SUTOR POUNDED TO FINE FRAZZLE

Portland Stickers Land Hard and Bat Out Victory Over Seals.

Vic Metcalf stung us to the quick
With his "musketeer" craft.
He socked us in the middle and
He jabbed us fore and aft.
But that won't help one Daniel Long,
Or save his bacon rind.
And what we did to Sutor boy
We'll do to all his kind.
—McCredie's Murmurings.

Two three base hits with men on bases, combined with the remarkable pitching of Jesse Garrett, the spitball artist, the fine fielding of Ote Johnson and the general all-round playing of the Beavers gave them a 6 to 1 victory over San Francisco yesterday. John rapped out a triple with one man on the sacks and Raftery came through in the next inning with a three cushion swat with the cushions bulging.

Southpaw Sutor was given a good beating, though he pitched a fairly good game. He was wild at times but when that offside soupbone got working good he was extremely dangerous. Sutor got a bad start. Casey worked him for a base on balls. He was sent on to second by Ryan's sacrifice and Buddy was safe also when Curtis erred. Raftery's foul fly was gobbled up by Curtis and Danzig was walked, filling the stations. Bassey's long sacrifice to Piper scored Casey.

Portland laid off till the fourth, when things took another delightful turn. Danzig connected for one bag. Bassey sacrificed him to second and he scored on Ote Johnson's three-base hit. There was but one out and everything was rosy for a squeeze play but Phil Cooney in attempting to bunt popped an insignificant fly right into Sutor's paws and the curtains were drawn on Ote midway between third and home.

There was more doing in the fifth for the home talent. Whalen was an easy out, Mohler to McArdle, but Garrett reached the first turn on Zelder's first error. Hec went on to the middle station when Casey drew his second free ticket. Ryan moved his predecessors up another notch with a pretty single. Then came Raftery's terrific drive past Piper for three bases, scoring all hands.

Raff tried to score on a squeeze play but signals got mixed somehow and the speedy fellow was caught between the bases Berry to Curtis. Both Danzig and Basey were walked, but Johnson struck out, retiring the side. Portland's last run occurred in the ninth. Bassey hit for one base, reached second on Zelder's error, was sacrificed to third by Johnson and came home on Cooney's hit. Whalen and Garrett were easy outs.

The run that saved the Seals an ignominious coat of whitewash was put over in the fifth inning after Piper and McArdle had been chased via the fly route. Berry singled and scored on Sutor's two-bagger. Sutor was caught napping at third by Whalen, while Hildebrand was trying to filch second after he had reached first on Garrett's error.

The Texan settled right down to business after that and the three-man route finished the Seals' aspirations.

AUTOS ARE NOT BUILT TO UNDERGO HARDSHIPS MET IN THE SISKIYOUS

"The present condition of the roads, especially those over the mountains, is such that automobiles are not built to undergo the hardships encountered." Thus spoke William Wagner upon his arrival from Medford this morning. He was at the steering wheel of Nelson's White Steam car for 18 hours and is not yet over the effects of the severe strain he was put to.

"Despite the fact that we lost the road twice," said Wagner, "went out of our way twice and had to stop a number of times to seek proper directions, we arrived at Medford without a hitch to the car. It is hardly necessary to state that the machine was in fine shape, as from Cole to Medford young Nelson told me we gained 48 minutes on our schedule of 35 hours to Portland."

Wagner recounted several incidents of his part of the trip, probably the most difficult of the journey.

On one occasion just before dark on Wednesday they ran into a band of at least 2,000 sheep. The road was narrow and despite the fact that Nelson and Johansen ran ahead in an attempt to clear the course, the auto had to creep along behind for over six miles.

Wagner remarked that it was so cold on the trip over the mountains in northern California that three vests failed to keep him warm. "We could almost see the frost on the fenders," he remarked, "and my ear became so numb I was afraid to touch it lest it might fall off."

Wagner says the automobile was welcomed all along the line. At Dunsmuir several men expressed the wish that the car beat the deuce out of the train time and thus make the railroad officials sit up and take notice. According to the San Francisco motorist, at Medford business was actually suspended while Nelson and his crew got a bite to eat.

