FOUR ARE ARRESTED

San Francisco Authorities Confident Oakland Dynamiters, Encouraged by Success, Have Transferred Operations to That Side.

(United Press Leased Wire.)

San Francisco, May 28.—Fear that the dynamiters who blew up three houses belonging to former Supervisor James L. Gallagher in Oakland Tuesday night and escaped without leaving a clue for the police, encouraged by their success have transferred their operations to this city today led the officials connected with the graft prosecution to redouble their means of protection and to pursue with renewed vigor the apparently fruitless effort to trace the men who "did the work."

District Attorney Langdon, his assistant, Francis J. Heney, and Special Agent William J. Burns, are convinced that the same man who blew up Gallagher's home in April set off the dynamite Tuesday night, and they say they are positive the object is to intimidate witnesses as well as prosecutors in the graft cases, and that they are prepared to meet such methods of opposition.

Four men in an automobile who trailed the car of Burns all day yesterday and last night were arrested and placed in the city prison at an early hour today.

No specific charge was placed against them. A revolver, found under the chauffeur's seat was the only weapon they carried. They gave their names as "Kid" Nelson, Tom Groves, A. H. Middlemas and Jim Hayes.

LINKED CAKE'S NAME

(Continued from Page One.)

didacy in the hope of defeating him when the legislature convenes. Nothing that I have seen in the present campaign indicates such wanton treachery on the part of any of the men of your own party.

Cake and Standard Oil.

"Referring now to the circulation of the charge that Mr. Cake is one of the attorneys for the Standard Oil company, permit me to say that I have never intimated such a thing in any address I have made, and no literature is being circulated by me, or with my consent or knowledge, bearing on this subject. I have recently heard, however, that literature which you yourself prepared to defeat Mr. Cake in 1906, is being circulated, not by my friends, but by your enemies; and, if you learned that the charge which you then made was false, your open letter contains the first intimation that I have ever had of any desire on your part to correct it. Do you not think that you are a little slow about correcting statements in regard to Mr. Cake's connection with the Standard Oil company which you yourself gave currency to more than two years ago? Do you not think that the honest thing for you to have done would have been to have corrected the charges which you made as soon as you learned of their falsity? The responsibility for them during all of these two years rests solely upon you.

Where Responsibility Rests.

"In conclusion, permit me to say that if the principle involved in Statement No. 1 is defeated in the election, it will be because of the vacillating course which you and Mr. Cake have taken in this matter.

"If you had both maintained the same position after the primaries that you took before that time and had continued to advocate the nomination as well as the election of men who were pledged to Statement No. 1, there is no question in the minds of the people of this state but that the legislature would be overwhelmingly in favor of Statement No. 1; but you have both abandoned that position and, while professing to believe in Statement No. 1, you decline to advise the people to elect only men who are pledged to that doctrine.

"The responsibility for the defeat of the principle, if it should be defeated, must rest with you and Mr. Cake, and not with me. Yours truly,

"GEO. E. CHAMBERLAIN."

GOVERNOR PREVENTED

(Continued from Page One.)

vention of the National Prison Reform association at Chicago. I listened to learned papers on the latest prison reform methods and can say to the people of this state that nearly all the suggestions made there are in force at our institution and in some respects we are far ahead of them.

"Though Lee was Superintendent I do not blame him. The conditions existing then were those that had existed since the prison was built. Furthermore the warden at that time, Mr. James, was a brother-in-law of Governor Geer and Lee was really only a figure head. He should have resigned but he didn't; therefore on him must fall the blame. However, Mr. Lee has been very friendly to us and always realized that the prison was in a fearful way when he was superintendent.

"Governor Chamberlain's pardons have always been made with a view to improving the conditions of both the prisoner and of the people. Not a pardon was given unless the governor thought it was deserving. If the slightest thing was found that looked shady in any of the pardon proceedings the prisoner was not pardoned. No one could have pardoned as many prisoners with as thorough an understanding of conditions as did Governor Chamberlain for he was always close to the prison and the convicts.

The prison policy of Chamberlain has been to make the prison a reformatory as it should be and not a place for penning up ferocious specimens of humanity as the prison had been previous to Chamberlain's administration."

ANOTHER GOULD ROAD IS IN DIFFICULTY

Wabash-Pittsburg Terminal Railway Facing Payment of $600,000 Interest.

(United Press Leased Wire.)

New York, May 28.—Another member of the great Gould transcontinental railroad system is in difficulty, this time it being the Wabash-Pittsburg Terminal railway, which is facing a payment of more than $600,000 in interest charges next Monday.

Conferences looking to a reorganization of the property have been held recently by the Gould interests, and it is expected that final steps will be taken at a meeting this afternoon. Meanwhile Wall street is manifesting great interest in the formation of a committee to protect the holders of the company's $30,236,000 first mortgage bonds. The names of the members will be announced shortly.

Rains Improve Wheat.

(Special Dispatch to The Journal.)

Tygh Valley, Or., May 28.—The late rains about Tygh Valley have greatly improved the wheat, although fall wheat has been damaged to some extent by frosts. The prospects are good for a fair crop. There are now four societies, viz., the Oddfellows, Grange, M. U. of A., and the Royal Neighbors of America at Tygh Valley with a combined membership of 192.

In order to handle the growing business between Tygh Valley and The Dalles, the Poe Telephone and Telegraph company are contemplating installation of another wire between these two points. At present there are nine lines running into the station on Fifth and two other lines under construction.

All the adjectives that could be used to describe a different and better graham cracker couldn't do justice to

RED LABEL GRAHAM CRACKERS

They possess an indescribable palate-charm and goodness that can be appreciated only by actual eating.
