

TODAY'S MARKETS

Today Begins the Rose Festival and Many Thousands of People Are Visiting City—Markets Will Be Better.

BEST BERRIES AT \$4 TODAY

Fine Quality Is Shown in Late Arrivals From Mosier and Hood River.

Portland wholesale markets: Strawberries coming faster; Peaches soon to arrive. All would like lower butter. Car Mississippi tomatoes, cheap. Car red onions in this morning. Car mixed vegetables comes handy. More steamed potatoes, better market may do better. Dullness continues in hops.

Strawberries Come Faster. There was an increase in the arrivals of Oregon strawberries in the Front street markets today. Most of the late arrivals were from the Mosier-Hood River districts. Supplies were in very fine shape, but sold at 25c a crate, lower than the previous week, the better stocks. The best Mosier-Hood River fruit sold at \$4 per crate of 24 boxes, containing 100 lbs. of fruit. There was no change in the price of Willamette valley stock, this ruling from \$3.50 to \$3.75 per crate. The California train was late, and supplies of strawberries, which were not so heavy. The best sold at \$1.75 a crate of 16 boxes.

Peaches Are Due Soon. According to advices received in this market from California, that state will soon be shipping peaches to this market. One firm wrote today that it will have peaches here within a week. First arrivals will be Alexanders and will cost about \$1.25 in the local market.

Citrus Fruit Shipments from California will start in this direction about the first of next week. According to advices received here, today's crop is in fine shape, with ample supplies promised. The cherry supplies are increasing, the better quality is able to keep prices from declining.

Car Mississippi Tomatoes. The first full car of Mississippi tomatoes to enter this market for the present season was due this morning. Supplies of California tomatoes are very high, the Front street houses, and quality is not all that could be desired.

A car of red onions was among the arrivals from the south this morning. Shipments arrived in better shape. Prices of late have been showing up somewhat better for reds in the south, and local values are therefore more easily maintained. Still quoted at \$1.75 a sack.

Local Potato Market is firm for local demand, but outside business is very quiet. However, no concessions are being made in local values.

A car of mixed vegetables arrived from California this morning and found a good demand at former prices. String beans are more plentiful, and both green and wax are today quoted at 11c a pound.

Wholesale Salmon Arriving. While the run has not been materially increased, the local markets today are showing better supplies of salmon. Most of the increase is in steelheads, which, however, are quoted at 3c a pound, the same price as bluebacks. Chinooks are scarce at 10c a pound.

Local Egg Market is slightly weaker tone in the local egg market during the day's trading. Supplies are again showing up somewhat better for reds in the south, and local values are therefore more easily maintained. Still quoted at \$1.75 a sack.

With many visitors in the city during the present week, it is quite likely that a better tone will be shown in the poultry market during the Rose festival. Because of the heavy supplies purchased last week by the large retailers, it is not believed that the improvement will be very heavy as regards the price.

Brief Notes of the Trade. Cheese markets are holding their own, with flats at 13c and young Americans at 14c a pound. Hops are rather quiet, with the few transactions now reported around 4c and 4 1/2c. Five cents is the extreme limit at this time.

Wholesale prices are arriving in larger supply and are being quoted at \$4 per crate of 16 melons. Melons will likely show a better tone during the present week than the previous six days. However, because of the promise of warmer weather, greater care must be taken in shipment.

Front street sells at the following prices: High-class shippers are less regular commissions: Grain, Flour and Hay.
