seattle, May 23.—The Borden Condensed Milk company, through its coast representative, Johnson & Leiber, announced today that the deal whereby one case of milk was given free with every 10 cases purchased, a cut of 43 cents on the case from the uniform price, has again been made effective, and that the concern will begin an active campaign for business on the coast. The Pacific Coast Condensed Milk company cut the price 40 cents per case on Thursday, and now the Borden concern proposes to fight to the limit. Both firms state there will be interesting developments, from the buyer's point of view, in the coming struggle.

CHICKS HATCHED IN WARM TOOL BOX

Workman, Who Forgot His Eggs, Now Has Good-Sized Brood.

Pittsburg, May 23.—Six weeks ago a workman in the Pennsylvania repair shops in Allegheny left two dozen eggs in an abandoned tool box in the roundhouse.

Steampipes go through the box. All over the eggs a layer of soft coal soon settled. Three weeks ago 14 sooty chicks arrived. It was found that the steam pipes kept the temperature of the box at 103 degrees. Today a second batch of 28 chicks appeared, sooty, but healthy. Another batch is being prepared. Bored among the clanging noises of the round-house, every chick, so far discovered, is dear.

SEATTLE FAIR ITEM SETTLED

Sundry Civil Conference Makes It \$650,000—No Coast Cutter.

(Washington Bureau of The Journal.)

Washington, May 23.—The final report of the conference committee on the sundry civil bill cuts the Seattle fair appropriation to \$650,000, divided into \$200,000 for a government exhibit, \$300,000 for buildings, \$100,000 for Alaskan exhibits, \$25,000 for Hawaiian exhibits and \$25,000 for Philippine exhibits.

A board is provided, of three members, to be men now in the employ of the government, one of whom is designated as president, one as secretary and one as disbursing officer. The fair forces have been led by Henry E. Reed, a Portland man, who is director of exploitation. The Seattle victory was won against great odds.

The report also cuts out the \$250,000 item for a revenue cutter for the coast, Fulton's item, and leaves in \$25,000 for the survey of the boundary between Washington and Idaho.

THESE TEDDY BEARS ARE FOR THE FLEET

(Special Dispatch to The Journal.)

Aberdeen, Wash., May 23.—Great interest has been manifested in the collection of live bear cubs that has been made here for the purpose of presenting one to each vessel of the fleet as a mascot. The teddys were all gathered together and taken to McKenzie's photograph gallery for the purpose of taking their pictures as souvenirs for distribution. They were taken individually and collectively, and proved most interesting but decidedly lively subjects. It required several men to assist Mr. McKenzie and the work of getting the pictures took up most of the morning. The cubs and their object form almost as much the topic of conversation in Seattle as the long-anticipated arrival of the fleet.

DRESSER SALE

Dressers! Dressers!! Dressers!!!

Bed Rock Prices!