Wagner says that even under more favorable road conditions the trip is one that would be the most severe test a machine could be put to. "Why, in the Shasta mountains we climbed grades that were almost straight up and down," he remarked. "Frank Nelson yelled to me on several occasions he feared the machine would turn over backwards."

PARIS HAS GONE PRIZE FIGHT MAD

(United Press Leased Wire.)

New York, May 29.—While Lewis the California fighter, is here and says he is preparing to return to Paris where the fighting game is good just at present.

In reference to the match in that city with Walter Stanton, he said:

"Stanton was making a big hit in Europe and was a great drawing card before I knocked him out, but now the public has no use for him."

Lewis says Paris is prizefight mad and verifies the reports that have been received here lately of the tremendous interest being taken lately in ring contests by all classes of society.

"Spike" Robson and Tommy O'Toole.

(United Press Leased Wire.)

Philadelphia, Pa., May 29.—Tommy O'Toole and "Spike" Robson, the English lightweight, are to furnish the fistic entertainment in this city tonight. The two are regarded as evenly matched and are expected to put up as lively a six-round bout as has been seen here in some time.

THIS IS GROOM.

The longest and narrowest physique in the Coast league belongs to Robert Groom, a native of Bellville, Illinois. Bobby is the big scream on the Portland pitching staff, according to Manager McCredie, and his mother coincides perfectly with Mac's views. Bobby was born in 1884 and commenced playing ball right at the start. Now he is a star. He played semi-professional around St. Louis in 1903 and the following year went to Fort Scott, in the Missouri Valley league. He was taken up by Springfield, in the Western association, in 1905 and remained with that town until 1907, when he was brought out to Portland by Manager McCredie, Mac having paid a good price for the youngster's services. Bobby has a choice assortment of curves and is one of the steadiest slabsters in the league.

VARSITY MEN ON FRANKLIN FIELD

College Stars Commence Preliminary Track Meet in Philadelphia.

(United Press Leased Wire.)

Philadelphia, Pa., May 29.—Scores of athletes, representing the cream of the eastern collegiate performers and also a number from the middle west, streamed into Philadelphia this morning to take part in the intercollegiate track and field championships at Franklin field. The preliminary events on the long program are set for this afternoon and tomorrow the finals will be contested.

The championships this year are chiefly interesting from the fact that a large number of candidates for the Olympic games in London this summer are among the entries and the showing they will make will have an important bearing on their chances of going abroad.

In the number of competing athletes and their high quality, the present meet comes close to establishing a new record. Yale, Harvard, Princeton, Pennsylvania, Columbia, Syracuse, Amherst, Dartmouth, Williams, Swarthmore, Cornell, Brown, Johns Hopkins and Fordham have sent their star performers. Upon the University of Michigan devolves the task of upholding the honors of the west.

Yale, fresh from a victory over Harvard, looms up as a dangerous competitor to Cornell, Pennsylvania and Michigan. The Elis are expected to score in almost all of the track events, and should sweep the pole vault. Except in the broad jump, Yale is expected also to score in the other field events, which will put her well up in the front rank.

Michigan is well thought of, though her real strength is not known. Cornell, Pennsylvania and Princeton have strong teams. It is the opinion of many competent critics that the competition between the big colleges will be closer than ever this year and that 25 points may win the meet.

James E. Sullivan is the referee of the meet, and G. T. Kirby, Thornton Gerrish and Romelyn Berry form the advisory committee of inspectors. The other officials are: Inspector, Walter Camp; clerk of the course, John J. Dixon; judges at the finish, Bartow S. Weeks, M. P. Halpin, John J. Walsh and F. W. Rubien.

SALEM HIGH WINNER OF GOVERNOR'S CUP

By Defeating Columbia University Capital Bunch Wins Championship.

(Salem Bureau of The Journal.)

