

CURES ECZEMA QUICKLY

New Drug, Postum, Now Obtainable in Small Quantities.

Since its discovery one year ago, the new drug, postum, has succeeded in curing thousands of chronic cases of eczema and other distressing skin afflictions. Heretofore postum has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment. This was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, and scalp complications, hemorrhoids, itching feet, piles, etc., which require but a small quantity to cure. To overcome this, and in response to urgent appeals, the dispensation of postum have been obliged to adopt in addition to the regular two-dollar package, a special fifty-cent package, which in future will be found on sale at the Skidmore Drug Company and other leading drug stores in Portland, or may be ordered direct from the Emergency Laboratories, No. 22 West Twenty-fifth street, New York City. In all eczema cases postum stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application.

Samples for experimental purposes may still be had free of charge by writing to the laboratories for them.

days when "Kally came to bat" and Captain Amos' first strike now to become a Koshier market place. There are to be stalls for live fowls and other stalls for fish and art objects in the grounds where truculent rosters sat on splintery benches. Where the diamond once was, hallowed by the spiked fountain of Amos' "hit," there will be an eating house. On these grounds baseball grew to manhood. Now, on the very spot where the great protector was invented while an unexpected catcher recovered from a foul tip to the pit of the stomach, patty batters are to go on. The square of Koshier poultry will be heard where once went up ecstatic yells of victory and grand stand cushions have been moved to winter where in the '80's the southpaws from Boston and elsewhere spit on their hands and "sent 'em howling" to the ground. Fans can have their way, the glassed brick walls will bear tablets variously inscribed, as:

July 12, 1885 Billy Sunday's Slide In honor of other historic crises for umpires and penitents, the grass is uncut in the outfield where Ryan captured fire; there are tomato cans in the pitcher's box and a sign of Clarkston unlimbered his mystifying shots, but the fans of the west will never admit that wasn't "the greatest baseball patch ever."

OREGON WOMEN'S CLUB HONORS THIS MEMBER

(Special Dispatch to The Journal.) Pacific University, Forest Grove, Or., June 4.—Miss Mary F. Farnham, professor of literature and English in the university, has been elected a delegate by the Federated Women's club of Oregon to the biennial National Federated convention which will be held in Boston, June 25. After attending the meetings in Boston, Miss Farnham will attend the centennial exercises of Brighton academy, where she pursued her preparatory work before going to Mount Holyoke. After a short visit to her old home in Maine, Miss Farnham will return.

ROSE MORE PROFICIENT

The discovery by an investigating committee that the Chicago firemen are not up to the standard set by the fire horses has resulted in a unique tribute to the animals that respond to fire alarms and may lead to sweeping changes in the city's fire department. The commission pronounced the work of the firemen as lax and said that the work of the fire horses, on whom the safety of the big city depends, is more important than the physical requirements were unduly subordinated to the mental. This will now be changed and the heavier firemen will be sought. A similar reform is planned in the police department, except that here the mental test will have greater weight.

Mad Turtle Farm

A mud turtle farm, which will also be devoted to the raising of mushrooms, gold fish and guinea pigs, is the latest venture of the head of one of the big western railroads. President H. I. Miller of the Chicago & Eastern Illinois is the man who has hit upon this novel form of diversified farming as a relief from business cares, and he intends incidentally to show the farmers of the grain belt that 200 acres of terrapins and guinea pigs will pay bigger dividends than even 30-cent corn. The farm is located at Barrington, a suburb of Chicago, and is a tract of rolling timbered land. Numerous lagoons and ponds are being dug, where the physical requirements were unduly subordinated to the mental. This will now be changed and the heavier firemen will be sought. A similar reform is planned in the police department, except that here the mental test will have greater weight.

SLANDER CASE IS REVERSED BY COURT

(Special Dispatch to The Journal.) Olympia, Wash., June 4.—A slander case in which two rival funeral directors of Seattle were the principals has been reversed and dismissed by the supreme court. J. J. Bleits, suing Matthew G. Carton for \$13,000, alleging that Carton had been making statements to the effect that Bleits had a wife in the east and another in Seattle; had been in jail back east and was not a fit man to associate with decent people.

