

Business and the American Woman.

THE trouble with the American wife, according to a writer in Appleton's Magazine, is that she has no place in the economic system.

This complaint of the American woman includes the statement that the modern mother finds her existence so busy and luxurious that her children have little reason to respect her memory.

The critic of woman, no matter what status in life she occupies, are always with us, but this argument would seem applicable to only one class of American women.

There is another class of wives, and it is preferable to think that their number far surpasses that of the self-indulgent parents.

This is the sort of wife who inspires her husband with a belief in himself just because she believes so much in him.

She is the wife who is sunny in the morning, who starts her husband off to his day's work with a word of cheer.

She is the wife who is so large a part of her husband's life that he would not be a man without her.

She is the wife who begins when the first boy is born to arrange for his education.

Creole Coffee Brulo.

At home a few days ago, I was delighted to witness a revival of the old New Orleans custom of concluding the dinner with the service of the "cafe brulo."

It was the epicure who spoke, and when the epicure asserts himself so positively, it is the duty of all who love good things to eat and drink to bend a willing ear in listening.

In one sense of the word, the epicure continued, "the term 'cafe brulo' denotes a matter of service only, as it indicates the coffee to be served."

So far as the coffee itself is concerned, any ordinary process that is productive of a potent of good, strong, black coffee will answer the purpose.

The grade of Mocha is the best, but the use of other kinds of coffee does not make the service of the "cafe brulo" impossible.

This, however, is the manner in which it must be served, and upon this point at least, individual invention should be directed from below up.

Make the coffee in a percolator—in a French coffee urn, if you are so fortunate as to possess one—but have the steaming brulo on a silver tray that is large enough to contain a wide-mouthed bowl of goodly proportions.

Place a glass of brandy, three dishes containing loaf sugar, the second filled with the spices and the third with some tangerine orange peel that has been cut into tiny pieces.

At least, see that a whipped cream ladle also reposes upon the tray. If possible, the bowl, as well as the small dishes and the ladle, should be of silver.

When this array of materials has been placed before the hostess, she first puts as many lumps of sugar as may be necessary to sweeten the coffee.

It is not until the flames have died away that the coffee is added, but then it is poured directly into the bowl until the coffee is just below the brim.

The mixture is stirred, after the coffee has been added, and the coffee is transferred to the regulation after-dinner coffee cups by means of the ladle.

And it is good coffee, the epicure added, as he moistened his lips reminiscently. "It is difficult to make you realize how good coffee, so—well, the best way is to try it."

That Trip Abroad.

IF YOU are planning a trip to Europe it will be well to give attention to the outfit you take.

Inexpensive travelers load themselves down with unnecessary baggage—a nuisance and an expense.

Of course your traveling dress will be a coat or bolero and skirt, the skirt ankle length, on the side of modesty.

Lighter weights in serge, alpaca or in tafeta even, are shedding the dust well, and they are easy to pack.

Who wants to look like a frump when one is out on a pleasure jaunt, and when the coat is packed away?

A good taffeta silk petticoat is more satisfactory and more economical than a pair of long, heavy skirts.

SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation. We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

For proof of this statement read the following letters. Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham: "For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes: "I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles and last March my physician decided that an operation was necessary."

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. A. A. Press, Lynn, Mass.