Salem, Or., May 28.—Governor Chamberlain's silver trophy for the interscholastic baseball championship of Oregon was won by Salem High school in an exciting game with Columbia university on the Willamette university field here yesterday afternoon. Both teams put up fast ball, though costly errors threatened twice to lose the game for Salem. The score was 3 to 5.

Larry Keene, Salem's reliable twirler, began in excellent form and struck out the first man up. He had thrown but three balls over the plate. The second man was also struck out, but Larry's form did not last and Columbia landed on him for three hits and ran in two runs, all during the first inning.

Six hits were secured off both Sullivan and Weisgerber. However, Larry struck out 11 men while Weisgerber struck out but four. Larry walked nobody and Weisgerber walked two. In the second inning Salem bunched a couple of hits which with an error secured four runs and practically won for them the game. Columbia made one error and Salem five.

Had it not been for the five unusual errors made by Salem High Columbia would never have had a look-in after the first inning. Score by innings:

Columbia ..... 2 0 0 0 0 0 0 1 0—3
Salem High ..... 0 4 0 0 1 0 0 0 0—5

Batteries—Weisgerber and Ennis; Keene and Jones. Umpire, Lawrence.

Some dissatisfaction was expressed because of Lawrence's rulings. He undoubtedly favored Salem.

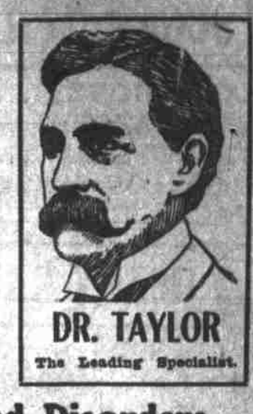
MEN CURED

OF "WEAKNESS" VARICOCELE, Etc.



DR. TAYLOR
The Leading Specialist.

The tendency of men to neglect minor ailments is responsible for many a blighted life. Happiness and safety demand that skilled medical aid be sought upon the first manifestation of weakness or other disorder in the men. Neglect means the oncoming of aggravated conditions that will in time involve the general constitution. During my sixteen years as a specialist in men's diseases I have met with every possible complication of private ailments. My success in effecting permanent cures has never been approached. I have acquired the understanding and perfected the methods that enable me to accomplish results such as have been regarded as impossible.

My Fee For a Cure Is $10 In Any Uncomplicated Case

PAY WHEN CURED

"Weakness" Cured Permanently

Functioned derangements, commonly termed "weakness," are a direct result of inflammation, enlargement or excessive sensitiveness of the prostate gland, brought on by early dissipation or resulting from some improperly treated contracted disorder. These conditions cannot positively be removed by internal medicines and any tonic system of treatment that stimulates activity of the functions can but result in aggravation of the real ailment.

This is a scientific truth that I have ascertained after careful study and observation in hundreds of cases, and is a truth upon which my own original system of treatment is based. I employ neither tonic, stimulants nor electric belts. I treat by local methods exclusively and my success in curing even those cases that others have failed to temporarily relieve with their tonics is conclusive evidence that my method affords the only possible means of a complete and a radical cure.

Contracted Disorders

Safe, Permanent Cures

To but partially cure a contracted disease is almost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed the probability exists that the disease will gradually work its way into the general system. Still greater is the danger of the prostate gland becoming chronically inflamed, which always brings partial or complete loss of sexual power. Perhaps 25 per cent of the cases of so-called "weakness" are a direct result of some improperly treated contracted disease. During the past five years I have treated thousands of cases of contracted disorders and have effected an absolute thorough and safe cure in each instance. There have been no relapses or undesirable developments whatever, and my patients have been cured in less time than other and less thorough forms of treatment require in producing even doubtful results.

Specific Blood Poison

Others dose the system with mineral poisons scarcely less dangerous than the disease itself. The best they hope to do by this treatment is to keep the disease from manifesting its presence upon the surface of the body. Under my treatment the entire system is cleansed. The last taint of virus is destroyed. Every symptom vanishes to appear no more. I employ harmless blood-cleansing remedies. They are remedies heretofore unknown in the treatment of this disease. They cure by neutralizing and absolutely destroying the poison in the system. Such cures cannot be other than complete and permanent.