DRAGGED BY SLED ESCAPE FROM DEATH

(Special Dispatch to The Journal.) Monroe, Or., June 4.—A most remarkable escape from death was experienced here by Mrs. J. H. Starr and her 6-year-old son Louis when they were driven headlong in front of a heavy farm sled and dragged along for a hundred yards behind a pair of frightened horses. How either escaped alive is a mystery. The sled was pulled and twisted along under the front of the heavy runners, while part of their clothing or limbs were caught on the front of the sled and held until after a hundred yards of road had been traversed. The sled suddenly turned over and the two occupants jumped up almost without a bruise. A seat on the sled had been placed near the front so that the garments, blankets, etc., could be placed in the back, and in driving across a small ditch the boy started to fall when Mrs. Starr reached forward to catch him. The horses, feeling the lines slacken, gave a start, when the two people were thrown out in front.

RICH REWARD CAME TOO LATE

Idaho Miner Returns With Vast Wealth, to Find Old Partner Dead.

(Special Dispatch to The Journal.)

Wallace, Ida., June 4.—After a lapse of over 24 years and after a journey of 7,000 miles undertaken for the purpose of rewarding an old negro who had befriended him in a time of need, Charles Moorehouse arrived in the Coeur d'Alenes from Tahiti today with a check for \$10,000, only to find that his benefactor had gone to his last long rest two years ago and his estate was in litigation.

Grew Rich in South Seas.

The mining venture, however, proved unsuccessful, and Moorehouse left the district as poor as he had come. From here he went to the South Sea Islands, and with very little capital managed at last to start for himself in the copra business, which he made a vast fortune, on which he has now retired. He made it his first business to seek out his old friend and reward him for his past kindnesses, and came here with a check for \$10,000 made out and ready to hand over.

CHICAGO BOARD OF TRADE WILL CELEBRATE BECAUSE OF WONDERFUL DEVELOPMENT OF WEST DURING PAST 60 YEARS—LAKE CITY NEWS.

Chicago, June 4.—The phenomenal development of the west during the last 60 years gives peculiar interest to the proposed celebration by business interests here of the diamond jubilee of the Chicago board of trade, for the increase of transaction on that exchange reflects the changes in the prairie states. In 1848, when the board was organized, the shipments of corn at Chicago were 650,000 bushels and against 15,770 bushels shipped last year and 126,159,932 bushels received, figures which tell the story of corn belt during 60 years. Chicago had a population of less than 20,000, the state of Illinois had only 157,000 people and the United States had not yet attained a total of 15,000,000 population. Today the population of Chicago is 5,500,000; of the United States, 90,000,000. The founders of the board aimed to apply the principle of cooperation to the expensive task of securing the world's crop facts. The purpose, as expressed then in the by-laws of the board, have stood two thirds of a century, they being set out thus: To maintain a commercial exchange; to promote uniformity in the customs and usages of measure to inculcate principles of justice and equity in trade; to facilitate the speedy adjustment of business disputes; to acquire and disseminate valuable market and economic information, and, generally, to secure to its members the benefits of cooperation in the furtherance of their legitimate pursuits.

Interesting Facts.

The legal battle between the \$120,000,000 "harvester trust" and the state of Kansas, which has reached its final stage with the taking of testimony in this city, is developing many interesting facts about the company's agency methods. Attorney-General Fred E. Jackson of Kansas charges that the various companies that go to make up the International Harvester company have effected a combination in restraint of trade and have raised prices and compelled agents to handle only their goods. In its effort to refute these contentions the big corporation has offered at last to throw open its books to the prosecution and Harvester company have effected a combination in restraint of trade and have raised prices and compelled agents to handle only their goods. In its effort to refute these contentions the big corporation has offered at last to throw open its books to the prosecution and Harvester company have effected a combination in restraint of trade and have raised prices and compelled agents to handle only their goods. In its effort to refute these contentions the big corporation has offered at last to throw open its books to the prosecution and Harvester company have effected a combination in restraint of trade and have raised prices and compelled agents to handle only their goods.

one way out of it

As long as you live you will have to wear clothes. The style that you wear. Inasmuch as you have to wear clothes and wish to keep within hailing distance of the proper style, isn't it the best plan to have a tailor make your clothes whose ideas are up-to-date and whose stock is a year ahead of the other tailors? The only solution of the problem is to go to the shop where the goods are new, the styles proper, the workmen skilled, the price satisfactory and the suit above reproach. One-third of Portland believes that we make the best clothes. That third is right.

THE FIRST TASTE

Learned to Drink Coffee When a Baby. If parents realized the fact that coffee contains a drug—caffeine—which is especially harmful to children, they would doubtless hesitate before giving the babies coffee to drink.

There's a Reason

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.
